## Love With Health Will Make For Happier Marriages

By Surgeon General RUPERT BLUE of the United States Health Service

THE health marriage idea presents a public health question which cannot be left entirely to the consideration of physicians, nor is it

merely a question for ministers. It is a great SOCIAL PROB-LEM OF VITAL INTEREST TO EVERY MEMBER OF SOCIETY and is based on the development of a better American citizenship and a nation of healthier people through the protection of women and men and their offspring against insidious diseases, the existence of which should

be given careful thought by every person contemplating marriage. It would be an extremely good thing if every state would hasten the day when statutes will be adopted which make necessary the PRESEN-TATION OF HEALTH CERTIFICATES BEFORE MARRIAGE. That these laws should be easy of enforcement, they should not, in my opinion, be too drastic. Both parties planning marriage should have knowledge whether either is diseased, however, and the provision for a health certificate before marriage is the only method of making sure that they will get this knowledge.

As most normal people look forward to entering the married state, I believe that the placing of marriage on a health basis WHLL MAKE ALL PEOPLE THINK MORE OF THE CARE OF THEIR BODIES The Union. -make them more anxious to ward off diseases-and that the general enactment of legislation of this kind will mark one of the longest steps which have ever been made in the encouragement of preventive medicinc.

. . . SENTIMENT WILL ALWAYS RULE IN THE MAKING OF MAR-RIAGES, I SUPPOSE, BUT LOVE WITH HEALTH WILL MAKE FOR A FAR MORE PERFECT AND HAPPY MARRIAGE THAN LOVE WITH-OUT HEALTH.

A man who is an authority on advertising said recently: 'You may have a business without advertising, but you can't have advertising without a business."

Just think of the full signifi-cance of that statement to the newspaper reader. It means that when you see any man advertising regularly in the better newspapers he must have

something real and genuine to advertise; that he has merchandise of such quality that it meets the needs of his customers, and that he is so sure of the desirability of what he has to offer that he is willing to spend real money to tell people about it. He knows that money spent in advertising is well spent, because he is so sure of his product that his chief problem in selling is to let everyone know what he has to sell.

Knowing this, can you afford to let this valuable information offered you by the daily newspaper slip by you through your own negligence? Do you not owe it to yourself to keep up to the minute by reading regularly the advertising columns of good publi-cations like THE ENTERPRISE.

While watching the baseball game at Gladstone park Friday afternoon. Albert Jones, 66 years of age, and a resident of Mulino, was struck on the back of the head by a swift Hner, and knocked unconscious. Dr. VanBrakle, of Oregon City, who was also a spectator of the game, attended Mrs. Jones.

She recovered consciousness in a ew minutes and her first words were, "I want to go home." After she had fully recovered from the shock, and when examination had shown that she had not been seriously hurt, friends assisted her from the grounds. The Commercial club White Sox

were at bat when the accident occured.

#### PRICE OF PEACE.

Christians have not stood and ought not to stand for peace at any price. They have recognized and they ought to recognize that there are worse things than war, had as war is. It is quite possible to pay too high a price for peace. Our fathers would have paid too high a price if in 1776 they had bartered liberty for peace. The generation of the civil war would have paid too high a price if for the sake of peace they had allowed the country to be rent in twain and a great slave empire to be founded, extending from the Ohio river to the gulf of. Mexico and perhaps including Mexico and Central America.-Dr. Lyman Abbott.
