### Where the Children Come In

There seems to be as much style in children's clothes now as there is in grown-ups. And

The other day a little girl came home from school and as-tonished her mother by saying: "I don't want to wear this dress any more. I want a Russlan blouse like all the other girls have."

Now the mother knew that there were such things as "Russian blouse dresses," but that children were wearing them had escaped her notice. Being a wise woman she hastily sought counsel with the adver-tisements of THE ENTER-PRISE and there she discovered just what "all the girls were wearing" and where she could buy most advantageously for

her little daughter. Many a mother has found that in order to know what to get for her children she must keep herself informed of changes of style through read-ing the advertisements of the shops in a reliable paper. They tell her not only what the other children have, but where each article may be bought.

#### Tips on the Tariff Makers

HAIRMAN OSCAR W. UNDERWOOD of the ways and means committee, aside from being an authority on tariff schedules, is notable for the quality and character of his patience. Those long associated with him declare that this is so monumental that the late Job's, by comparison to it, would look like a molehill alongside the Washington monument.

Representative James R. Mann of Illinois, leader of the Republican minority in congress and the principal opponent in the house of the tariff measure, was once known as the "great objector." Arriving late at the house one day. he was hailed by another congressman.

"Don't stop me, for I'm late now!" he gasped breathlessly. "I know you are," replied the other, "or otherwise you'd have been in time to object to the chaplain's prayer."

Senator F. M. Simmons, chairman of the senate finance committee, gained distinction in his native state of North Carolina long before he wore the toga as an organizer of peerless ability and endless activity. When he was not organizing the Democratic state compaign be turned his hand at getting up Sunday school picnics and patriotic parades with equal success. R R R

Senator William Hughes of New Jersey, one of the leading members of the senate finance committee, who, coming from the president's own state, has had an important voice in all tariff matters, had his first job as a reel boy in one of the Paterson (N. J.) silk mills.

Senator John Sharp Williams of Mississippi, former leader of the house Democrats when his party was greatly in the minority and now a member of the senate finance committee, is the son of a Confederate officer who was killed at the battle of Shiloh. He created something of a sensation a few years ago by indulging in a flery speech in the house defending the memories of the Union generals Sheridan and Sherman against the animadversions of a representative from Pennsylvania.

When Senator Hoke Smith first attained national prominence in politics he had much fun poked at his name. But after awhile the jokesters discovered that his first name originally was Mike, and then they quit.

\* \* \* Before Cordeil Hull, the young congressman from Tennessee who framed the income tax bill, was elected to the house he was twice a member of the state legislature and a judge of the Fifth circuit court district of Tennessee. He is also a veteran, having commanded a company of infantry from his state during the Spanish war.

# him in here.

beyond ordinary fraternal affection-that a man will suffer any amount for his twin. You have a twin is true. How is it?"

"You mean suffer things willingly?" "Of course. Why do you ask that?" or another when he doesn't want to." you think I'm Dan Malone?

"I don't understand you." as you say twins are, but I want you to understand one thing—the next time go to Dan's room and see if you don't find him there. I'm his twin brother. pital I propose to let the doctors and II came to see him: the nurses take care of him."

"Something unpleasant must have happened while Dan was in the hospital last summer."

"Well, I should smile."

"Smile, then, and tell the story." "Well, not long after the surgeons had been carving Dan I went to see The door of the hospital being open, I walked in, expecting to see a janitor or somebody connected with the institution who'd show me to Dan's room. Nobody being around just then I walked to the rear of the building, looking for an attendant.

"Suddenly I heard a woman's voice:
"'Heavens' There's my patient There's my patient walking about delirious? There was a smash of crockery, and, turning, I saw a nurse looking at me with horror, a heap of broken dishes at her feet, which she had just dropped from a tray. Another nurse came out of a door, and the two made a dive for me.

"I'm a penceable fellow and can be led like a lamb, especially by a woman or even two women if they are pretty, and both of these were, but I'll be jinged if I could stand having each one of them seize me by a wrist and attempt to force me up a stairway. I resisted. One of them stepped to an electric button and pressed it. It must have sounded a general alarm, for a man attendant came from one direction and another from another, and the nurse who'd dropped the and rub in well at night. Wash off in dishes said:

" Take him up to No. 14. When I came down to get his dinner he got on the hands

# DERTHICK SEASON

The last meeting of the Derthick fory Caufield, Mrs. M. D. Latourette, club, which met at the home of Mrs. Mrs. Eber Chapman, Mrs. Neita Bar-Charles Caufield, was one of the most enjoyable and amusing meeting ever heid. The meeting was devoted to the members, each one being suppos ed to furnish some part of the afternoon's entertainment. Through most of the program a strong humorous vein ran, and the members were kept in continuous laughter. There were, however, several numbers of a more serious nature, which evoked hearty applause. The following program was given.

Song, by several members of the club; club members' hobbies, Mrs. Walter Dimick, and composed by Mrs. T. Osmund; reading, Mrs. Anna

The following were present: Mrs.

Mrs. Carl Joehnke, Mrs. John Loder, Mrs. C. O. T. Wiliams, Mrs. Ross Charman, Mrs. Leon Des Larzes, Miss Louise Huntly and Mrs. Charles

# IF CHARGES TRUE

Adam Wilkinson that John Gleason, who is said to be listed as a habitual drunkard, has been served with liquor in Cole & Reckner's saloon, and also in the saloon of Davis & Loven. Reckner has been taken to court in the matter and has pleaded not guilty, and will be tried before Recorder Stipp Tuesday afternoon at two o'clock.

Under the provisions of the charter, conviction in a case like the ones charged calls for a revocation of the saloon license. In former instances, however, the council has not taken such drastic action, save in the recent cases of the refusal to relaw were charged. What the action law wer charged. What the action will be in the pending cases is a matter of doubt.

W. J. Van Schuyver & Co., General Agents Portland, Oregon

Completely

Equipped

Overland, \$985 Factory Equipped VALUE

# **Dollar for Dollar**

To begin with, what are you buying when you purchase a motorcar? You are simply buying so much power, speed, comfort, service, appearance, wear and construction. Nothing more.

Broadly speaking one popular priced car offers you about as much as another. Fundamentally they are all alike. And they are all good cars. No one can say this, that or the other car is a "poor job." Keen competition permits of no "poor job."

But while most of the cars offer about the same identical car value they all differ in price. The power, speed, body, tires, wheels, construction and finish do not seem to differ much. Probably one has a different set of lamps, another different style hood-still another more sweeping curve on the mud guards, but the basic value of the cars scarcely varies a

Why, then, such a great difference in price? What is this due to? The great difference in automobile prices is due to the size of the differ-

The selling price of any automobile is controlled and measured by the factory output. This is an invariable rule. It is a firmly fixed condition. Small plant-large price. Large plant-small price. Being nothing more or less than a manufacturing condition it cannot vary.

Having competition to meet, the smaller plant must make its actual car value equal to fundamental value given in the car produced by the larger plant. But by the time the smaller manufacturer has built a car of the same basic value (that is the same specifications) as an Overland it has actually cost 30 per cent more to produce it. Thus their selling price must be raised in proportion. Their inability to operate as economically as the Overland organization-which is the greatest of its kind in the industrymakes it impossible to compete on both a specification basis and a price

Thus the wide difference in price between our 30-horsepower touring car and the others.

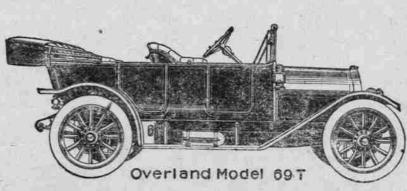

The proof of which is obtained by a careful comparison of current market prices.

Our 30-horsepower five-passenger touring car is priced at \$985 F. O. B. factory. This is the lowest 30-horsepower touring car on the market.

Part for part-point for point-it is the equal of any \$1200 car made. It has the power—the speed—the comfort—the .apperance—and .the .construction. Take the powerful motor-the strong and rugged rear systemthe Vanadium steel gears-the fine bearings-the pressed steel frame-the drop forged axles-the big tires-the superb body work-the high-grade upholstery; in fact, take every item that goes into the makeup of this automobile and you will find the duplicate of this car cannot be had below the twelve hundred dollar mark. Electric lighting and starting system if so

We have given you the facts. Clear reasoning cannot be argued

This car beserves your most careful and thoughtful consideration. Remember, you don't have to wait for a delivery, and you can buy this car from us for cash or terms,
