A climbing Caroline Testout was among the bunch and was as well formed as any in the height of the season.

THE LATEST FASHION NOTE

Says: "It is a wise precaution against getting holes in delicate hosiery to powder the shoes before putting them on." Many people sprinkle the famous antiseptic powder, Allen's Foot-Powder, into the shoes, and find that it saves the stockings over in keeping holes from being caused by lessening friction and consequent stretching and chafing of the feet.

May Days of Preparation

It doesn't much matter what your plans for June, July or August are, but you must agree that your comfort during those months will be greater if in the pleasant month of May you take advantage of all of the opportunities offered for preparation.

Last-minute shopping is distressing and unsatisfactory. The weather is swarming the streets and shops are crowded, and the stocks are not nearly as fresh and attractive as they are now. Therefore be forehanded and "let your head save your heels."

Plan your summer outfit now, no matter how small or how extensive it may be; and not only plan it but get it. You will have a lot more fun later on if you have provided yourself with what you need in apparel and sporting goods before the season is in full swing.

If you have any doubt about what you want look at the advertisements in THE ENTERPRISE and other good newspapers; and you will find plenty of suggestions.

A Reliable Hair Tonic.

It is an easy matter to prevent baldness, dandruff and other diseases of the scalp by using Meritol Hair Tonic. It should be used regularly to keep the scalp free of dandruff germs, as these germs are the cause of the majority of cases of dandruff and later, baldness. We are authorized to guarantee Meritol Hair Tonic. Jones Drug Company.

Heart to Heart Talks

By JAMES A. EDGERTON

HELEN KELLER.

I think I have heard you complain of handicaps, of obstacles, in the way of your success.

I advise you to study the career of Helen Keller. Then if you are not ashamed of your complaints there is no hope for you.

Helen Keller is blind and deaf. Being deaf, she is also dumb.

Yet today she is a well educated woman, known in many lands, a writer of ability whose work is eagerly sought by the best magazines, a lecturer who is heard by cultured audiences.

What are your obstacles compared to hers?

You have all five senses. You can read for yourself, write with your own hand, speak without being taught by a long difficult and laborious process.

You have five senses where she has but three. But the two which she lacks are those most needed for education and expression. Therefore you possess more than five chances to her three for winning success.

Yet she has won out, won in a notable and noble way. You, then, should be ashamed to fail.

Immured in her sightless and soundless dungeon, Helen Keller had the will to win. That is the secret. Have you the will to win?

Having the will, she also worked and induced others to help her work. Are you afraid to work?

There are no obstacles so great but what there may be a will great enough to overcome them.

It is simply a question of measuring up to your opportunities and to the part you would play.

You say you can't write or speak. Certainly you can write and speak if you have anything to say.

You say you have no money. Lack of money did not prevent the world's very greatest men and women from arriving at the goal.

Read the list of the immortals. How many of them had money?

It is so with all imaginary or real difficulties. If you have the will and energy you can find a way around or over them.

Remember Helen Keller. She found a way.

So can you.

Joss Sticks.

Joss sticks are made in vast quantities in China and other countries of the east. They consist of bamboo rolled in stems in different odoriferous drugs, two of which are aconite, which serve to protect the sticks against the attacks of rats and mice, and camphor, which causes them to burn steadily without being periodically extinguished.

The Highest Light on Our Coast.

The tallest light tower in the United States is at Cape Hatteras, on the low lying coast of North Carolina, which is 200 feet from base to top of lantern. The highest light, however, is that at Cape Mendocino, on the coast of California, which is 422 feet above high water. It is on a cliff, the lighthouse itself being only twenty feet in height. —National Geographic Magazine.

All Hound Man.

"Does he belong to the 400?"
"Yes, indeed. He's one of the ciphers!" —New York Mail.

Money Powers Dragging Us Back to a State of Feudalism

Independence Only Through Competition

By AMOS PINCHOT, New York Lawyer

THE people pay while the trusts amass millions on their stock. The majority is being impoverished for the minority, and the country is BEING DRAGGED BACK TO A STATE OF FEUDALISM BY THE MONEY POWERS, which have it in their grip.

MONOPOLY IS THE MOST VISIBLE CAUSE OF THE HIGH COST OF LIVING. THE ENORMOUS PROFITS AMASSED BY DISREGARDING OTHERS' INTERESTS BY PUTTING UP PRICES WHEN THEY SHOULD COME DOWN, BY PAYING EXORBITANT INTEREST TO INVESTORS, IS NATURALLY SQUEEZING THE AVERAGE MAN AND HIS FAMILY.

The steel trust last year got at least fifty million dollars, which by right belongs to the people and which it should never have been allowed to take away from them.

The country will never gain its industrial and economic independence until it has RESTORED COMPETITION and ceased to talk about legalizing monopoly. It will never do this until it has disassociated the trusts from the railroads and BROKEN UP THE COMMUNITY OF INTERESTS which exist between them and the corporations.

If an industrial commission was selected as a curb for monopolies it would be likely to fall into the hands of the trusts and would end by being the tool of the interests it set out to master.

We should war on monopolies by strengthening the Sherman act and restoring competition. It is not reasonable to believe that the iniquity can go beyond its present state.

STOCK AVERAGES HIGHER IN PRICE

Receipts for the week have been: Cattle 1789, calves 22, hogs 2432, sheep 4585, horses 2.

A higher weekly market has marked the week's business in the cattle division. Monday showed a big run and bidding was keen and Idaho and Montana stuff brought \$8.40 to \$8.50 Thursday, with several loads from Stanfield and Echo going at \$8.75 off the cars. The cattle supply throughout the country is limited and a steady market is looked for. There was a fine butcher trade, but demand exceeded the supply of heifers, bulls and calves, so cows sold up to \$7.40 and heifers \$7.75 and bulls \$6.00 and \$6.25, showing the strength of the market.

Hogs continue strong, while Eastern markets are lower. Demand is so keen that buyers continue to pay \$9.05 for best light hogs. This firmness may not last long but exists for the week's close.

A better sheep house prevailed. Plenty of mutton and lambs to supply the trade with strictly prime wool wethers bringing \$7.50 to \$7.75, ewes at \$6.50 to 6.75 and spring lambs \$8.75, the early part of the week, but quoted lower toward the close of the week's business.

A Progressive Century.

The twentieth century has given us a satisfactory treatment for rheumatism. The American Drug and Press Association, of which we are members, are manufacturing a preparation called Meritol Rheumatism Powders, from a formula adopted by them after medical experts had pronounced it one of great merit. Give Meritol Rheumatism Powders a trial. They are guaranteed. Jones Drug Company.

SALMON 12 CENTS IN OPEN MARKET

Salmon are still holding well in the market, in fact there has been an advance in bids at Portland. Chinook of prime quality is now bringing 12 cents a pound, and other grades range from 7 cents up. There is also a considerable market for shad at 3 and 4 cents a pound.

Asparagus is holding well, both in quality and price. Prime "grass" is quoted at \$1 a dozen packages, while inferior are selling from 75 cents up.

Cherries are coming in with greater freedom and prices range from 10 to 11 cents a pound. New and large oranges are bringing from \$4.35 to \$4.50 a box, and seem to be of good quality.

The vegetable market generally is without change. There is plenty of lettuce, though not of the best grade. Potatoes are still a glut on the market, with no profit to be had in selling any but the best of new crop.

Rhubarb is plentiful and cheap. Some dealers are shipping it south at a profit.
