CITY OFFICIAL NEWSPAPER

May 4 in American History.

1706—Horace Mann, author and educator, born in Franklin, Mass.; died 1853. 1801—President Lincoln informed foreign powers of his intention to maintain Federal authority by force of arms and called 42,000 volunteers to the field. 1863—End of the Chancellorsville campaign. General Hooker's army recrossed the Rappahannock. General Sedgwick was forced to abandon Marye's heights. The Federals lost 11,000 men, killed and wounded, and the Confederates 10,000.

ASTRONOMICAL EVENTS.

Evening star: Saturn. Morning stars: Mercury, Jupiter, Mars, Venus. Constellation Perseus, including the bright star Algol, approaches the north-western horizon in the early evening.

PARTY DOCTRINE

The serving of MAY AID WEST rural communities, and, in many cases, of isolated farms, plantations and ranches, with electricity generated by water power plants, is a part of the question of conservation. The question is not one for cities, towns and manufacturing centers only. The tremendous possibilities of this country, in most of its sections, in streams capable of affording high water power privileges, should be made to put not only the larger centers of population in ready touch with this new mechanical and commercial force, but agriculturists wanting to facilitate their work and enlarge their annual output, should be afforded opportunity at rates which will not be prohibitive.

The fight for reasonable rates will begin in congress during the present year, and, in all probability, during the special session. There are already indications that there will be an appeal to the old sentiment of the party which will be in control of the government, in favor of state rights as against any right of the federal government to regulate or control the rates to be charged, or the service to be given, by water power companies. If such an appeal is made the democrats will probably have the support of the republicans from the western states—not because these republicans believe in the doctrine of states rights, but because the west has suffered far too long from bureaucratic control of water-powers and other

public resources. The West believes that it ought to have something to say about its own resources, it believes that "conservation" as maintained by Eastern theorists for many years has been a dangerous and harmful force, and it would like to try managing its own public affairs for its own benefit. Western states are not going to destroy their resources; and if they get control of their water-powers through some juggling of democratic doctrine of the past with present day actualities, they will give a good account of their stewardship.

THE SPIRITUAL LIFE.

Go on in all simplicity. Do not be so anxious to win a quiet mind and it will be all the quieter. Do not examine so closely into the progress of your own soul. Do not crave so much to be perfect, but let your spiritual life be formed by your duties and by the actions which are called forth by circumstances.—Francis de Sales.

All Classes of Children Should Be Educated Together

By Professor ROYAL MEEKER, Princeton University

I BELIEVE our system of education can be improved. I note that boys and girls drop out of school at all stages of the educational process, but FAIL TO DROP SMOOTHLY INTO ANY PART OF OUR ECONOMIC SYSTEM. The result is much confusion, loss of time, idleness, worry, misdirected effort, incompetence growing into HABITUAL LOAFING, PAUPERISM, DELINQUENCY AND CRIME. Aliens ascribe a large proportion of insanity to economic causes—the insufficiency of a four hundred dollar income to purchase eight hundred dollars' worth of minimum of subsistence. No change, however drastic, in the school law can possibly eliminate insanity, feeble mindedness, pauperism, crime, poverty and incompetence. A GOOD SCHOOL SYSTEM, HOWEVER, PROPERLY RELATED TO THE WORLD WHICH BUILDS AND MAINTAINS SCHOOLHOUSES AND SCHOOL SYSTEMS should greatly reduce these undesirable manifestations of imperfect adjustment.

ALL THE CHILDREN OF THE WHOLE COMMUNITY SHOULD BE EDUCATED TOGETHER IN THE ELEMENTARY SCHOOLS IN ORDER TO ACCUSTOM THEM TO CO-OPERATIVE THINKING AND ACTION, SO THAT WHEN THEY COME INTO FULL CITIZENSHIP THEY WILL NOT BE OBLIGED TO BEGIN THEIR SOCIAL AND POLITICAL EDUCATION AT THE BEGINNING. THE CHILDREN OF RICH AND POOR, PROFESSOR AND HODCARRIER, SHOULD ALL ALIKE BE OBLIGED TO ATTEND THE PUBLIC SCHOOLS.

Tariff Changes Welcomed and Condemned

Views of Men of Affairs Country Ready For Revision, Says Framer Stagnates Sugar Growing

By CHARLES A. FARWELL, President of the Louisiana Cane Growers' Association

Braced For Change

By Representative OSCAR W. UNDERWOOD, Who Framed Tariff Bill

WE are willing to concede that immediate free sugar would put the producer to grave disadvantage. But free sugar in three years WILL DESTROY NO LEGITIMATE INDUSTRY in the United States

I DO NOT ANTICIPATE MUCH DISTURBANCE FROM THE TARIFF REVISION; THE COUNTRY IS BRACED FOR THE CHANGE.

No Ill Effects

By GEORGE W. PERKINS, President Cigar-makers' International Union

GENERALLY speaking the present tobacco schedule is left intact. My opinion is that there will be no great business disturbance. THE COMMERCIAL INTERESTS OF THE COUNTRY ARE WELL FORTIFIED for tariff revision downward. I DOUBT IF IT IS GOING TO REDUCE THE COST OF LIVING as much as some men seem to expect it to do.

Bad For Fish Industry

By M. F. BLANCHARD, Director of the New England Fish Exchange

THE salt fish men will be directly affected by the tariff. Many of them will be forced to go out of business. The others will be compelled to move to Newfoundland and Nova Scotia. The fresh fish business will be affected only indirectly at first, but the ruining of the salt fish industry will, of course, have its effect upon all other branches of the business.

Will Watch Effect

By COURTENAY WALTER BENNETT, British Consul General in New York

CONSIDERS will watch the effect of the tariff changes on the industries of this country with great interest. Big businesses have been built up behind a big tariff wall. It would seem likely that when the wall is taken down the BUSINESSES MAY FEEL IT.

Protects Birds

By WILLIAM T. HORNADAY, Director New York Zoological Park

THE effort to protect American birds by tariff legislation is SPLENDID and is the second attempt of the kind. There was one made many years ago, but at that time the birds in this country were not sufficiently well guarded by legislation to make the measure practicable. In recent years, however, laws protecting bird life have been passed in many states and preserves have been established.

Money Saved

By CLAUDE A. SPRECKELS, President Federal Sugar Refining Company I HAVE consistently advocated the placing of sugar on the free list and have done all in my power to reduce or remove the duty on raw sugar. My stand is due to the fact that I am convinced the AMERICAN PEOPLE WOULD BE SAVED NO LESS THAN \$135,000,000 A YEAR through this revision of the tariff.

An Uncertainty

By ROBERT E. MANDELL, Wool Dealer THE free wool tariff will have a FARREACHING EFFECT, and one at the present time can tell what it will be.
