Notice

A regular summoned meeting will be held at our hall tonight at 8 o'clock. Election of officers and other business.

S. B. SHABLE,
 Financial Secretary.

MRS. MCGILL BROKE DOWN

Gives the Real Facts in Regard to Her Case and Tells How She Suffered.

Jenesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good. One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.
 Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

Joseph J. Ettor, I. W. W. Agitator, In Full Swing Before Strikers.

Photo by American Press Association.

One of the principal figures in recent labor disturbances, particularly in the eastern states, is Joseph J. Ettor, orator, strike organizer and agitator for the Industrial Workers of the World. Ettor first came into national prominence because of his connection with the textile workers' strike at Lawrence, Mass. He was one of three accused of causing a woman's murder, but was acquitted. Of late he has been active in the strike of silk workers at Paterson, N. J., and the barbers in New York city. This illustration shows Ettor addressing a crowd of strikers.

SUSPENSION SPAN CLOSED SATURDAY

The suspension bridge over the Willamette river, between Oregon City and communities on the west shore will be closed to traffic except in emergency during the motorboat races next Saturday afternoon, when the rose show gaudies will be at their court, and of the so-called Mass Meeting committee, consisting of M. J. Brown, chairman, R. Schuebel, secretary, and S. L. Casto, who had questioned several of our citizens and also the chairman and secretary of the road meeting, and were in the possession of the facts, in submitting a mis-leading report in relation thereto; and

BE IT FURTHER RESOLVED, that we deplore any action upon the part of some of the citizens of our county to cause the taxpayers to assume and pay the sum of \$3,000 or more covering the expenses of a recall election, based as the charges evidently are, upon erroneous and misleading statements and reports, similar to the statement and report concerning the Canemah road matter; and

BE IT FURTHER RESOLVED, That we express our confidence in the integrity and business ability of the members of the county court, R. B. Beattie, Judge, N. Blair and W. H. Mattoon, county commissioners; and

FURTHER BE IT RESOLVED, That a copy of this resolution, duly certified to by the secretary of this meeting, be forwarded to the newspapers of Clackamas county, especially to the Oregon City Courier, State of Oregon, County of Clackamas, ss.

I hereby certify that I was secretary of a regular meeting of the Canemah Progressive League, duly called and held on the 3rd day of June, 1913, and that at said meeting the foregoing resolution was unanimously carried.

BELDON GANONG,
 Secretary.

Don't feel lively as you "uset" Bones getting stiff—losing juice. Brace up—take it again. Rocky Mountain Tea will help you win.

Have you pains in the back, rheumatism fainting spells, indigestion, constipation, dull, sick headaches, poor appetite—your stomach's out of kilter—take Hollister's Rocky Mountain Tea (or tablets) at least once a week for a month or two and see how different you'll feel. 35c Tea or Tablets. COUNCIL ORDERS MORE DRILLING

(Continued from Page 1.)

and the laugh killed further discussion.

Shortly after this a report was read from Fire Chief Long, calling the council's attention to the fact that many roofs in the city were covered with moss, and thus were a fire menace. Mr. Long said he had notified property owners of this through the press no less than three times. Aside from the fact that this has not been done, the council did not consider such notification—even had it been given—sufficient, and referred Mr. Long's communication to the city attorney, who will serve legal notice upon the property owners concerned. One of the gentlemen cited by Mr. Long as maintaining a fire menace of this nature had a tin roof, and was not moss-grown.

The water matter came up next. Superintendent Scott, of the well drilling outfit, rose to make a report on the progress, but Councilman Tooze volunteered to lay the matter before the council for him, and Mr. Scott subsided. Mr. Tooze spent most of his time urging that the council consider M. J. Lee's offer of Canby water at the same time that they were determining whether or not to continue drilling the test well. The council finally took the matter in its own hands, and ordered an ordinance drawn appropriating sufficient money to sink the test well 100 feet further, or as much less than this as might be necessary to reach water.

Mr. Scott volunteered to do the rest of the drilling at half price if the city would furnish him pipe, and his offer was accepted with thanks. Pipe will cost the city 65 cents a foot as it may be needed, and the drilling will be carried on at a cost of but \$2.50 per foot.

Mr. Tooze, and other members of the council, were hopeful that water

The Conservation of Energy

Shopping to some women, and to some men, too, means work—real hard drudgery.

With knitted brow and determined look they go about their shopping with no more liking for it than a small boy who goes to have his hair cut.

Do you wonder that the results under these conditions are costly and unsatisfactory, to say nothing of the distressing mental strain occasioned by such unscientific methods?

Shopping drudgery is so needless, so unnecessary. It is your fault and my fault if we go at it blindly, and worry ourselves to distraction when, by the simple method of reading intelligent, helpful advertising in good newspapers like THE ENTERPRISE we may shorten our steps, settle perplexing questions, and, incidentally, if we read carefully, keep many a dollar within our purses that might otherwise go astray.

would be struck within the next 100 feet. Indications of a gravel vein have already been found, but the well at present ends in body of fine sand. Mr. Holman was the chief opponent in the council of further drilling, but did not vote against the appropriation. Mr. Long favored spending \$500 more for drilling if chance of striking good water remained.

New England Travelers

RUTLAND, Vt., June 4.—Many delegates have arrived here for the annual meeting of the New England grand council of the United Commercial Travelers. Business sessions of the convention will occupy tomorrow and Friday. The concluding features of the gathering will be the annual parade Saturday morning.

DECISION GAINS COUNTY \$64,000

Clackamas county has gained the use of approximately \$64,000 through the decision of Deputy District Attorney Livy Stipp, to whom the county court referred the matter of a special road tax levied in 27 districts. According to Mr. Stipp's decision, a tax, even if illegally levied, is available if it is paid without protest; and after such payment is not recoverable.

The opinion was asked in the matter of the special road tax because certain corporations refused to pay their share of it, declaring that it was wrongfully levied. Mr. Stipp has cited authorities that refusal of payment is not legally a protest, and when the tax becomes delinquent, steps will be taken to enforce payment. The corporations that refused to contribute their share were the Oregon & California and Southern Pacific railroads, the Hammond Lumber company, and several timber concerns.

The Portland Railway, Light & Power company, which is one of the largest individual taxpayers in the county, paid its share of the tax without question.

CAR HITS AUTO

A. E. Guckles, a well-known grocer, was hurled 20 feet from his automobile Tuesday afternoon when his machine was struck at Eleventh and Main streets by an Interurban car that is said to have been running at high rate of speed. Fortunately the automobilist escaped serious injury, but his car was ruined, the engine being wrecked and the running board torn off.

WILL OIL ROADS

So that automobiles and other vehicles shall not stir up clouds of dust in the city, the Gladstone council this week instructed its streets committee to enter into a contract with some firm for oiling the roads at a rate not to exceed \$40 per mile.

NEW LAWS AIM TO BETTER CITY

Two ordinances designed to better conditions in Oregon City were introduced at Wednesday night's council meeting by William M. Stone, city attorney. One provides that no minor shall be employed in any cigar stand adjacent to a saloon; and the other provides that no person shall be permitted to buy liquor to give or sell to a person who is upon the list of habitual drunkards.

Chief of Police Shaw also submitted his report for the month of May, showing that \$142.50 had been collected in fines, and 11 arrests made. Of these 11 prisoners 3 served time in the city jail, one jumped bail, and 7 paid fines. During the month 33 hoboes were given lodging and 61 meals were served to city charges.

ESTACADA SPAN MOW DEFECTIVE

(Continued from Page 1.)

height. At its session Wednesday the county commissioners ruled that this should be done, and instructed Sheriff E. T. Mass to keep sufficient deputies on hand to keep people from the structure, save such as might actually have to cross the bridge to get to their homes, or on business.

This action was taken to prevent all possibility of an accident during the motorboat races between the Vancouver and the Oregon Wolf II, the two fastest motorboats on the Pacific coast. These craft will meet in a speed trial here at four o'clock in the afternoon Saturday, and it is expected there will be thousands of people on hand to see the race. While as an actual fact, the race can be seen to greatest advantage either from the docks in the lower end of the city, or from the west side shore, it is believed that many people will want to watch the event from the bridge.

To prevent any overcrowding of the bridge, and also to prevent throngs running across it from causing the structure to sway, the county court believed it best to close the bridge to any but necessary traffic. In this way all danger of accident will be removed, and spectators will be actually forced to seek better vantage points from which to view the contest. The start and the finish of the motor boat races will be directly behind the Busch building, and the best view of the contests can be had from points near this.

COURT ROBIN HOOD NO. 9.

HESPERIAN VOTE IS NEAR

The election of the staff of the Hesperian, the Oregon City high school paper, will be held in the auditorium Friday afternoon. The candidates for office are doing a great deal of electioneering. The contest for editor in chief, is causing the most excitement. Among the aspirants are Elbert Charman and Ted Miller. The different candidates are first recommended by the faculty.

Many Graduate at Columbia

NEW YORK, June 4.—Columbia University, which boasts of the largest enrollment of any educational institution in America, held its 159th commencement today. Nearly 2,000 degrees were conferred upon the graduates.
