MARY ADELE CASE SCORES IN RECITAL

(Contributed) The Shively opera house was well filled Wednesday evening with a representative audience assembled for the double purpose of hearing one of the great contraltos of this country to tee; and the balance of the council al-their own inexpressable delight, and most fell over themselves seconding to pay tribute to a young woman or Oregon whose splendid abilities as a singer, and achievements as an artist, under the inspiration of the goodess of music, have won for her the laurals praise from the greatest musicians of this country and of Europe, Miss Mary Adele Case, of whom Oregon

City is justly proud. Miss Case is remembered by many of our people as a girl who, in earlier years, exhibited remarkable gifts as she sang with some of our lecal singers, always charming with her sweet voice, showing rare interpreta-tive power, a high degree of inspiraand withal a worthy ambition, and an unconquorable determination to overcome all obstacles and win her way to just fame.

She has studied in Paris and in New York under the most famous masters. Her personality possesses much of individuality and ease and carries her triumphantly through a difficult programme, under circumstances more than ordinarily trying. She possesses a voice of extraordinary range, un-usual quality, dramatic power, highly cultivated and under perfect control, awakens and holds attention and arouses enthusiasm and applause.

Miss Case has the genius of in erpretation, a breadth of control, a clearness of ennunciation and a finish that places her among the first cecitasingers of the concert stage. She is great now, and she will continue to ascend until she stands on the high

prinacle of world fame.

Miss Sadye Evelyn Ford was the accompanist and performed her task with such evident pleasure, case and efficiency as to receive the commondation of the artist for whom she played. Harold Swafford, Oscar Woodfin and Chas. Legler were the

Miss Mabel Morse and Miss Ivy Ford were the flower girls, and acted with a grace and charm becoming the pleasant duties they performed. The audience was in fine spirit, receptive and responsive, and generous in its appreciation of the work of the crist. The following program was given.

NOTE OF THANKS

The retiring president of the Ore gon City Rose Society, wishes to thank the various committees and their chairman and all others who so ably assisted her in making the recent MRS. L. H. WALKER.

PARKPLACE FOLK END SCHOOL YEAR

Members of the Parkplace higa school alumni association, in annual meeting, elected William Lucas president; Miss Lillian Anderson, vice-president; and Miss Olga Hansen secretary and treasurer for the coming year. Part of the meeting was given over to welcoming members of the last graduating class, Kenneth Hendricks, the retiring president of the association doing this, and the response being made by Miss Edith Lille, president of the class. Other speakers were Capt. Apperson, Leland Hendricks, William Lucas and Miss Mary

An elavorate supper, served at prett tily decorated tables ,was a feature of the evening, and among those who responded to toasts were Prof. Jolly, Adolph Spiece, Henry Frazer, Peter Reinearson, Jessie Faubie, Miss Edita Lillie and Kenneth Hendricks. Emery French acted as toastmaster, and made many clever sallies. At the end of the meeting all joined hands and sang Auld Lang Syne.

Sir Charles Tupper is 92

LONDON, July 2.—Receiving con-ratulations from distinguished gratulations from distinguished friends on both sides of the Atlantic, Sir Charles Tupper, former premier of Canada, today observed his ninetysecond birthday anniversary, sur-rounded by members of his family. Sir Charles returned to England this spring after a visit of a year with his son in Vancouver. In view of his all vanced age it is doubtful if he will ever be able to pay another visit to the country where he was so many years a leader in public affairs.

Progressive party from many sections of the country. They have come to Lewport for a two days' rally and conference which promises to be the most notable gathering of the party leaders since the Chicago convention last fall. Colonel Roosevelt is on hand and this afternoon he delivered a non-partisan address on the subject of the American navy.

Educators at Salt Lake

COUNCIL SESSION

(Continued from Page 1.)

easiness, in one way or another, ever since the purchase of the plant had been endorsed by a special commitmost fell over themselves seconding the motion made by Mr. Tooze.

Ordinances calling for the establishment of a grade on High street, between First and Third, and for the improvement of Seventh street, will be placed on final passage July 16. Bigs for the improvement of Fourta street and for certain improvements on the Fourth and Seventh street parks wer referred to the park and street committees, to report upon next Wednesday, Councilman Meyers, of the finance committee in the meantime holding the certified cheques accom panying the bids.

This having cleaned the council calendar, Mrs. Nugent, a property owner upon Monroe street, addressed tha council, objecting to the use of second hand boards in a sidewalk in front of her holdings, and saying that she had been promised a cement walk. Councilman Tooze moved that she be granted a cement walk. City Engineer Noble said that the fill in front of her property had not settled suffi ciently to support a cement walk. Mrs. Noble came back promptly with the remark that the fill had been in place two years, and that the city had been hauling loads over it sufficienty to roll it down, and added that if the city engineer would stop having it dug up for one thing or another, maybe it would settle.

Councilmen Holman then tried to pour oil upon the fast troubling surface of the meeting by asking Mrs. Nugent if she would be satisfied if the council would agree to put down a coment sidewalk as soon as the city engineer thought the fill could bear Mrs. Nugent replied that the agreement would have to be put in writing, as she had all the experience she cared to have with the council's promises. Mr. Holman then moved that the city lay a new board sidewalk in front of the property until such time as a cement sidewalk could be laid, or that a cement sidewalk be laid now and Mrs. Nugent be held responsible for keeping it in repair. Councilman Tooze, who already had a motion before the council, promptly bobbed up and said he wanted that

idea embodied in his motion. Then followed a chorus, in which City Engineer Noble, the council and Mrs. Nugent took part, and after the noise died down, Councilman Albright or throw away half of their belongings. brought order out of chaos by moving that the council lay a board sidewalk in front of the property until such time as the city engineer sanctioned a cement one, when the full improvement would be put in. This being entered upon the council records, Mrs. Nugent said she was satisfied.

SUSAP GOES AWAY

"Susap," so called because that was as near as he could come to pronouncing his Christian name of Joseph in der add to the daily labor; too much his infancy, has once again departed from Oregon City, which he says is his everlasting home. Susap is an indian brave of note in this section. formerly a baseball star, and otherwise known to fame. He recently went on a visit to some of his Yakima in choosing what to put on.-Suburban tribe relatives at Goldendale, Wn., and Life Magazine last Sunday, after his return, was found behind a saloon with a well de veloped case of smallpox.

The saloon was fumigated, though everybody concerned says Susap was no nearer to it than the alley, and Susap was sent by benzine-buggy to isolation hospital, Portland, Oregon saloon behind which he developed thirds. This is being done just out of good-will for Susap, the saloon proprietors want it understood.

Rinse thoroughly and dry in the sun. Work rapidly and be careful not to alter the shape. It will not be necessary to reblock the hats.

LEARN TO LIVE.

It is by the real that we exist. It is by the ideal that we live. Would you realize the difference? Animals exist; man lives. To live is to understand. To live is to smile at the present. It is to be able to see over the wall of the future. To live is to have justice, truth, reason, devotion, probity, sincerity. To live is to know what one can do and should do. Life is conscience. -Victor Hugo.

WIDOWS TO COST **COUNTY BIG SUM**

Clackamas county will spend \$523 this month for the relief of dependent women under the widow's pension act, assed by the last session of the leg islature. The smallest pension paid OUR LOGGED-OFF LAND PROBLEM will be \$10, while the largest amount paid to any individual will be \$47.50. There will be two pension of \$47.50 paid during the month and four of \$10 each. The other pensions will range between these two figures. In all the county will care for 21 widows and 81 children.

Seven other widows, having dependent upon them 11 children, have applied for pensions; three of these have been denied the relief asked, and four cases are still under advisement of the county court. Th average pension paid is \$18.67 per month to each

Applications are continuing to come in at each meeting of the county court which an intelligent, frugal and inand County Judge Beatie has estimated that the total cost to Clackamas county of the widow's pension law will be between \$4,000 and \$6,000 per

The logged-off or cut-over lands of Western Oregon and Western Washington are possibly the greatest of all hindrances to the development of the two states, and any step towards putting these lands into the possession area of unproductive soil into a state of production, is a great stride for ward. It must first be understood that these lands are generally composed of the best soil in our states. It is soil upon twenty to forty acres of dustrious husbandman could not only make a good living for himself and family, but could accumulate in a very short term of years a compe tency.

Just how to get these lands cleared at a reasonable cost has taxed the ingenuity of some of the clearest thinkers in the states named. Char-pitting, the use of powder, the donkey-engine stump-puller-some headway has been Joe Shugrue vs. Jimmy Duffy, 10 made in each direction, but not rounds, at Buaffalo. or our own land-hungry population, to take active possession and go to making homes upon them.

There has just gone into effect in Washington a law framed for the purpose of testing a new method, the essence o fwhich was given in these columns a few days ago. In effect it is an adaptation of the irrigation and drainage district systems in use in some of the arid sections of the West. These districts, to be former primarily for the purpose of reclaiming loggedoff lands, are in a measure in charge TO MEET IN EAST off lands, are in a measure in charge of the County Commissioners, who are authorized to prost such districts and authorized to create such districts and then call an election to choose three Agricultural Development Commissioners and at the same time authorize the issuance of twenty-year bonds up to 5 per cent. of the assessed valuation of all the lands in the district.

These commissioners will have the

years.

Who's Who and What's What

An Englishman visiting this country recently commented on the advanced development of our advertising. He said that one might get a liberal education in a remarkably short space of time by an intimate study of the advertising in first-class newspapers.

That may have been expressing it ratuer strongly-perhaps as a result of his enthusiasm-but it must be apparent to every thoughtful reader that newspaper advertising as it is conducted nowadays possesses an unusual educational value. We are quite sure that our

cousin from over the sea might ome here a total stranger and, by diligent attention to the advertising appearing daily in this and other good newspapers, soon be very well informed as to the customs and the fashions, where to go for his shopping and his recreation.

Who's who and what's what have a persistent manner of finding their way into the daily newspapers, so that he who reads may

(Continued from page 1)

that was encountered at the 50-foot level. The committee now has plans under way for an exhaustive bacter-iological test of this water, and such tests will be made after we are satisfied that the flow will be what is now indicated.

"In regard to the possibility of this being river water that has seeped through the ground, the committee has had measurements taken. The engineer reports that the test well is located 1,800 fet from the Willamette, approximately half a mile from the Clackamas, and nearly 1,000 feet from Abernethy creek. The level of the land at the well is 17 feet above high water level in the river and 32 feet above low water level. The fact that the water in the well rises to within 12 feet of the surface, does away, I believe, with the theory that the sup ply is the river, when these figure are taken into consideration.

"The committee is also working on the possibility of obtaining Bull Run water for a city supply, and is continuing its investigaton of the franchise offered by promoters who have wells at Canby. When the committhe bottom, and has had a report on the purity of the water on the Engle-brect tract, all these possible sources of supply, together with a statement of comparative costs, will be laid be fore the voters, and they will be asked to decide which water they want for Oregon City."

Norway's Future King

CHRISTIANIA, July 2.- Many flags were displayed in the capital today in observance of the tenth birthday anniversary of the Crown Prince Olav. who i fhe lives will some day become the king of Norway. The northern climate appears to have agreed with the prince, who has developed into a lively, robust youngster during his eight years' residence in Norway. Many persons profess to see in the features of the youthful prince a decided likeness of his maternal grand-father, the late King Edward VII. of
