The Southern Pacific stops all local trains when patrons desire such stops, from all Willamette Valley points, within a hundred yards or so from the gates. The Portland Railway, Light & Power Co. run their half-hour car service from the station at First & Alder, Portland (OREGON CITY CAR) directly into the gates of the park, having a branch line from the main road at Gladstone—a great convenience for patrons. From Portland the fare is 25c for the round trip. From Oregon City 5c each way. The Southern Pacific grants a Chautauqua rate during the assembly of one and one-third

fare for the round trip from all points in Oregon touched by their line, providing the patrons use the certificate plan, getting the certificate from their local agent and having it signed by the Chautauqua secretary at the grounds. Baggage is shipped to the park in the usual manner, freight cars on the electric making daily trips into the park. The S. P. deposits the baggage of the patrons at a point within 200 yards of the park gate, where it may be hauled cheaply into the grounds. Thus easy access to the grounds is provided over either line.

Daily Admission - 25c
