INSIDE NEWS WILL BE REVEALED

CHINESE EDITOR AND STATES-MAN TO SPEAK AT COM-ING CHATAUQUA

Interesting Feature of Gladstone Park Meeting Will Attract Large Audience, is General Belief

Acting on the theory that "inside allen knowledge would be interesting to coast Chatauqua patrons in these days of strained American-Oriental relations,-just as "inside" baseball or "inside" politics interests fans and ward bosses-the Chatauqua manage mant this year has selected Mr N Poon Chew, a Chinese editor-statesman, of California, to bring an alien "message" to the assembly.

Mr. Ng. Poon Chew, editor the 'Chung Sai Yat Po." That is Mr. Poon Chew's official business title, but aside from editing the largest Chinese daily paper in America, he occupies a high place among the Chinece statesmen of today. His life work is for the enlightenment of his Chinese brothers, and in his masterly address "Modern China," which he will deliver on the afternoon of July 11th, he tells of the lark ages through which his native land has passed, the slow awakening to civilization, and finally the creation of the New Republic, which bids fair to place China among the foremost nations of

He tells of the struggles endured in bringing intellectual enlightenment to his Mongolian brothers, and pleads, in purest English, for a national recognition of the new China,

Mr. Ng. Poon Chew is a deep scholar, and recognized as an advance ed thinker of the present day. The lecture field is not now to him in any sense, and he comes to Gladstone with the highest recommendations as to his depth of thought, earnestness of plea, and eloquence. His views of the recent alien agitation in California are awaited with much interest.

SCHOOL DIRECTORS PICKED BY PATRONS

School elections were held in this neighborhood yesterday, and in neared. W. A. Huntley, formerly chairman of the board, was re-elected manimously in district 62, which embraces Oregon City. Through rule of seniority of service O. D. Eby becomes chairman of the re-organized board

At Mt. Pleasant T. C. Thomas was re-elected director, and Clerk Lawton was again chostn to serve in that capacity, this being his 19th term in

O. N. Holt was elected director for the Mulino school district, defeating J. A. Davis, and succeeding A. Erickson for the three-year term, Miss Vesta Churchill was elected clerk without contest.

In district 109, which embraces Twi light, A. H. Harvey was eleced direct-or for two years an George M. Lazelle for the three-year term. M. J. Lazelle was re-elected clerk. At the annual meeting at Twilight it was also voted to repaint the interior of the school building during the sum-

E. P. ELLIOTT & SON Oregon City, OreEducating Blind Deaf Mutes Accomplishes Many Wonders

Photos by American Press Association

EACHING blind deaf mutes is one of the wonders of the twentieth century, so remarkable are the strides that have been made. The case of Miss Helen Keller is only one specific instance-though a striking oneof what is being accomplished. Modern scientific methods make the blind not only see, hear and talk through the delicate sense of touch, but enable them really to enjoy life and do an active work in it. These interesting pictures show how the afflicted are taught in the playroom and schoolroom of the blind deaf mutes school at Newawes Germany

"COUNTY FAIR" GAY

An exceptionally clever musical his last voyage, comedy, sparkling with local humor and presented with practically professional excellence, was given at Shively's hall Tuesday evening, when well known Oregon City people, under the direction of Annie Sara Bock appeared in "The Clackamas County Fair." The play was replete with prettily costumed choruses, with clever and graceful dancing, and with fetching costumes; and the work of the principals in the cast brought forth enthusiastic applause from the large audience that gathered. The proceeds of the performance, and of second presentation of the comedy Wednesday night, will be devoted to the work of the Episcopal church. There were many good features of

the production, perhaps the most notable being the closing ensemble of the See-saw chorus, in which special electrical effects, installed by the Miller-Parker company, added a touch of beauty and realism to the setting that called for encore after encore Other special features were the cowoy dance, in which a number of cow ovs and cow maidens danced and pirouetted in true range style; the colege chorus, and the "Fluffy Ruffles" number, that had a haunting sugges If the Union Pacific succeeds in its tion about it of the Florodora hits.

gave excellent opportunity for clever Although the Union Pacific officals work on the part of the principals

ownership.

The new line, if completed, would consist of the O.-W. R. & N., the Union Pacific through Denver to the Missouri river, the Illinois Central to Chicago, and the B. & O. from Chicago through to Philadelphia of Mar. cago through to Philadelphia or New his, was a genuine hit. The other York terminals. much clever character work was done by the amateurs. The "town boys" and the "college girls" always had a At San Francisco-San Francisco 3, clever stunt to pull off at the right moment, while the visitors to the fair from Boston added much to the merri-

ment of the show: The production was well mounted, some of the scenery being remarkably realistic and recalled to many in the audience the days of long gone by. when country fairs were the events of the year. Particular attention had been paid to dttails; and as is rare i amateur productions, the prompter had little to do during the performance, so well had the company been

POLAR LAND FOR KING KNOCKERS

Arctic continent, and to claim it in the name of Great Britain, so that it may be added to Canada's domains the Stefansson expedition has started on the preliminary stage of its voyage in the far north. The last sacks of coal were piled upon the deck of the Karluk at Victoria, B. C. Tuesday, and the staunch craft that will carry the explorers into the land f ice and snow is all ready to start. Dr. Vilhjalmar Stefansson, who will be in charge of the expedition, join the party at Nome, going there with his wife on one of the regular steamers. From Nome he will jour ney on the Karluk, and will probably be absent at least three years.

The object of the expedition, cost of which is entirtly defrayed by the Canadian government, is not to find the pole, but to ascertain, if pos sible, the existence of a large body of land within the arctic circle, which, many scientists believe, surrounds or includes the region of the pole itself. If conditions permit, the expedition will make as thorough an exploration as possible of the unknown continent and take possesion of it in the name of Canada. To do this work thorough iy, five noted scientists, each one an expert in his particular line, will ac company the expedition. The list includes J. J. O'Neill, a mining expert and geologist, who will incidentally explore the copper deposits on Vic-toria Island; George Malloch, an expert geologist who will try to ascer tain the presence of coal deposits; James Murray of Glasgow, the noted ceanographer and biologist, who has ccompanied Lieut, Shackleton's Ant arctic expediton, and Dr. R. M. Ander-son, who will devote himself especially to the study of the blond Eskimos, discovered by Stefansson on a previ ous expedition

Although two other expedition with similar objects in view, the Am undsen expedition under the Danish flag, and the McMillan expedition un der the American flag, are preparing to start for the far north to find the "unknown continent," there will be no race between the three expeditions only friendly rivalry. As the three expeditions are taking different outes, many hundreds of miles apart they will in no way interfere with one another and may not even come n contact with each other

The steam whaler Karluk, which fully equipped and prepared for its polar voyage, will be under the comand of Capt. Robert Bartlett, an experienced polar traveler, who was captain of Admiral Peary's ship on

From Nome the Karluk will sail for Point Barrow, the most northerty Two-part chorus, "Merry June" point on the continent, where the expedition will await the arrival of the Salutatory expected that the two ships will meet Dialogue, "The Rival Speakers" at Point Barrow about August 1 The subsequent plans depend entirely Piano quartette, "The Marionettes' upon meteorological conditions. If an easterly wind should prevail, the ex pedition will be able to sail around the point without delay. But, if the wind should be from the west, it is likely that the ice would be packed so tight that the two ships would have to wait until January of next year b fore being able to start on thtir ex-

OIL NOW SOUGHT UPON GULF COAST

NEW ORLEANS, La., June 17. With oil wells now well under way at three points on the Gulf coast eact of the Mississippi an interesting devel oment in the extension of petroleur erritory is a possibility. That there is a great parent pool of oil under the Gulf of Mexico, from which tributar les extend into the mainland is accepted by many. Grea gushers have been found around the perimeter of the Gulf from Tabasco to Terrebonne parish, Louisiana, but from the Mississippi river eastward to Florida and south to the Keys there has been no important find

Owing to the importance of the derelopment of the oil fields in Mexico, Texas and Louisiana, prospecting east of the river has been neglected. Some drilling has been done in Mississippi but it has been in the hands of inex perienced operators.

Another inducement to stimulate the interest in attempting to get at which Don E. Meldrum is the head, this great store of wealth, thought to will at once proceed to devise ways be locked up under the American and means to accomplish the desired Mediterranean, is the increasing price result. The city of Gladstone, just of oil and the desirability of getting north of Oregon City, is preparing to the supply as near the seaboard as oil the main highway that runs possible in view of the increasing use through its limits skirting the Chaof the fluid as a marine fuel.
