Why not apply the principle to life? It cannot be done completely, of course, since success in any line of endeavor means long continued application. But there is value in the par-

tial working of the principle. If you apply yourself too constantly to one line of work or study you may win success in that line, but you win it at the risk of exhausting a valuable element in the soil of your life. You become narrow. You tire yourself out. as continued cultivation of one crop tires the soil of the farm.

WAR NEEDLESS.

War is in the interest of a few people, not of all. The profits are garnered by a few, while the masses pay the taxes. A few men gain glory, while the mothers of the nation furnish the sons who make food for battiefields. War rests upon feeling, not upon necessity. As people increase in intelligence they not only take an increasing pride in deciding questions upon the basis of intelligence, but with increasing information they learn the awful cost of war as well as its uselessness. Intelligence leads us to understand the causes that lead up to war. We understand as we grow in intelligence what subsidized patriotism means, what it means for people to hide behind the plea of patriotism as they attempt to advance their own pecuniary interests.-W. J. Bryan.

A further advance of two cents a pound on butter was announced Tuesday by creamery interests. The CAPABLE woman wants sewing at bination with creamery interests in neighboring market centers, and is not generally defended by dealers. However, all are subscribing to it as

a matter of self protection There is also an effort being made to drive up the price of eggs. While this may effect some markets, the local field is so demoralized that it prob ably will not be at once noticeable hereabouts. More eggs are being sold direct by poultrymen in the Willamette and Clackamas valleys than are

being handled through the stores. Cantaloupes from The Dalles, which while of excellent flavor, are rather inclined to be dry, are now competing ons are selling up to \$2.75 per crate, while out-state offerings are ranging about two-bits higher.

Canby corn in considerable bulk has been contracted for shipment to California, thus making a new record The Canby ears are said to be such that they will readily create a market

# Better the Conditions For Getting Right Kind of Men on the Bench

By CHARLES S. CUTTING, Judge of the Probate Court of Chicago

THE AMERICAN COURTS NEED NOT FACILITIES FOR REMOVING MEN FROM THE BENCH SO MUCH AS THEY NEED CONDI-TIONS WHICH WILL ATTRACT THE RIGHT MEN TO THE BENCH. IN NO AMERICAN CITY DO THE LEADERS OF THE BAR SEEK PO-SITIONS ON THE BENCH IN THE STATE COURTS. IN NO AMERI-CAN CITY AND IN BUT FEW PLACES IN THE COUNTRY CAN THE CALIBER OF MAN WHO SHOULD BE PLACED IN JUDICIAL POSI-TION ACCEPT THAT POSITION WITHOUT PECUNIARY SACRIFICE.

The general superiority of the personnel of the federal bench is conceded, and, although the COMPENSATION THERE IS PITIFULLY SMALL, the permanency of the position and the honor connected therewith attract many men of high character and attainments who leave

lucrative practice or state positions paying much higher salaries. I think most men who are familiar with judicial affairs would agree kept in that an election by the people for a TERM CONTINUING DURING itself."
