ONE-PIECE FROCKS SHOW PARIS STYLE DETAILS
Paris designers cling to the idea of simplicity in one-piece dresses such as New York women want for early fall wear. The new note is sounded in fabrics and in the broken line of the silhouette. Two of the latest models here shown call attention to the narrow bottom of the skirts, and to the inevitable drapery.

The material of this attractive model women can give but will not afford to pay for, in the ready made garment. The material of this attractive model is navy blue ratine with satin charmeuse for the border, cuffs and crasin girdle. The decoration (which may be duplicated with embroidered solidly in old blue Indian red and green.) The rounded bottom of the center front and the effective drapery on one side are strikingly novel features.

The skirt is cut in three pieces, and the blouse has a slightly dropped shoulder. 4 3/8 yards of 42-inch material will make this gown in size 36. Both patterns are cut in 5 sizes—15 cents each.

HAIR TURNING GRAY OR FALLING? JUST MIX SAGE TEA AND SULPHUR

It's Grandmother's Recipe for Dandruff and Restoring Color to Hair.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and luster to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays skilled chemists do this better than ourselves. By asking at any drug store for the ready-to-use product—called "Wyeth's Sage and Sulphur Hair Remedy"—you will get a large bottle for about 50 cents. Some druggists make their own, but it's usually too sticky, so insist upon getting "Wyeth's," which can be depended upon to restore natural color and beauty to the hair, and is the best remedy for dandruff, dry, feverish, itchy scalp and to stop falling hair.

Polks like "Wyeth's Sage and Sulphur" because you can possibly tell that you darkened your hair, as it does it so naturally and evenly, says a well-known downtown druggist. You dampen a sponge or soft brush and draw it through your hair, taking one small strand at a time. This requires but a few moments, by morning the gray hair disappears, and after another application or two is restored to its natural color and looks even more beautiful and glossy than ever.
