TAX GAIN PAYS CRUISE; PROFIT

COMPLETE FIGURES ON PART OF
WEYERHAUSER HOLDINGS
SHOW BIG SAVING

COUNTY'S NET RECEIPTS ARE \$887.84

Estimate Which Cost \$590 to Make
Will Increase Taxes By \$1,478,
Thus Paying For Itself
With Ease

The cruise by the county of a part of the timber holdings of the Weyerhaeuser land company has not only paid for itself, but has shown a net profit in taxes of \$887.84. Figuring the taxation rate on timber this year at 16 mills, which is what it was last, the county will obtain from that section of the 19,854 acres of the big concern's holdings the sum of \$1,478.64. This tax, which is on 7,385 acres already cruised and reported to County Assessor Jack, is based upon a cruise that it has cost the county \$590.80 to make. Hence the cruise, so far, has not only paid for itself, but has earned the county \$887.84 in addition.

These figures are of considerable interest in more ways than one. When opposition to the timber cruise by the county was voiced, it was said that the cruising would prove a heavy burden upon the county. It was also pointed out that as the big timber interests were cruising their own timber, the county could obtain just as accurate figures without going to the expense of making its own estimate. The work done in the Weyerhaeuser holdings so far sheds light upon both these statements.

For years the county has been accepting the Weyerhaeuser cruise, and basing its taxation thereon. For the total area of 19,854 acres the county has been collecting \$2,715.84. This is about a third as much again as the county cruise will yield on the third of the holdings so far estimated—and at that rate shows that the county, aside from being able to pay for the cruising out of this year's as-

Colonel George Pope, New Head Of National Manufacturers

A newly elected president of the National Manufacturers' association, Colonel George Pope of Hartford, Conn., faces an important year in the life of that organization. Because of the tariff changes bound to be made by congress manufacturers the country over felt that the year would be momentous in many ways due to changed conditions. Colonel Pope is head of the Pope Manufacturing company and has long been identified with the industrial interests of the country.

DRASTIC CHANGE PLANNED AT UNIVERSITY, COLLEGE

Drastic and far-reaching changes in the courses and arrangement of study at the University of Oregon and the Oregon Agricultural college are planned by the board of higher curricula, of which J. E. Hedges, of this city is secretary, and a meeting of the board at which this matter will be taken up has been called for Monday, August 25, to be held in Portland Academy building, Portland, at one in the afternoon.

Notice of this meeting was sent out today by the secretary, and provides for consideration of the following proposition:

1.—To eliminate from the University of Oregon and to assign to the Oregon Agricultural college the department of Electric Engineering, Chemical Engineering and Civil Engineering, conditioned on the Oregon Agricultural College's requiring a full four year's high school course, or its equivalent, as a preparation for entrance for degrees in all engineering courses.

To eliminate from Oregon Agricultural College and assign to the University of Oregon the departments of:

- (a) Fine arts, including architecture and music.
- (b) Economics.
- (c) Commerce, higher.
- (d) Education.
- (e) The graduate school.

Determination to consider these

changes was reached at a meeting of the board held in Portland June 18, at which there were present J. R. Wilson, chairman, J. E. Hedges, secretary, J. C. Smith and A. G. Beale. It was the feeling of the members that since the board had been organized to do away with duplication of studies at the two institutions, and to make as far as possible each school complete in its special sphere, that it would be better to segregate the different studies not only so that there should be no duplication, but also that there might be at each institution only students working along the same general lines.

At present there is a civil engineering course maintained at each school. Not only is this unnecessary duplication, but it is felt that the several lines of engineering ought to be brought to one institution, so that better laboratory facilities might be had, and so that the expense of the different courses might be shared wherever work common to two or more of them is to be taken up. There is much equipment in the engineering courses, of instance, that can be utilized in civil, electrical and chemical study.

The plan of segregation, it is believed, will not only make the two schools more distinctive in the line of work that they will be doing, but will probably be the means of saving the state university from abolishment by the vote of people who apparently do not understand the necessity for the two institutions. The board of higher curricula is not a unit in favor of the change, it is said; but it is believed that after discussion of the plan is had the change will be adopted. If it is adopted it will be made, say at the end of three years, so that students in the courses at the two institutions now will not have to change. No new students will be accepted at either institution, however, in the courses which it may be determined to transfer to the other school.

COUNTY JUDGE TO TELL COURT STORY

The Civic Improvement League of Oak Grove has invited County Judge R. B. Beattie to address its meeting at eight in the evening of July 1. Judge Beattie has accepted the invitation, and will tell the residents of the northern part of the county his side of the county court charges which have led to the abortive attempt at recall.

It is expected that there will be a large attendance. Oak Grove people wanted to hear from the judge, personally, his refutation of the charges made against the county court.

New College President.

YPSILANTI, Mich., June 24.—In the presence of a large assemblage of distinguished educators Dr. Charles McKenney, formerly at the head of the State Normal School at Milwaukee, was today inaugurated president of the Michigan State Normal College.

LIVE WIRES FOR BARN ORDINANCE

MEASURE FOR SANITATION EN-
DORSED BY VOTE OF 31 TO
1 AFTER DEBATE

ROAD BETTERMENT PROGRESS MADE

Organization Discusses Many Matters
of Public Importance—Discov-
ery Made That By-Laws
Are Lost

Members of the Live Wires, meeting for their regular weekly luncheon in the Commercial club rooms Tuesday noon, found so many matters of importance to take up that the quarterly election was postponed for a week, and the time taken in discussing matters pending. Prime interest centered about the report of the civic improvement committee, which reported a growing sentiment in favor of better municipal conditions, and which announced a forthcoming inspection of the barns of the city, to note what improvements had been made.

Mention of barns brought up the barn ordinance, passed by the council May 20 at the suggestion of the Live Wires. George Randall, Grant B. Dimick and John W. Loder opposed the measure strongly, and stated that they believed it ought to be repealed. Dr. VanBrakle, Dr. L. A. Morris and City Recorder Livy Stipp spoke in its favor, and Mr. Stipp, in an address in which words were not at all veiled by expressions of parliamentary elegance, swung the sentiment of the meeting in favor of the law. Mr. Stipp declared that the ordinance was no more drastic than necessary, that it would work no hardship upon people that were trying to keep their stock in a sanitary condition, and that its enforcement was a virtual necessity if the larger livery and work barns of the city were to be put into a condition that was safe either for the animals or the men working in them.

W. S. U'Ren, at the close of the remarks, moved that the Live Wires endorse the action of the council in passing the measure, and his motion carried by a vote of 31 to 1. George Randall being the only member who remained true to his earlier convictions.

J. Vermeir Inigo pa etve
For the special road committee, appointed to obtain an oiled highway from Oregon City to Portland, Don E. Meldrum reported satisfactory progress. He said that arrangements had already made for oiling and improving the Portland highway from the city limits to the Baby Home, and that Gladstone would look after its share. Promising reports for the balance of the work were received.

C. Schuebel endeavored to get the Live Wires to take a hand in getting the name of the proposed city of Millsburg changed to West Oregon City. B. T. McHain said this could not be done as the postal authorities would not stand for towns with triple names. Mr. Schuebel also urged that the citizens of the new city be urged to see to it that their charter provided that all improvements be paid for out of the funds raised by general taxation.

A petition bearing 167 names was received under the Live Wires to lend their aid in the establishment of an industrial Y. M. C. A. here. Though the suggestion was favorably received it was voted to wait until more names had been secured for the plan.

J. E. Hedges made a suggestion at the close of the meeting that an amendment be adopted to the by-laws, and it was then discovered that there were no such laws to be amended, the only copy of them having been lost. Mr. Hedges and E. E. Brodie were appointed a committee to draw new by-laws.

AINSBERRY JAILED AGAIN AS FUGITIVE

J. C. Ainsberry, alias "C. L. Armsberry," "Bert Lawson" and "W. W. Warren," whom the Clackamas grand jury Saturday freed of criminal intent in shooting Fred Ream, of Willamette in a strike riot at Oswego on May 19, and who since that time has been in and out of jail with dizzying frequency, and who also had the distinction of having had up in his behalf \$1,000 in cash bail by the Home Telephone company, was arrested Tuesday evening in Portland by Sheriff Tom Word as an escaped convict from the Wyoming penitentiary at Rawlins, and is being held without bail by the Multnomah county officers for the arrival of Wyoming deputies.

Ainsberry was arrested at his sister-in-law's home in Woodlawn, whether he had gone following the outbreak scarlet fever in his home in Lentz. Ainsberry admits that he escaped from the Wyoming penitentiary 45 days after being sentenced to a three-year term there for box-car robberies at Cheyenne.

THE TRAIL OF THE MILITANTS.

(Copyright by International News Service, supplied by New Process Electro Corporation, N. Y.)

This photo is a silent but eloquent commentary on the work of the English militant suffragettes. The picture shows the ruins of the Hurst's Park Race course after a fire started by the Pankhurst followers. We are glad if they are bent on burning things up that they are now turning their attention to race courses instead of churches.

But what's the answer? Will such methods accomplish anything in the long run? We suppose the English women have handled the English men long enough to know the most effective methods, but to an American "up a tree" it looks fool hardy.

The American women have campaigned in a business-like manner and they have made advances far more rapidly than their English "sisters," and they are steadily gaining in power.
