Increased arrivals of southern and southeastern berries are forcing the market somewhat lower and greatly bettering the fruit offered. Prices are now quoted at from \$3.55 to \$3.75 per crate. Apples still continue a poor money-making crop, for though there is a demand for the larger sizes, only the smaller grades are in evidence, and are finding but few buyers.

Potatoes have started moving southward from the Willamette valley, but prices offered are very poor. Bids of 25 cents per hundred pounds are bringing out some smaller varieties, but most local farmers prefer to sell in Portland, at from 40 cents a sack up to shipping at present. It is expected that prices will be better within a week or so.

Butter is showing an indication of falling off another cent or so a pound, principally because of shipments in from the south. Local supply of butter is sufficient to meet the demand, and the arrival of outside product is forcing the prices down on both home and imported stock. Eggs are still selling at low prices.

the spectators who pinned their faith to the European productions, and the performance of an Overland Model 69 T was especially noteworthy. The Overland took second place in the Goteborg hill climb, an incidental competition in the event, making the best time for the climb of any of the cars. The Overland car, No. 57, made the best time of any of the entrants in negotiating the hill, making the climb in 2 hours, 22 minutes and 7 seconds. The time of the N. A. G. car, which was given first place through handicap reckonings of the rating formula, was 2 hours, 12 minutes and 4 seconds. Both No. 57 and Overland No. 30 finished with perfect scores, neither having been found in need of any repairs during the contest nor late at any of the controls. Both the Overlands were strictly stock cars, without any previous preparation for the contest. They were taken from the garage of the Stockholm distributor and entered in the run with nothing added to the regular equipment except tire chains. The formula, utilized by the Swedish club for the first time this year, in determining the winners, is being warmly commended by motor authorities everywhere, as the most thorough ever used in like events. Not only was the weight of the car and size of the motor taken into consideration, but road conditions and hill grades were figured in. In the Goteborg hill climb, especially, the reckoning was carefully made. The climb occurred on the return journey from Goteborg, and every car was brought to a stop at the foot of the hill. There the stop watches of the observers who rode in the cars and the officials were compared and an exceedingly careful account was taken of everything during the race. At the top of the hill, again, watches were compared and the observer handed his notebook over to the officials stationed there.

No Nepalese Old Maids. One must go to Nepal to break the record for early marriages, for there every girl is married in infancy. But then, the bridegroom is not very terrible. She is married with elaborate ceremony to a bel fruit, which is then thrown into some sacred stream. The fate of the fruit being always unknown, every girl is thus spared the disgrace of becoming a widow, while at the same time a second husband is beneficently allowed to her later on.—London Standard.

Unsatisfactory Either Way.

The late Joaquin Miller once entertained among the train of pilgrims continually flocking to his Piedmont camp, above Oakland, a young woman fortune teller. Though the young woman was both pretty and persuasive, the poet would not let her tell his fortune. He said gravely, pushing back his leonine white mane: "No, no; a peep into the future would undoubtedly be as unsatisfactory to all of us as a glance at the past."—Exchange.

Her Chilly Retort.

The late Dr. of Malden, after pouring forth the story of his undying love in the most touching manner for over an hour to a young woman whom he hoped would become his fourth wife, was refused the second time. He started for the door; but, looking around, he said in a most thunderous tone, "By heavens, you are the coldest woman I ever saw!" The young woman looked up and answered sweetly: "Oh, no, doctor. You have seen three colder than I!"—Boston Herald.
