The only way to make a town advance is BY TEAM WORK.

The last census shows that many American cities and villages advanced marvelously, others almost stood still, while others actually went backward

It is a 16 to 1 bet that in the growing towns you will find a UNITED CIVIC SPIRIT. They support a board of trade, a commercial club or some other form of organized boosting.

It is just as certain that in the towns standing still or going backward will be found factionalism and bickering-the citizens pulling in different di-

#### F JENNINGS PICKS WAGNER AS . BATTING MODEL FOR RECRUITS.

In the person of Tyrus Cobb Hugh Jennings has the greatest batter in the major leagues, yet Jennings never advises a recruit to study Cobb's batting form. The reason is found here:

Cobb, as everybody knows, is a most exceptional player. The things Cobb would do and the things Cobb would think of are beyond the pale of comprehension of the majority of the young players, and if Jennings were to advise them to pattern after the Georgian the Tigers' leader would be setting an impossible task. Jennings picks Wagner as a

batting model for the players. Hugh has a number of batting poses of the Pittsburgh shortstop, and when explaining a point to a player he illustrates his meaning with photographs of

the National league star. "Wagner is an awkward fellow. He is an awkward batter, but he has that finishing touch that makes a slugger, and if I can get some of my players to grasp 'that finishing touch' they will be much better hitters than they are now," says Jennings.

"I do not expect any of them to become Wagners, but what I want them to do is to pattern after Hans

"It would be useless to tell them to follow Cobb. Ty does so many things on the spur of the moment. He does so many things that other players could not hope to do that I couldn't expect any recruit to do." <del>\*\*\*\*\*\*\*\*\*\*\*</del>

## HOPPE TO MEET YAMADA.

Pair Will Clash For 18.2 Billiard Title In New York May 27.

Koji Yamada, the Japanese expert, will play Willie Hoppe for the 18.2 balkline billiard championship in New York May 27:

The prospective contest promises to be unusually interesting. Both of the principals are brilliant exponents of the intricacles and beauties of balkline Yamada the more spectacular. While the champion gathers caroms all over the table, the oriental confines his operations so far as possible to the ends of the table, where he executes draws, drives and masse shots with either hand with equal facility

In the tournament for the world's championship last November Yamada was the only player who scored a victory over Hoppe, a feat that was accomplished by the meager margin of three points, the totals being 500 to
