released, for he has been a good and faithful servant, and the chances are that in some capacity he can remain with his present employer as long as he wishes to be identified in any way with baseball.

But the Pirates can no longer depend upon him as their regular shortstop—as a terror to the opposition, as a man who can go unflinchingly through a whole season's campaign without suffering any hurt or showing the slightest apparent fatigue.

Those days are gone, never to return. Wagner has served his employers faithfully and has made a record which has never been equaled and probably never will be. He has nothing to regret, but can spend the remainder of his days looking back over a record which is spotless and which is the high light of the National League's modern history.

Frolics of Ivan the Terrible. Ivan the Terrible, among his many insane freaks, would let loose wild bears in the streets of his capital and placidly say his prayers while watching the slaughter of his people, "flinging a few coins to the mutilated survivors as he rose from his knees." He would compel parents to slay their children, and children to kill one another; and if there was a survivor "the amiable monarch would dispatch him with his own hands, shrieking with laughter at so excellent a joke."

In one of his lighter moods of frolic he commanded the citizens of Moscow to "provide for him a measure full of fleas for a medicine," and fined them 7,000 roubles when they failed.

Why Married Men Live Long. The reason a married man lives longer than a single man is because the single man leads a selfish existence. A married man can double his pleasures. Any time he has a streak of good luck it tickles him all over, but it makes him feel twice as good when he tells his wife about it. And she is so pleased and proud that he feels like a two-year-old. There isn't a chance in the world of a man's arteries hardening or his heart weakening when he can get a million dollars' worth of pleasure out of making his wife happy.—Cincinnati Enquirer.

NEW CURE FOR RHEUMATISM

Get the uric acid out of your system and your rheumatism will be cured. Meritol Rheumatism Powders are the most effective remedy known for this purpose. You can buy them from any member of the American Drug and Press Association. Jones Drug Co.

Pitfalls of Success.
"How's your son, the lawyer, getting on?"
"Badly, poor fellow. He's in jail."
"How's that?"
"He was retained by a horse thief to defend him, and he made such a good plea that the judge held him as an accessory."—Lippincott's.

Talking the Language.
"Our new bookkeeper can't seem to see a mistake when it's pointed out to him."
"He's a ball fan. Don't allude to 'em as mistakes; allude to 'em as bone-head plays. He'll understand that all right."—Pittsburgh Post.

Outgrew It.
"You can never tell how a boy is going to turn out."
"No, you can't."
"There used to be a boy at home whom the neighbors called Artie, but he's the president of a railroad now."—Birmingham Age-Herald.

Sometimes It Does.
Little Willie—Say, papa? Papa—Well, what is it, son? Little Willie—Does the ocean get angry because it is crossed so often?—Chicago News.

Comforting.
Mrs. Knagg—If I were to die you'd never get another wife like me, Knagg.
It's very kind of you to say that.—Boston Transcript.

HAIR GROWER FREE

A 25c Bottle of "Swisco" Hair and Scalp Remedy will be Given Away. Take the Coupon to Jones Drug Co. and They will Give You a 25c Bottle FREE

"Swisco" Grows Hair, Brings Back Its Original Color and Removes Dandruff and Scalp Diseases

The free 25c bottle of "Swisco" Hair and Scalp Remedy, if used as directed will astonish you. It is a NEW REMEDY, the latest and best preparation before the public. It is the result of years of investigation and research into the reason why so many of the hair preparations have failed in the past to do the work demanded of them. It is marvelous in its action and thousands have received amazing results just from the free bottle we gave them for the asking.

Because you may not have received any relief from something you have tried, don't be foolish enough to condemn everything else. You will be greatly benefited by the free bottle we give you.

"Swisco"—50 cents and \$1.00 a bottle—is for sale and recommended by all druggists. Those outside of Oregon City who cannot call at Jones Drug Co., will receive a free bottle prepaid, on receipt of ten cents in stamps or silver, to help cover expenses of packing, etc., by address direct to the Swisco Hair Remedy Co., 600 P. O. Square, Cincinnati, Ohio.

FREE BOTTLE COUPON

Good for one 25c bottle only, at Jones Drug Co., when name and address is properly filled in on dotted lines below.

Those outside of Oregon City will get a free bottle by sending direct to Swisco Hair Remedy Co., 600 P. O. Square, Cincinnati, Ohio, to help cover expenses of packing, etc.

I have never tried "Swisco" Hair and Scalp Remedy, but if you will supply a 25c bottle free, as above, I will use it.

Give full address, write plainly.

KALE AND GRAINS ARE UPON DISPLAY

Kale seven feet high, and so sturdy and thick at its base that it was necessary to chop it down, has been presented to exhibit department of the Oregon City Commercial club and on display in Secretary Freytag's publicity bureau. The kale is dried and gone to seed, and is an excellent demonstration of the perfection to which the food plant may be grown in the country.

Mr. Freytag will be busy the balance of this week completing a special exhibit of Clackamas county grain, which he has gathered from county ranchers and which will be sent to the headquarters of the Hill farms at St. Paul. The grains are of all varieties, and the stands are remarkable for their height and the perfection of their development. They will be utilized by the Hill people as a part of their North-western coast exhibit, and will proclaim the advantages of Clackamas county wherever the Hill display is shown.

Other shipments of Clackamas county products will be sent the Hill people in the immediate future.

WAGNER FEELS TIME'S HAND

Great Pittsburgh Shortstop About Done as Regular.

HIS UNDERPINNING IS WEAK

Last Spring His Knee Began to Trouble Him, and Recently He Was Forced to Lay Off—He Has a Wonderful Record.

Hans Wagner is about done as a ball player. Sounds almost ridiculous, doesn't it, to those of us who for more than sixteen years have been watching his wonderful performances on the ball field?

And yet it is a fact—a fact which will be received with deep regret by the thousands of men, women and children who are Home's staunch friends all over the major league circuits—yes, all over the country or wherever America's national game is known.

Wagner has been slowly but surely slipping for some time. He has tried his best to convince himself that he only imagined the numerous twinges which have accompanied his exertions on the diamond, but it was impossible for him to disregard the sure warning that he was unable to work as he once had done.

The underpinning of the "Flying Dutchman" have at last given way and refuse to stand up under him when he tries to get up speed on the bases or move nimbly about in the batter's box. He has not lost his batting eye and probably never will, but a batting eye is not a ball player's only requisite, and the toll exacted by the fleeting years from a man who has been as active and played the game as strenuously as Wagner has done is a large one.

Unless those in a position to be conversant with the true condition of the

Meeting of Negro Shriners

INDIANAPOLIS, Ind., Aug. 6.—The Imperial council of the Ancient Egyptian Order of Nobles of the Mystic Shrine, the membership of which is made up of Negro Minors, began its fifteenth annual meeting in this city today. The Daughters of Isis, which is the women's branch of the order, is also in annual session here.

Boiling Vegetables.
Food experts long ago pointed out the very small quantity of mineral matter and bone building material in succulent vegetables. Now a household expert and food scientist has found that when such vegetables as spinach, cabbage and carrots are boiled they lose about half of the small amount of mineral constituents which they contain. Spinach, for example, gave up more than 50 per cent of its mineral constituents and cabbage 40 per cent. As the loss of mineral matter in these foods makes them less nutritious, the problem of retaining these mineral parts of the food assumes some importance.—Farm and Fireside.

D. C. Potts, who operates a general merchandise store at Cook, Wn., in Oregon City. During his absence Miss Jessie Potts is in charge. Mr. Potts is making arrangements to run a real estate and loan agency in connection with his store, and if conditions are still favorable he will also erect a feed, hardware and implement store.

COMPETITION.

Instead of looking upon competition as the baneful and antisocial principle which it is held to be by the generality of Socialists, I conceive that even in the present state of society and industry every restriction of it is an evil and every extension of it, even if for a time injuriously affecting some class of laborers, is always an ultimate good. To be protected against competition is to be protected in idleness, in mental dullness, to be saved the necessity of being as active and as intelligent as other people, and, if it is also to be protected against being underbid for employment by a less highly paid class of laborers, this is only where old custom or local and partial monopoly has placed some particular class of artisans in a privileged position as compared with the rest, and the time has come when the interest of universal improvement is no longer promoted by prolonging the privileges of the few.—John Stuart Mill.

Why They're Trams Abroad.
"Abroad," said a tourist agent, "you must call street cars trams and street railways you must call tramways. The word tram must puzzle the average etymologist. It derives from a man's name—Outram—Thomas Outram. Outram lived in Derbyshire, and in the beginning of the last century he invented a peculiar sort of track that diminished the friction between wheels and roadbeds. These tracks of Outram's, though nothing like a trolley track, were called first outtramways, then tramways, and when street lines and street cars came into existence they were dubbed respectively tramways and trams."

DON'T CUT THAT CORN

That corn is liable to become a far greater misfortune if you cut it. Aside from the danger of blood poisoning, which is always to be reckoned with in cutting a corn, the least slip of the instrument is likely to leave a gash that will make the corn many times more painful. Cutting through the corn into the flesh makes the corn grow deeper, and more irregularly, making its cure more difficult.

We guarantee Rexall Corn Solvent for hard and soft corns, bunions, warts and moles, and any other calloused condition of the skin caused by undue pressure or friction. If it does not remove the corn or other callous, we will cheerfully hand you back your money the instant you tell us. Price, 25 cents. Sold in this community only at our store, The Rexall store, Huntley Bros. Co.

Land League Meets

BOSTON, Mass., Aug. 6.—The first conference of the newly organized Forward to the Land League assembled in this city today and will continue in session until the end of the week. The league aims to bring superior results to the farmer, to eliminate frauds in the settlement of lands and to inspire social life in rural districts.

TWO NEGROES TO HANG

FOR WORTH, Texas, Aug. 6.—Sheriff Rea has completed preparations for a double execution to take place in the county jail here tomorrow. The prospective victims of the noose are Ernest Harrison and Paul Fowler, two negroes, who were condemned to death for the murder of Robert Knetsch, a white man, here last year.
