CITY OFFICIAL NEWSPAPER

MORE LIGHT The Molalla Pioneer being shed of which G. J. Taylor is editor, doesn't appear to think very highly of the abortive recall agitation that is being desperately fostered by some few people who have axes to grind. The last issue of The Pioneer says: "The petition for the recall election which is being circulated in this county has not met with a very warm reception in this section. There is a general belief that there has been nothing brought forth in facts which would warrant the expense of an election at this time."

Asides from this editorial comment, The Pioneer, in its news columns, sheds some more light upon one of the phases of discontent and spleen voiced recently in the county seat. In an article referring to timber as one of the chief assets of the Molalla district, The Pioneer says: "One great resource of this section is the timber, which must soon be logged off and manufactured into lumber to build a good sized city here, is but little advertised. Archie Young, one of the county cruisers has just made a report of the amount of timber standing in Sec. 18, T. 6 S., R. 3 E., and finds that there is 113,000,000 on it. This with much more is but a short distance from Molalla and will eventually come this way. It can go no other.

"This property belongs to E. C. Collins and was assessed last year at a valuation of \$8,600. With a valuation of fifty cents per thousand this will bring the assessment to \$56,500 and the additional two dollars per acre will make the total assessment \$57,780. If the levy is figured at twenty mills this will make an additional tax from this section of \$936.60. As the cost of crusing this property was \$51.20 it looks like a very good investment for the county."

The Pioneer is a representative paper in its territory, and usually reflects the opinions and feeling of the citizens. Apparently there is no "wild enthusiasm, then, in that district, for the "spite recall movement."

REAL ESTATE TRANSFERS

Heart to Heart Talks

By JAMES A. EDGERTON

SANITATION.

The warfare of this age is against disease germs, dirt and insanitary conditions.

We swat the fly, drain the swamp, clear up the refuse heaps and back alleys, get rid of the breeding grounds and carriers of microbes.

This is all good, wholesome and necessary, only it has not gone far enough. It has not gone far enough in a physical way. The whole nation should take up the crusade and literally clean house.

But especially— It has not gone far enough in a mental way. We should have sanitary thoughts.

Nor has it gone far enough in a moral way. We must lead clean lives. We must do this for reasons of public health if for no higher considerations.

We must get disease not only out of our back yards, but out of our minds.

We are coming more and more to recognize the value of the factor of psychology. We are doing this in business, in the school and in our sizing up of our fellow men. We must also do it in the matter of health.

Man is not solely or chief

Voices of Maine and Virginia, Commenting on the manner of speech in different parts of this country, Arthur E. Bostwick in "The Different West" has this to say:

"The pleasantest qualities of voice that we have are to be found in Maine and Virginia—slow and distinct in enunciation, sweet in intonation. In neither state are children taught in the schools how to speak. The persons who talk as I have described are never in a hurry (south of Washington and north of Boston there has no value), and they would not be accounted typical Americans of the 'rustling' variety. It is possible that a rasping, metallic, high pitched intonation has some connection with business energy."

The Hottest Stars. The temperature of seventy stars have been calculated by Dr. H. Rosenber, a German astronomer, from comparisons of the differences of intensity in different portions of the sun's spectrum. One star, Gamma Pegasi, seems to have the inconceivable heat of more than 400,000 degrees C. The next is much cooler, Gamma Cassiopeia, at 70,000 degrees, but this is vastly hotter than Alpha Tauri, the coolest, at 2,150 degrees. By the same scale of computation the temperature of our sun is found to be 4,500 degrees. The hottest stars are the helium stars and those showing bright hydrogen lines in their spectra.

He Remembered. "Were you in Venice while you were abroad?" "I forget. Were we, husband?" "I don't see how you can forget Venice. That's where we got that good spaghetti."—Louisville Courier-Journal

Enterprise want ads get the results.

Horace Greeley once said, "The way to resume is to resume" In this it was right. He usually was. The way to do anything is to do that thing. For example:

THE WAY TO BOOM IS TO BOOM

This does not mean running around in circles and yelling your head off. The only thing boomed by that method is the dippy hue. The way to boom a town is by intelligent and united effort.

Organize a board of trade, a commercial club or some similar body whose chief business it shall be to make the little town grow.

Use printer's ink and Uncle Sam's postoffice. TALK for the town. WRITE letters for the town, get the local papers to ROOT for the town.

Write to individuals and firms seeking a new location. Tell them what advantages this burg has to offer.

Publicity Means Progress.

Let the world know this town is on the map.

His mentality is the distinctive and dominating thing in his makeup.

Therefore the sanitary movement must include this most important part. It must be not only of the outside, but of the inside.

The mind has a greater control of the body than any of us has perhaps realized. Why cannot this control be used for health?

In the last analysis this is a matter for each individual. It should not be left to practitioners who ply their trade for money. It should be a thing of common knowledge and common practice.

We should get over our fear of imaginary things. There is nothing to be afraid of except ourselves.

All the good of the universe is for us if we are for the good of the universe. We suffer only what we ourselves create. If it seems otherwise we have not looked far enough. We are more complex beings than we realize, and the causes in us may reach back farther than we imagine. We manifest that which we are. We live out that which we have fashioned.

The only thing for us is to get in harmony with the mental, moral, physical and human law. We must think health, rightness, success, wholeness on every plane and faith in each other and in the soul of things.

Let us have sanitary surroundings by all means. But let us also have sanitary minds.

At Crystal Springs park Friday afternoon the Midget ball team of Oregon City high school met its first defeat in the season at the hands of the Milwaukee high school nine, the score being 8 to 3. Prof. Goetz acted as umpire at the opening of the game, but his decisions brought about so much wrangling that he was eventually replaced. After the change of "umps" the game progressed satisfactorily. Williams and Newberry were the batteries for the Midgets, while King and Cooper officiated for Milwaukee.

AMONG THE CHURCHES

Mountain View Union on Molalla Avenue (Congregational)—Sunday School at 3:00 P. M. Mrs. A. S. Martin, superintendent. Bible study Thursday afternoon at 2:30. Prayer meeting Friday evenings at 7:30. Preaching, morning service at 11; evening service at 8.

MONEY TO LOAN

WE HAVE \$1,000 to loan at 7 per cent interest or first mortgage. E. P. Elliott & Son.

NOTICES

CITY TREASURER'S NOTICE Notice is hereby given that there are sufficient funds on hand in the General Fund of Oregon City to pay all outstanding General Fund warrants endorsed prior to November 1st, 1912.

Interest ceases on the date of this notice.

Dated at Oregon City, Oregon, May 17th, 1913.

M. D. LATOURETTE, City Treasurer.

Ordinance No.

An Ordinance for making an improvement at Fourth Street, Oregon City, Oregon, from the bluff 105 feet west of the West line of High Street, Easterly to the West line of Monroe Street.

Oregon City does ordain as follows:

Section 1. The proposed improvement of Fourth Street, Oregon City, Oregon, from the bluff 105 feet west of the West line of High Street to the West line of Monroe Street according to the plans and specifications on file in the office of the City Recorder of said Oregon City and approved by Resolution adopted April 23rd, 1913, which said plans, specifications are referred to and made a part of this Ordinance.

The improvement shall be constructed as follows: he street shall be brought to sub-grade the full width thereof. On the road-bed macadam shall be placed not less than six (6) inches thick at the curbs and not less than nine (9) inches thick at the center of the street and when completed the road-bed shall be brought to grade specified in Ordinance passed by the City Council on the 23rd day of April, 1913.

Section 2. Whereas the condition of said street is and was dangerous to the health and safety of the public and its immediate improvement is necessary for the immediate preservation of the health and safety of the public, in the judgment of the Council of Oregon City an emergency exists; therefore this Ordinance shall take effect and be in force immediately upon its approval by the Mayor.

Read first time and ordered published at a special meeting of the City Council of Oregon City held on the 14th day of May, 1913.

L. STIPP, Recorder.
