STRONG CASE IS MADE AGAINST LA FRANCE

Clackamas and Multnomah Authorities Piece Together Operations of Insurance Swindler and His Confederates in Securing Body Which They Set Afloat in River-Persons Who Asisted in Moving Corpse to River, and Prisoner's Wife, to be Arrested and Prosecuted.

with the case it is said to be extremely likely that others will also be implicated in the matter, and will be arrested and charged with aiding and abetting LaFrance in his successful plot to collect \$15,000 in insurance

Neither Sheriff E. T. Mass nor the Multnomah county officials, will the matter, however, news of the progress of the investigation has "leaked" from Portland sources, and the swindle now seems to give promise of resulting in against LaFrance and confederates who sided him in "planting" the body found in the river, and subsequently identified as that of LaFrance.

Wife to be Prosecuted

Mrs, LaFrance, who collected the insurance which her husband carried, and who later sent it to him under an assumed name in Texas, will in all probability be prosecuted for her part in the case. It was thought by offiplete case can be made out without trouble of ascertaining whether or generally believed that she could be persuaded to do so.

LaFrance himself is said to have

given the investigators a mation. The prisoner, it is said, has swindled by paying back a part of persistently refused to tell how he the moneys he received. It is reportthat he might have committed a murder as the initial step in his swindle. Evidence has since been discovered, ishment by making a cash settlement however, that has caused the authorities to discard the murder theory, and they are now practically certain where the body was obtained, and whose it was. This detail, however, not absolutely settled, and until the identity of body has been definitely ascertained, information in regard to this point is being withheld by those who have guardedly talked about other incidents in the swindle.

Body Not Williams' It has been practically established though, that the body is not that of

With the Williams possibilty removed, some trouble is being had by the authorities in fixing the identity of the body used by LaFrance.

LaFrance's In spite of their confederates refused to further share courtesy to the Multnomah official in with him in the commission of the ghoulish work, and left him to complete the carrying of the body to the river unaided. This grewsome feat LaFrance accomplished, it is said, by a group of charges tying the corpse to a pole, and dragging it by by-paths and through the woods to a point on the shore of the river. There he hid it again, and the following night dressed it in a suit of his own clothes and set it adrift. It is said it took three days to move the body from the place it was procured to the river.

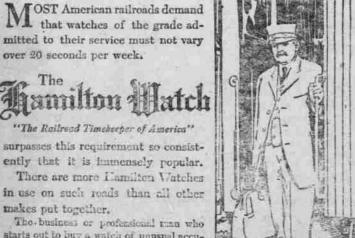

No Compromise Allowed That LaFrance and his confederates can be prosecuted for illegal transcials in charge of the investigation at portation of a corpse is but one of first that immunity might have to be the courts upon which the prosecuoffered Mrs. LaFrance so that she tion will base its case.
