PATRIOTIC SERVICE PLANNED AT CHURCH

(By Rev. T. B. Ford).

The eyes of the nation are turned toward Gettysburg, where sleep the thousands who fell in that great battle that decided the fortunes of the war for the preservation of the Union, whither other thousands of surviving comrades are marching, men from the north and from the south, under one flag, without gun, or sabre, or battle-searred banner, to celebrate together that decisive event and join hands as Americans while they sing "My country tis of thee, Swet land of Liberty."

Sunday the 6th, being the nearest Sunday to the day on which the battle was ended, is to be Patriotic Dav First Methodist Episcopal

The Sunday school will have patriotic exercises, with an address propriate to the 'occasion. At the laven o'clock service the pastor will speak on "Our Country" and the evening service will be devoted entirely to exercises in commemoration of the two great battles of the war-Gettysburg and Vicksburg.

Dr. Ford has extended an invitation to the officers and members of Meade Post of the G. A. R., and of the W. R. C., to the Spanish war veterans, and to Co. L., of the O. N. G., and corinvites men who were in the confederate army, the sons and daughters of old soldiers on both sides, and all who want to unite with the men of Gettysburg and Vicksburg in celebrating the victory, and binding together more closely the people of all sec-tions. We can't have the time the "old boys" are to have on that old battle-scared field at Round Top, but we can have a time, and we will Spepatriotic music will thrill, and the fife and drum musical instruments of the war, will aid us in making merry that evening.

Veteran Army Officer Retires

WASHINGTON, D. C., June 26. With a record of forty years of hon orable and efficient service, Col. Calvin D. Cowles, until recently in command of the 5th Infantry at Platts burgh barracks, was placed on the retired list of the army today on account of age. Col. Cowles the United States Military Academy in 1873. During the Spanish war he lieutenant colonel North Carolina Volunteer Infantry, Otherwise his entire service has been with the infantry of the regular estab-

SUFFRAGE BILL TRAIL OF RABIES

ANIMAL'S MAD RUSH

of Hydrophobic Beast Over

Hills From Meldrum to

Sunnyside Region

The trail of one dog afflicated with claring his intention to disregard all rabies has been traced by County political consequences, Governor Dun-Veterinarian W. S. Eddy from Jenne today affixed his signature to the nings Lodge to Meldrum by 15 other woman's suffrage bill.

Suffragist leaders and others who ten of which are expected to either had part in its passage were present. die of the disease or which will be Moving pictures were taken of the shot within the next week. The trail scene. Royalties from their sale will is then lost for a time, but has been women are raising to make an educational campaign in Illinois. The women are assured of more than \$1000 which have been stricken by hydro-from the pictures. \$1000 which have been stricken by hydro-phobia. Dr. Eddy is now seeking the

Cormick, will have one of the pens as ating spread of the most dreaded of a souvenir of the event. The gover diseases was killed a little over a nor changed pens after each letter of week ago on Gafney's farm at Har mony. He was apparently a cross be tween a hound and a pointer, was colored brown, yellow and white, and weighed 80 or 85 pounds. Any person having seen such a dog within the last two weeks is requested by the county authorities to notify Dr. Eddy at once, so that the path of the animal between Meldrum and main Clackamas valley may be traced and dogs in this section put under observation or quarantine.

The dog first appeared, as far as the county officers can determine, at Jennings Lodge on June 12. From there it made its frenzied way along the interurban line through Rotthe to Meldrum, biting and fighting other dogs that attempted to interfere with its passage. By diligent inquiry and almost ceaseless effort, Dr. Ebby has traced the course of the animal, and has discovered practically all that it bit and to which it conveyed the dis ease. Five of these dogs have either been killed or have died of hydro phobia, and the ten others are now securely chained up, and are under observation. All of them show symp-toms of the disease, and will be killed as soon as their cases are sufficiently far advanced to make it sure that

there is no mistake. nings Lodge, Rotthe and Meldrum Watzler, Judge Bronaugh. Daggett, Mrs. Jacobs, W. W. Thompson, A. H. McGowan, H. J. Robinson John Jennings, Henry Paynton, F. B. Madison, G. M. Caldwell, Mr. Seeley, Mr. Meldrum and Mr. Parker. belonging to the first five are already

East of the hills the same dog is held responsible for the biting of three other dogs, all of which have been killed, and possibly some stock that is now under observation. Owand the manner in which it may be spread by any dog that has been infected with it, the county officials are particularly desirous of tracing the first dog's route through the gap between Meldrum and Sunnyside,

COUNTY'S CRUISE

That Clackamas county's timber cruise is being faithfully performed, but that the estimates of the forest wealth are a trifle low, is the opinion of Gus Lovegren, a United States gov ernment cruiser, who called upon County Assessor Jack Thursday afternoon. Mr. Lovegren was shown the the school auditorium. The address figures obtained by Mr. Nease, and said that they showed a most thor-ough piece of work.

Tooze, the president of the associa-tion, and was responded to by Miss

While working for the government and declared that he knew the areas well. He was surprised, however, to find the county figures so low, and declared that they could easily by made considerably higher and still be accurate. County officials prefer to have any doubt as to the estimate in the county's favor.

Mr. Lovegren also said that the Clackamas cruise compared most fa vorably with other cruises in the state. He spoke particularly well of smiliar work that Mr. Nease had done elsewhere, and congratulated the county upon having obtained the serv ices of so reliable a cruiser

Here are pictured three of President Wilson's latest important appointees. Thomas Nelson Page, the noted auther of southern stories, who will go to Italy as ambassador, is shown in characteristic attitude on the right. He had been stated for ambassadorial appointment from the first. He is a Virginian and, like several other of the important Wilson appointers, is a literary man. Pleasant A. Stovall, publisher of the Savannah (Ga.) Press, who will be minister to Scitzerhand, is on the left. The other is Walker W. Vick of New Jersey, a lawyer, who was secmundttoe and very active during the presidential came position et custer a receiver at Santo Domingo

A foreigner, who gave the police various names, and no particular account of himself, was arrested Thursday night on Main street while en-gaged in industriously hugging young women who were passing by. When first taken into custody the man broke away from the officer and dashed that precautions may be taken in this away, rushing into the arms of Chief of Police Shaw, who fastened to him with a half-Nelson and took him to the city jail. Saveral women were badly frightened by the man.

IS GIVEN PRAISE ALUMNI WELCOME 1913 GRADUATES

Members of the Oregon City high school alumni association welcomed the 1913 class to their ranks this week at a generously attended meeting in tion, and was responded to by Miss Echo Spence, the vice-president of the Mr. Lovegren went over much of the territory covered by the county cruise class. A brief program was then enterritory covered by the county cruise joyed, in which a recitation was given by Miss E. Harrison; a salo by Miss Irene Hanny, a piano duet by the Misses Louise Huntley and Murion Money, and short talks of encouragement by Mrs. L. B. Carter, Miss F G. Porter and Mrs. Viola Godfrey.

The election of officers for the coming year followed, after which it was determined to give a reception to the new members of the faculty at the

opening of the fall term.

Myrtle Busch was unanimously elected president, John Dambach, vice-president; Marie Shehan, secre tary and Dr. A. L. Beatle, treasurer. Committees for the coming year were named as follows: Entertainment, Mrs. L. B. Carter, Miss Elsie Telford, Ed Busch, Miss E. Aldredge, Joe Shehan; refreshments, Miss E. Harrison, Miss Mary Barber, Ray Scott. Miss Irene Hanny and Miss Lillian Tscharge Refreshments were served at the

close of the meeting.

CONFERENCE LUNCHEON

Under the auspices of the Oregon longress of Mothers and the Parent-Teachers' association, a luncheon will be gylen to the speakers on the program during the Christian Citizenship

Conference here. The luncheon will take place at the Hotel Oregon on July 3. There will be covers for 500 or more, the prominent speakers alone numbering about President Foster of Reed College will preside

COUNCILMAN TOOZE HAS STATEMENT CLASS IN ART TO BE ORGANIZED

Rigid Test for Purity Will Determine Attractions of Assembly Much En-Whether Supply on Englebrect Tract is Fit for City Purposes

WATER IN WELL

Since the last statement by the on the Englebrect property rose natu rally to within 12 feet of the surface; imately 12 feet above the level of the river. It has been the general impression that the well was fed by seepage from the Willamette river, and that the water, rising only to the height of its source, ceased to rise in the well above the river level. In fact general comment in regard to the well has been to the effect that it was nothing more than proof of the fact that the land through which it was

sunk was mere filled-in slough land. Councilman F. J. Tooze, chairman of the special water committee, was asked for an opinion in regard to this, and made the following statement:

The report that the test well is fed by the river is nothing more or less than proof of the fact that people who are opposed to the committee's work are getting busy to defeat our efforts to find pure water. We can't sink a well within a radius of tea miles of Oregon City but that reports like this will be circulated. However, the committee is glad of these reports and welcomes fully all criticism, for the attacks on our work will simply en up new lines of inquiry and in vestigation that perhaps we might

"Until this was called to my attention, I had not heard that this well was filling with river water. I have only heard that it was liable to be overflowed in times of high water. In reply to these reports I wish to state emphatically that this committee will make no recommendations in regard to this well until the water has been thoroughly tested; and that in regard the possibility of overflow, there can be no rightful criticism made, for it will be possible to so encase any well on this property that surface wa-

ter cannot enter into it. "It appears to be very unlikely that "It appears to be very unlikely that on the ground, in connections with a be water in this well is seepage from general "rest tent" where all interestthe river, for it was struck at a depth of 50 feet. However, measurements will be made at once, and investigation will be made to see whether it

could water from a pool.
"The main thing to be considered, however, is not whether the water is river water or not, but whether it is pure If the exhaustive tests that will be made prove it pure, what difference does it make what its source may be? Suppose it is river waterin that case it must reach the bottom of the well through some 40 feet of sand, at least five feet of which is very fine sand. This would be a filtration plant of the best kind, in fact it would be one of Nature's own filtra tion plants. Many cities filter their water through less sand and gravel than this, and find it good to drink.

"It must be remembered that this water at the 12foot level in the well does not originate there, but comes up from the bottom. There is no possibility of surface water getting in, for the well is all encased pipe. The water struck at the 50-foot level comes from a vein of gravel which underlies over 40 feet of sand. When the test is made the well will be plugged below the 50 foot level. and will be pumped out, and then the fresh water at the bottom will be tested just as it comes from the The most exhaustive bacteriological tests will be made, and if this water is pure, the committee may recommend it

committee will not recommend that any action be taken until the whole bration. ple, and their will in the matter as-
