Presentation by the OREGON CITY ENTERPRISE

Willis J. Abbot, the versatile writer on international subjects and author of many books of history and travel; spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hands the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written. The result is a human interest story of this beautiful land its people from the early days when Columbus tried to find a natural waterway from the Atlantic to the Pacific, down to the present time.

The Panama Canal, the greatest engineering achievement of the world's history, cost more than

\$400,000,000

It links the two greatest oceans, and becomes the most important factor in peace and war. So where is the red-blooded inhabitant of this globe that does not feel vitally interested in it. Truly it is the wonder of this progressive age!

Our Special staff photographers made the hundreds of beautiful views with which practically every page of this exhaustive book is illustrated.

The well-known artist, E. J. Read, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially made paper.
