## NOTED TRAVELER TO TELL OF WORLD'S MARVELS AT BIG SUMMER GATHERINGS

One of the interesting features of the coming Chautauqua will be the B. R. Baumgardt lectures. Prof. Baumgardt is perhaps the best known Chautauqua lecturer in the field today, aside from probably two or three world celebrities.

Baumgardt first attained renown as a scientist, later as a globe trotter, and finally as lecturer. He has acquired a wonderful knowledge of the earth, having traveled in every interesting corner of the world, and at the same time continued his scientific studies of the stars and planets. This wonderful knowledge, coupled with a most interesting personality, and an excellent delivery, has elevated Baumgardt to a supreme place on the American lecture platform. The best evidence of his popularity is the fact that wherever he has lectured he has been re-engaged.

By rare good fortune the management of the Gladstone Chautauqua was able to engage Prof. Baumgardt for three lectures at the coming assembly, July 18, 19 and 20th, the final three evenings of the Chautauqua, and a fitting close to the assembly. On his first appearance at Gladstone park, Prof. Baumgardt will tell of "Venice, the City of Golden Dreams." This lecture is one of Baumgardt's masterpieces. In thrilling language he tells of the rise and fall of the Venetian republic and the history of the world's most beautiful city. The life of Venice is one of the world's romances, and in this scholarly address Baumgardt is found at his best. The lecture is beautifully illustrated with 122 remarkable lantern views, in water color, which not only give a faithful portrayal of the Venice of today, the dream city, but also of Venice at the height of her glory.

"The Fields and Fjords of Norway," is an equally brilliant lecture. This is Baumgardt's second theme, and on the closing night his subject will be "An Evening with the Stars."

MR. B. R. BAUMGARDT

the well known lecturer on travel, art, science and the history of human civilization; globe trotter; one of the best known speakers on the American lecture platform.

## WHITE SOX LOSE GAME IN ALBANY

The Commercial club baseball team met its first defeat of the season at the hands of the Albany aggregation Sunday afternoon by a score of 11 to 0. The field was a sea of mud, and the Oregon City players on this account made many errors. Telford, of Oregon City, fanned 11 and allowed 4 hits; while Peterson of Albany, fanned 7 and allowed 3 hits. Albany made one error, while the White Sox made 10 errors.

The batteries for Oregon City were Telford, Frost and Smith, and for Albany Peterson and Esterson. When the game was a few minutes old Lomb was shifted from the outfield to the infield, where he made good. Next Sunday the boys go to Salem to play a return game. A large delegation of Moose are planning to go with the team.

While coming home from the game in Albany Sunday, Manager Shephards, paraphrased the following from "Casey":

"Somewhere in this mighty land the sun is shining bright,  
"Somewhere people are laughing, and  
"Somewhere hearts are light,  
"Somewhere the hand is playing, and  
"Somewhere people shout,  
"But there's no more joy in Oregon  
"City, for Albany shut us out."

## SECOND TEST BORE WILL START SOON

The special water committee of the city council has decided to start a test well for water on the Englebeck property, just to the north of the city limits. The drilling machines are being put in place, and boring will be started about the middle of the week. A well 150 feet in depth will be sunk, if necessary, in the search for an adequate and pure supply of drinking water.

This is the second test to be made, the first being on the Ladd tract on Mt. Pleasant. No water in sufficient quantity for a supply was struck in the first test.

## CLACKAMAS TEAM WINS SIXTH GAME

By trimming the the Oswego baseball team 12 to 2, Sunday, at Oswego, Clackamas won their sixth successive victory. The features of the game were the steady pitching of Burdon, who allowed but 5 hits, and the consistent slugging of his teammates who hammered out thirteen safe ones four of which were doubles, and one a triple.

Batteries for Oswego, Johnston and Haines; for Clackamas, Burdon and Thompson.

Taft Lays Cornerstone.

NEW HAVEN, Conn., June 16.—Scores of blue banners of Yale were thrown to the breeze today to denote the opening of commencement week. Class day exercises were held by the several departments of the university. One of the interesting features of the day was the laying of the cornerstone for the Yale Coliseum which is to be erected opposite the present Yale Field. Former President William H. Taft and President Arthur T. Hadley of Yale, were the chief participants in the cornerstone exercises.

SHADOW SOCIAL PLANNED

The Christian Endeavor society of the Congregational church will give a shadow social in the Sunday school room June 27. Mrs. Tate is chairman of the committee in charge, and will be assisted by Mrs. Edwards, Miss Mar-on White, Verne Roske and Gene White.

## SCHOOL BOARD READY FOR NEW YEAR'S ACTIVITY

Only two vacancies remain to be filled in the corps of teachers of the Oregon City schools, one of these being an instructor in languages in the high school to succeed Miss Alena Wolf, who did not accept the position to which she was recently elected, and a teacher of the primary grade at the Eastham building. These vacancies will probably be filled in a few days.

The board of education met Monday night, following the annual school meeting at the courthouse, and proceeded to effect organization. O. D. Eby, who is the senior member of the board, assumed the chairmanship and will head the board until June, 1914. He named the standing committees, of which he is ex-officio chairman, Directors Hedges and Huntley composing the committee on grounds and buildings, and Director Harding on the fuel committee.

Miss Mildred Burley was re-elected instructor in drawing in the city schools. She gave excellent service. Mrs. Leonora Athey Covert, who has for several years been the musical instructor at St. John's and Gresham, was chosen as supervisor of music here, and will give two days each week to the work. Miss Myrtle Gibson, of Rhineland, Wis., was elected to a seventh grade position, and Miss Agnes Johnson, of Corvallis, will be the new instructor in domestic science and art.

Miss Carlotta Crowley, of Monmouth, Ore., Miss Hilma E. Anderson, of Colton, Ore., Mrs. Eva Scott, of Portland, and Miss Anna D. Wood, of Monmouth, were elected grade teachers. All of them possess high qualifications for the grades to which they will be assigned. Miss Wood graduated from the state normal at Monmouth last February and has had 15 months' experience in Lincoln, Polk and Tillamook counties, Oregon. Mrs. Scott has had seven years experience, six years in Nebraska and one year at Newberg, Ore. Miss Anderson is

O. D. Eby.

a graduate of the Monmouth normal this year and has had 42 months' experience in Wisconsin and Oregon. Miss Crowley has had 50 weeks experience in a training school, but comes well recommended by the President Ackerman of the state normal.

The city schools will open for the fall term on Monday, September 22. The board of directors Monday night authorized the purchase of a new encyclopedia for use in the schools.

## BROWN COLLEGE HAS GRADUATION

PROVIDENCE, R. I., June 16.—Today was class day at Brown University and the members of the senior class entertained their friends in an splendid style. In the course of the day there were many fashionable spreads by individuals and the various clubs of the university. The formal exercises were held this afternoon on the Middle Campus. The principal contributors to the program were Ira L. Letts of Moravia, N. Y., who delivered the opening address; John Kent Starkweather of Denver, who delivered the oration, and Clarence Horace Philbrick of Providence, who contributed the class poem.

## BROTHERHOOD MEETING POSTPONED TILL TUESDAY

"The last meeting of the Congregational Brotherhood for the present season, originally planned for Tuesday evening, has been postponed until Tuesday evening next week. This meeting will be known as "the Red Round-up," and will have a program that will be filled with surprises. The members will have for their guests at this gathering their wives, sweethearts and friends of the fairer sex, and a good time is promised for all.

Alleged Slayer on Trial.

EVANSVILLE, Ind., June 16.—The case of George Underwood, under indictment for first degree murder, was called for trial today. Underwood shot and killed Sherman Porter, a steamboat mate, in a saloon during a quarrel over a woman.

Shoemakers' Union Meets.

MONTREAL, June 16.—Delegates from all the important shoe manufacturing centers of Canada and the United States are attending the biennial convention of the Boot & Shoe Workers' International Union, which convened in this city today.

## SOCIALISTS FREE, SPEAK AT NIGHT

PORTLAND AGITATORS ARRESTED LAST WEEK ARE NOT PROSECUTED

## BURNS PROMISES MORE EXCITEMENT

Big Crowd Attends Brief Hearing, and Later, Listens to Soap Box Harrangue by Outside Malcontents

Thomas Burns and J. D. Ransley, socialist leaders of Portland, and John Culver and Albert Jules, members of their party, who were arrested Wednesday night of last week here when Burns attempted to hold a street meeting, appeared before City Recorder Livy Stipp for trial today, and were immediately dismissed by request of City Attorney William Stone. The proceedings were exceedingly brief, and John J. Jeffrey, Portland attorney, who had accompanied the socialists prepared to fight their case for them, did not get a chance to get in even a word.

The four men and their attorneys appeared promptly at three in the afternoon. The courtroom was crowded to the doors, and they had some difficulty in making their way to the front. Immediately upon their appearance City Attorney Stone rose and said that the city desired to withdraw the charges against the defendants, and asked that the case be dismissed. Recorder Stipp then formally dismissed the action, and left the bench. For a minute the crowd waited, not realizing what had occurred, and then everybody left the courtroom.

On the street Burns, who was the center of attention, paused to chat with friends, holding a copy of the novel "Hypatia" in his hands, and turning the pages as if he was receiving inspiration from the book. Special police and deputies loitered near, while other officers followed the rest of the party back and forth along the street. There was no disturbance of any kind, and after watching the socialist visitors, who probably received inspiration from the book, their regular beats in about half an hour.

In the evening the socialists held street meetings, both men and women speaking. At these meetings they sold literature, but there was no disorder, though a large crowd congregated to listen to what the speakers had to say. Throughout the evening a large force of deputies kept mingling with the crowds.

Among the speakers of the evening was Thomas Burns, the Portland socialist leader, who was arrested last Wednesday night. Burns assumed full blame for the disturbance in the mills Tuesday last week, and declared that he and Ransley had started the agitation.

"And we're not done yet," he continued. "The men in the mills will be organized whether they want or not, and there will be more 'doings' in this town before we are through."

In the course of the afternoon, while patrolling the streets on special duty and keeping the crowds moving, Police Captain French lost or had stolen from him a valuable Red Men's emblem, mounted upon gold stone. French says he will appreciate it if the finder will leave it at the Enterprise office.

Louisiana Masons Celebrate.

NEW ORLEANS, La., June 16.—To celebrate the centennial of the founding of the Louisiana consistory of the thirty-second degree, Scottish Rite Masons, prominent members of the order from many parts of the United States gathered here today for a four-day festival. James D. Richardson, sovereign grand commander of the national council, is in charge of the sessions.

## Quite Comfortable These Days

is the man or woman who knows something about the art of warm weather dressing.

So many things are planned for our comfort that it is our own fault if we don't know about them.

On the one hand we see people fretting and boiling in great physical discomfort; while on the other we note with envy cheerful folk who are cool, comfortable, and contented.

The reason is that some persons are smarter than others in selecting their apparel for summer wear. A careful reading of the advertisements appearing daily in THE ENTERPRISE will teach any one willing to learn all the up-to-date tricks in summer dressing that brains have devised for the benefit and comfort of mankind.

The "ad-reading habit" will not only gratify returns if you will follow it.

## Wanted! Girls and Women

## George A. Newett, Editor Whom Colonel Roosevelt Sued For Libel

THIS is the Michigan editor who was sued for libel by Colonel Roosevelt. George A. Newett founded the Ishpeming Iron Ore, a trade paper, thirty-four years ago. He conducted it as a Republican organ. During the heat of the last presidential campaign his attention was attracted to a denial of Colonel Roosevelt that he drank to excess, made in a statement in which Roosevelt said that, like Dr. Lyman Abbott, he drank nothing stronger than milk. Newett's article alleged that Roosevelt became drunk frequently. The column filed his libel suit on two counts, one for criminal libel and the other for \$10,000 civil damages. The criminal action was dropped.

## OREGON CITY MAN STATE'S DELEGATES

At the twelfth annual meeting of the Oregon Osteopathic association recently closed in Portland, Dr. J. A. van Brakle of Oregon City, was elected secretary for the coming year. Dr. van Brakle will also go to Kirksville, Mo., early in August, where he will attend the annual convention of the American Osteopathic association as a delegate from Oregon.

## "TEDDY" COMING WEST IN MONTH

Col. Roosevelt.

NEW YORK, June 16.—The report that Theodore Roosevelt contemplated a round-the-world tour, which was published in several newspapers this morning, was denied today by persons who are in a position to know. Roosevelt does contemplate paying a visit to his son, Kermit, in Brazil, and afterwards lecturing in Argentina. His plans, however, are not definitely made as yet. There is even a possibility that he will not leave this country at all.

Roosevelt is going out West, starting July 9, with his two youngest sons Archie, who has just graduated from Andover, and Quentin, who is still at Groton. He expects to be roughing it in the West for more than two months.

## COMMENCEMENT WEDNESDAY

Students of McLoughlin Institute will hold their commencement exercises Wednesday evening, in the institute auditorium. An attractive program has been arranged, and those who have completed the course will receive diplomas.

## GLENDALE'S BANK ROBBED OF \$2,000

According to news received from Glendale by Sheriff E. T. Mass and local banks, Ray Diamond, a Glendale socialist is out in the Douglas county wilds somewhere with \$2,000 or more in cash, and with 15 hours start on the officers, who are seeking him for robbing the Glendale state bank.

According to the report, Diamond entered the bank soon after it was opened, "stuck up" the cashier, and ordered him to fork over the money in the cash trays of the safe. As the robber left the bank the cashier and passing citizens opened fire upon him, but none of the shots took effect.

The robber is said to have lived in Glendale about a year, and has a father residing there. He was generally known as a socialist agitator. It is believed that he has planned the robbery carefully, and that he has a cache of provisions in the hills somewhere. Officers anticipate a difficult and long chase, and have not much hope of overtaking him. Sheriffs in all western counties in the state have been asked to keep a lookout for the young robber.

## SOUTHERN UNIVERSITY NOW 300 YEARS OLD

BUENOS AYRES, June 16.—The celebration of the tri-centennial of the University of Cordoba, the oldest in the western hemisphere, began at Cordoba today with a great gathering of delegates from famous institutions of learning throughout the world. Founded by Fray Tejo de Sanabria in 1613, the University of Cordoba is 23 years older than Harvard, the oldest university in North America. Many of Argentina's most distinguished men have been graduated from Cordoba, including President Avellanada.

## WOMAN WRITER HERE

Dr. Grace Raymond Hebard, of Laramie, Wyoming, a professor at the University of Wyoming and a member of the state board of regents, was a visitor in Oregon City Monday, endeavoring to make arrangements for the adoption of one of her books in the local school course. Dr. Hebard has achieved considerable fame as a writer of pioneer history in the Northwest, and has published several books dealing with life on the Pacific slope in the early days.

## Welcome American Engineers.

BERLIN, June 16.—The German Association of Engineers has completed elaborate arrangements for the reception and entertainment of the members of the American Society of Mechanical Engineers during their approaching visit to Germany. The American visitors are due to arrive at Hamburg next Thursday. Two days later they will go to Leipzig to hold their annual meeting. Following the meeting the visitors will make a two weeks' tour of Germany that will embrace many of the principal industrial cities and districts.

## TEACHERS WAIT CAMPING TIMES

OVER 100 COUNTY INSTRUCTORS READY FOR THREE WEEKS OF SUMMER SCHOOL

## MONDAY SPENT PREPARING TENTS

Organization Work Expected to Take up First Half Day, Then Mingling of Play and Study Begins

With close to a hundred teachers camping out in tents in Gladstone park, the first summer school for public school instructors ever held in Clackamas county will open its sessions Tuesday. Throughout Monday pretty school maams were flitting here and there among the trees, getting established in their outdoor quarters, and learning the lay of the land and the shortest route to the water supply. In the restaurant other teachers were getting familiarized with the kitchen and table arrangements for domestic science of a practical nature is to be a part of the course. Everywhere there was good humor and joy in evidence, and the instructors all seemed to be looking forward to the next three weeks as something that is to prove a pretty good vacation, with just enough serious work thrown in to keep time from passing too slowly.

While a few of the teachers will live at home, and will daily go to and from the grounds on the cars, most of them have decided that they can get the greatest good out of the summer school, and the greatest fun out of the thing if they camp out, and late Monday.
