CHEAPNESS OF Almost daily wrecks on the limited trains and horri-HUMAN LIFE ble accidents in the factories of great industries have made the average American rather callous to the value of human life. Press dispatches that tell of the calamities that break up homes and fill the orphan

Few of us, nowadays, stop to consider the terrible import of these disasof dollars of property is destroyed year by year and we think nothing of it as the story of these catastrophes are presented through the columns of the

We have grown accustomed to the story of suffering, to the tales of susome factory or industry.

In this respect, the countries of Europe are far ahead of the United States. Lives and property are valued there. The men who are responsible for the most interesting, for there is no place that so reveals types as a county fair. disasters of which we daily read would, in any other land, be held strictly the law for any negligence or carelessness of which they may be guilty.

To us, an accident has become a matter of course. We expect them as part of the day's events. We presume that the factories of the country must their toll of life and property. We have grown hardened to the tales that daily come to us and callous to the sufferings of others.

So used to accidents have we become that we even buy insurance policies at the depots before we leave on extended trips, believing that the chances are great that something will happen to the road before we return. In factories, the employes who carry insurance are given the highest rates because it is assumed that their risk is greater than that of any other workingman.

There is absolutely no reason for an assumption of this kind any more than there is a reason for a large percentage of the accidents of which we read. Most of them are caused by carelessness on the part of some one. A great number of them could be avoided were the proper precautions ob-

Stringent laws are necessary in this state and in the other states of the Union to preserve the lives and property that are risked daily by the roads and industries of the nation. Severe punishment that would stand as a warning to offenders should be enacted into the penal clause of every statute dealing with public corporations and the men who are guilty of negligence or carelessness in the discharge of their duty should be made to suffer the same

Prisoners No Longer Lose Property, but Their Labor Is Still Confiscated

@ 1913, by American

By FRANCIS B. SAYRE, Chief of Abandonment Bureau In New York City, Fiance of Miss Jessie Wilson

VERY man who marries should weigh all of its responsibilities carefully, and personally I do not feel that any man has the right to ask a woman to become his wife unless he HAS THE ABILITY AND FULLY INTENDS TO DO ALL HE CAN TO SUPPPORT HER. We ought to have stringent marriage laws, stringent divorce laws and stringent abandonment laws, and those who break them should PAY THE LEGAL PENALTY.

I recognize fully the difficulty of doing anything like complete justice in an abandonment case. In such cases the real aim is not so much the punishment of the offender as it is to BRING THE CARELESS HUS-BAND BACK TO A REALIZATION OF HIS DUTIES in the support of his family. Therefore, when the deserting husband is arrested, what does the state do under the law? It locks him up and thereby compels him to do the very thing for which he is arrested—namely, FAIL TO SUPPORT HIS CHILDREN.

But there is a way by which the imprisoned husband may contribute toward the support of his family, and that is by RECEIVING SUCH WAGES AS ARE PROPER FROM THE STATE during the term of his imprisonment. This is not revolutionary; it is the law in the District of Columbia, and its wisdom, I am glad to see, has been recognized by the commissioners on uniform state laws. In the uniform desertion act, which they drew up three or four years ago to submit to the legislatures of the various states, that provision was included.

WE HAVE GOT AWAY FROM THE OLD ENGLISH LAW OF CON-FISCATING MAN'S PROPERTY WHEN HE IS IMPRISONED, BUT WE STILL CONFISCATE HIS LABOR.

penalty that criminals of other classes would be served for like crimes. Negligence that causes a death is nothing less than murder. It is the unlawful taking of a human life. Carelessness that results in the maining for life of an individual is mayhem and should be punished in exactly the same way that other crimes of that class are punished.

Stringent enforcement of laws of this character would tend to stop a great many of the accidents that are avoidable and would reduce the list of fatalities to those cases where no one is to blame and which are due to the unforseen happenings of the industry.

A CHANCE Three weeks from today the Clackamas fair opens at Canby, TO SEE US and will afford people who visit it a first class opportunity to get acquainted with the marvelous resources of this section, and to see with their own eyes the things that are grown and raised in the county. Of course all residents of Clackamas county know that they live in the midst of a land of plenty, where corn grows 14 feet feet high and where wheat yields 84 bushels to the acre, and where hogs can raise mortgages; and all that sort of thing. But they only know it by hearsay, and the fair will give them an opportunity to learn these things at first hand, and also to become acquainted with other marvels of the county-and incidentally to have a good time.

It is revealing no secret to say that all county fairs are designed to provide fun for those who visit them, so that everybody will be good-natured, and will be more inclined to buy the things that are offered for sale . The eduasylums of the country are read through hurriedly as part of the day's cational aspect of a fair is always a secondary, though none the less important, side. And because people are usually at fairs and go to see what they can see, their minds are in an open and receptive state, so that they really obtain ters nor the suffering that they bring in their train to thousands. Hundreds considerable information. This being the case, it behooves every true boosof lives are lost annually on the great roads of the United States and millions ter of Clackamas county to go to the fair, to be amused and made happy, and to learn of what the county has to offer them and the rest of the world.

Year after year the Clackamas fair has been improved, and plans for this year's exhibition include more original features than are to be found in any similar display in the northwest. The exhibit of what is grown in the counperintendents of orphan bromes. We have heard so often of the wrecks that ty will alone be worth the modest price of admission, for it will be a better took their toll of property and of lives that we are not surprised to read in display even than that which attracted so much attention at the Chicago and the morning papers of another disaster that has fallen on some road or in St. Paul land shows last year. Aside from this exhibit, prepared by the Oregon City Commercial club, there will be wonderful displays of grain, fruit, Taylor, who has been spoken of as vegetables, livestock, and of people. And perhaps the people will be the

City folk will there find the prosperous rancher, the farmer and the youths accountable under the criminal statutes and would be punished to the limit of and maids to whom the fair is the one big event of the year; and will find all these people interesting. And the rural folk will also have a chance to see city people, sheath gowns, slit skirts and diaphonous dresses, which be- hameha, with its battery of twelve fore the fair they have only read about. The fair will be a great clearing inch guns; at the mouth of Honolulu necessarily be responsible for accidents, that the railroads must annually take place for ideas and for the interchange of thought-and the best part of it is that everyone will be good natured and happy, and will be intent upon of fourteen inch guns, while at Diaenjoying everything and seeing everything. Everyone should be enthusastic mond Head a battery of eight mortars over the fair, should make it a point to support it with attendance, and within the artists are few years. should also invite friends to go and visit the displays. A county far, properly Head Gibraltar-like galleries have organized as this one will be, is worthy of support, is something that should been constructed, and in one of them be seen, and that should be seen more than once. The fair will be open an observatory has been established. for four days, and each day will have its special features. The man or wo- batteries has been located in this galman who does not visit it upon at least two of the four days cannot be classed lery. From this station the fire of the as a good, loyal booster for the county; and the man or woman who fails to visit it at all will have missed an opportunity to learn things that will prove Pearl Harbor cross those of Diamond valuable-and most of all will have missed an enjoyable outing,

The moral of all of which is this; plan now to visit the Clackamas county fair at Canby on September 24, 25, 26 and 27.

Heart to Heart Talks

IF YOU CAN SLEEP WELL. "I'm in wrong and I'm willing to take the consequences. I guess there must be honesty in me, for I can't sleep."

So spoke, not long ago, a man of twenty-four who had confessed the embezzlement of a large sum of money. He thought the taking of the money would ease him of his troubles. Instead, it multiplied them. For of what avail is it to a man to have money. gained honestly or in devious ways, if ne cannot rest nights?

"The first restful sleep he has had in many months was enjoyed today by William Jones" (the name is fictitious), says the newspaper story, "after he had owned up to the theft."

When the day is done, and the sunlight fades, man sits himself down to review the actions of the day. He knows, better than any one else can tell him, whether they have been worthy. He knows whether he is entitled to seek hiserest. He knows whether he may honestly apply to himself the saying of the Good Book: "He giveth His beloved sleep."

There is no boon, no blessing greater than this-that a man may go to his toll sleep comes as an anodyna. To chester Union.

tne wounded spirit, bruised by the buffeting of the world, it soothes and heals as no other physicial, mental or spiritual medicament can. Blessed sleep!

Shakespeare the great knew this when he wrote of: The innocent sleep, sleep that knits up the raveled sleeve of care, The death of each day's life, sore labor's

Balm of hurt minds, great nature's second

Chief nourisher in life's feast. When the youg man reached into his employers' cash box, he knew that he

was doing wrong But he thought of the fine times he would have with the money. The time of retribution did not come then before his mind. It was only in the still watches of the night, when the gambling and revelry

were halted that he realized his sin. Resides his bedside stood the specter of his crime, and waved away the blessed wings of sleep which fan innocent men and women to rest.

"Back!" said the Vision of Wrong to the Blessed Angel of Sleep, "this man is mine You have no part in him." No wonder that, worn out with the fever of his days and the restlessness of his nights, the young man confessed. willing and eager to gain rest by making restitution.

Before you embark on a course you know to be wrong, think "Shall I be anle to sleep after this is done?"

Don't step naru un a struggans tal because his grandfather once robbed a stagecoach. None of us can go rest knowing that he has earned it too far back in the family record with-To the tired body, wearied with hard out a shiver of apprehension.—Man-

GUNS IN A CRATER

Diamond Head, Uncle Sam's Lava Fortress In Hawaii.

GIBRALTAR OF THE PACIFIC.

The Mighty Defenses of Oahu Make That Lovely Island a Veritable Fire Lined Wall of Steel, Behind Which Crouches "the Lion of Hawaii,"

Diamond Head, that monumental elevation of lava which stands out so prominently on the Honolulu side of the lovely island of Qahu, Hawaii is the one and only original crater in the world which is being devoted to the

ise of the army of a great power. The island of Oahu is the key to the Pacific, and Uncle Sam carries that key on a chain in his capacious pocket. At any time war breaks out Uncle Sam's hand, which has not lost its cunning, will go to that pocket with the swiftness of a western sheriff, and the result will be a roar of guns which will be heard around the world. The roar will be contributed to by the guns of Fort Ruger, which are at the base of Diamond Head on the landward

From Diamond Head, called by poets "the Lion of Hawaii." to Pearl Harbor, named by newspaper writes "the Gibraltar of the Pacific," there is a chain of forts which makes Oahu one of the greatest fortresses in the world. When in Honolulu the writer had the pleasure of working with Albert Pierce 'the recognized literary authority on things pertaining to Pearl Harbor and the defenses of Hawail." He said on one occasion:

"Uncle Sam has declared to the world that he is on guard in the Pacitic. At Pearl Harbor is Fort Kameharbor will be a battery of small guns; at Fort De Russy, Waikiki, a battery Within the extinct crater of Diamond The fire control for all the Oahu coast guns of all the forts can be directed by the electric telegraph. The guns of Head and with the batteries between

make a veritable wall of steel." After inspecting the guns at Fort Ruger two of us, with a soldier guide. walked to the entrance of the gallery which has been bored through the lava and sandstone which compose the steep sides of the crater of Diamond Head. A sentry barred the way. The permit was produced and proved the

open sesume The heavy icon door at the entrance to the volcanic passage was swung back, and, with a soldier in front and another in the rear, the visitors started down the gallery. A single narrow gauge track ran the entire length of the passage. On this steel small trucks had been pushed by the soldiers, who loaded and unloaded the debris which army comrades had dug from the walls of the crater. The ties were broken in places, and the guide issued a warning to step carefully.

On first stepping into the gallery the darkness, after the tropical sunlight, was of the kind that Milton described as visible. Only a few steps had been taken before the light at the far end of the gallery was easily seen.

Instead of the barren lava bowl "hard as flint and as smooth as glass," as the picture man so picturesquely puts it, the inside of the crater was found to be grass covered, with trees and bushes standing here and there. which drew their moisture from the "liquid sunshine," as the Honolulu peo ple charmingly describe the rain.

The guide pointed out the observa tory high up on the Ewa side of the crater from which officers direct the shooting by the men who man the big guns at the fort outside the crater. Those men never see the target a which they aim far out at sea. The projectiles from the high powered guns pass over the crater, and by telephone from the observatory the men learn whether they have made a hit or miss. They generally score a hit.

In the event of a war involving the United States on the Pacific the crater of Diamond Head may indeed prove "the Lion of Hawaii," as Frances Bent Dillingham, a Honolulu poet. bas described it, and "if once stirred his paw could sweep a navy to its death. if once aroused his roar would soon be heard across the sea and echoed from the sky."-Harold Sands in Los Angeles Times.

Jeweier-now was your poy pleased with the watch I sold you?

Fond Father-Very well, sir. He isn't ready to have it put together yet, but be patient. I'll send him around with it in a day or two.
