A. D. Jones, of Denver, has come to this section of Oregon to look up a homestead near Molalla.
The most satisfying health-giving bread is Royal Bread. Fresh every day at Harris' Grocery.

BEEF IMPORTATIONS INCREASE ENORMOUSLY DURING YEAR

WASHINGTON, Sept. 16.—Enormous increase in the amount of foreign beef was noted by the Bureau of Foreign and Domestic Commerce which announced today that the imports of such meats during June, July and August approximated 3,000,000 pounds. The most of this great volume of supplies came from Australia and Argentina. It nearly equals for the three months the amount brought into the United States during the entire fiscal year ending with May 31st, last. The meat ranges in cost from 7 to 10 cents a pound in the country of origin. To this, of course, is added the transportation and other charges and the customs duty of 1 1/2 cents a pound.

BUCKAROO'S PRIZE SADDLE MUTILATED

PENDLETON, Ore., Sept. 16.—With all of the money and honors which he won at the Round-Up just closed, John Spain the Telocast buckaroo, is the saddest and the maddest man in Pendleton today. Well he might be for some miscreant Saturday night broke into the Round-Up stables and slashed his beautiful prize saddle which he won two years ago when he rode into the championship in the bucking contest.
Sunday morning he found it cut and mutilated, with considerable of the solid silver mounting gone. To get the valuable metal with which the saddle had been adorned, the thief had cut the ends off the tapaderos and the corners off the skirts and had scratched much of the beautiful engraving in trying to pry off other of the gold and silver trimmings. There is no clue to the culprit.
The saddle was the pride of Spain's life and he would almost have preferred losing his one remaining hand than to have had the saddle ruined.

REAL ESTATE TRANSFERS

WORKMAN FINDS VALUABLE NECKLACE ON SIDEWALK

LONDON, Sept. 16.—A workman this morning found on a sidewalk practically the entire pearl necklace, valued at \$50,000, which was stolen on July 15 while in transit by mail from Paris to London.
The man was going to work in Highbury, a northern district of London, where he noticed the pearls lying in a heap. On picking them up he found there were 38. He took them to the nearest police station, where they were at once recognized as part of the famous necklace from which only one pearl is now missing.
On September 2, five men, three Englishmen and two Americans, were arrested when trying to dispose of some of the pearls in London. They are believed by the police to belong to a notorious international gang of thieves.
A reward of \$50,000, which was offered for the return of the jewels, probably will go to the workman.
The necklace, said to be the most valuable in the world, was in transit between two dealers when stolen. Rumor indicated that it was destined for Mrs. W. K. Vanderbilt.

HAZELIA

Everyone has finished threshing at Hazelia.
Mr. and Mrs. Frank Whitten and Mr. and Mrs. Bob Wansler, were guests of Ed Wansler's Sunday.
Mr. Helms and family and Mrs. Ed Wansler were among the Hazelites seen in Portland Saturday.
Mr. Stuart, who has been away threshing, was at home Sunday.
Mrs. Smith and Mrs. Hane from Portland, were guests of Mrs. Helms last Thursday.
Mrs. Childs was a luncheon guest at the Boutz home Sunday.
Ray and Miss Anna Duncan left Saturday for the coast, where they

A Dark Hint

Somebody was talking to a newly married couple who were spending their honeymoon at Scarborough. "You must not leave Scarborough till you've seen the cemetery," he said. "It's well worth a visit."
They said they would go, but they forgot about it until too late. Then the young wife reproached her husband. "George," she said, "you haven't taken me to the cemetery yet."
"Well, dear," was the reply, "that is a pleasure I must defer until some time in the future."—Pearson's.

Lavender

Lavender, the popularity of which was revived by the late Queen Victoria, grows at its best in England, where the stalks and flowers frequently bring \$9 or \$10 a pound and sometimes much more. A pound of flowers yields from one-half to one dram of oil and an acre from ten to twenty-five pounds of flowers.

Catarrh Goes Snuffles and Hawking Cease

The best nose and throat specialists advise their patients to breathe Eucalyptus to destroy Catarrh germs and heal the sore, raw spots.
Booth's HYOMEI is Australian Eucalyptus combined with Thymol, and some listerian antiseptics. Breathe it through the little pocket inhaler, and in vapor form as directed, and this antiseptic balsam will surely destroy all germ life and all Catarrh misery. It's guaranteed for Catarrh, coughs, and croup; it relieves stuffed up head in 5 minutes and refreshes the entire nasal tract. Complete outfit with directions for use \$1.00. If you own a HYOMEI inhaler get a bottle of Booth's HYOMEI for 50 cents at Huntley Bros. Co. and druggists everywhere. Just breathe it—no stomach dosing.

DEPUTY GAME WARDEN IS FOUND DEAD IN SWAMP
ASTORIA, Ore., Sept. 16.—The body of Victor Birch, deputy game warden and well known young man of this city, was found in the marshes near Quincy, in Columbia county, yesterday afternoon. The affair is surrounded in mystery, and while there is no definite proof that Birch came to his death by foul means, the situation is a puzzling one.
About September 1, Mr. Birch was sent to the vicinity of Quincy to guard the private game preserve of C. L. Houston and Frank Patton of this city, through the duck season, which opened yesterday at noon. He established his camp in the preserve and prepared to spend the next few months.
While particulars of the affair are lacking it appears that about a week ago he left the camp to go to Mayger for provisions. Last Tuesday he was in Rainier, but no one seems to have seen him alive since that time.

ROADS THAT GO SOMEWHERE NOW AN INCESSANT DEMAND

One Plan Would Connect All State Capitals With Highways.

"Roads to go somewhere" is an expression heard incessantly in connection with the country wide attention to the improvement of the highways. A road extending across a township, of course, has value; it has increased value when it goes across a county; it has considerably increased value when it extends across a state, but it is of infinitely more value when it extends from state to state across the continent.
"If I had my way about it I would build a great national system of roads leading from our national capital to the capital of every state in the Union. Some say that that would bankrupt the government. Have you ever stopped to think what it would cost? Probably 18,000 miles would complete a trunk line through every capital. To build the best road that modern engineering has devised would make the average about \$12,000 per mile. The western half of these roads will cost a whole lot less than the eastern half. Eighteen thousand miles multiplied by \$12,000 makes \$216,000,000. We have spent millions of dollars upon the improvement of rivers and harbors and millions of dollars on the improvement of the Panama canal," said J. M. Lowe, president of the National Old Trails Ocean to Ocean road, the other day.

In connection with road matters, various parts of the country show gradually improving methods in regard to highway improvement. Arkansas has just voted to establish a state highway department, while Idaho has done the same, in addition to which an appropriation of \$200,000 has been made for laying, surveying and starting the construction of a system of state highways. Promising legislation is pending in Maine, Pennsylvania, Missouri and several other states.

The American Adding Machine

The Latest Adder
Costs But \$35

See our exhibit-ask for 10 days trial

Here is a new price on a competent Adder. On a machine that is rapid, full-sized and infallible.

The very latest machine, built by men who know, in one of the largest metal-working shops.

It is an individual Adder, to be placed on one's desk, close to one's books and papers. To take the place of the central machine requiring skilled operators.

It is also intended for offices and stores where costly machines are a luxury.

The price is due to utter simplicity, and to our enormous output. Seven keys do all the work.

Each copied number is shown up for checking before the addition is made.

The machine will add, subtract and multiply. With very slight practice anyone can compute a hundred figures a minute. And the machine never makes mistakes.

Countless offices, large and small, are getting from these machines the highest class of service.

Now we make this offer so that offices everywhere may learn what this machine means to them.

Ten Day's Test

We will gladly place in any office one American Adder for a ten days' test.

There will be no obligation, and charges will be prepaid.

Compare it with any non-lister—even the costliest. Let anyone use it. See if any machine can serve better than this!

Just send us this coupon and we'll send the machine.
