## I. C. S. An Ethical Power

Now, gentlement, just for a moment, I would speak to you, not as an educationalist, but as a preacher of manhood and a lover of his The question of the use of alchohol by the student when studying, has carried me back to the thought. The International Correspondence Schools are not simply educational, they are ethical; they not make foremen and craftsmen and draftsmen, but they make MEN-in capital letters. For you can never awaken any one to his commercial possibilities without stirring up all other possibilities—social, patriotic, philanthropic, intellectual, moral. The moment you succeed breaking up one area of inertia you set vibration moving through every part of the being and all kinds of dormant and stagnant powers are set into healthy motion. When a man's mind gets engrossed with an intellectual occupation and he finds that he has a grip upon the laws and forces of the universe, the saloon, the vulgar and degrading book, the curb-stone loafing, and the hours of inane and ribald waste all seem to be unworthy of him and his self-respect clothes him in a protective armor which helps to keep his entire manhood inviolate. A great American preacher used to speak much about "the expulsive power of a new affection," and, having as your life work the duty of both supplying and developing this "new affection"—the love of the best, by which the unworthy and base will be expelled, perhaps unconsciously but surely, from many and many a man. Success to you in your work!

## The Trained Man Never Worries

. When the chiefs put their heads together to hire or "fire,"-the trained man doesn't worry. He knows that there is always a place for

You can look your job and every man in the face if you possess the training so much in demand everywhere today. The Correspondence Schools will go to you in your spare time, whereever you live, and will train you to become an expert in your chosen line work. Such a training will forever take you off the "anxious" seat. It costs you nothing to find how the I. C. S. can help you. Mark the coupen opposite the occupation for which you have a natural liking, mail the coupon today, and the I. C. S. will send you facts showing how you can earn more money in the occupation of your cwn choice.
