CANBY FAIR TO OPEN WEDNESDAY

(Continued from page 1)

and the most representative products of the county. Freak exhibits and cheap, tawdry attractions will be barred, and the exhibit as a whole will represent the best that Clackamas county has to offer. The displays of fruits, vegetables and grains have all been carefully selected to show the crops that may be raised with care and reasonable judgment. Pure Blood Stock. The livestock display will be confined almost entirely to pure blood stock, and emphasis will be laid upon the importance and economy of securing good foundation stock and keeping the strain pure. There will be no "six-legged calves" or other such freak entries. The stock display, in fact, will be practically an exhibit of class-A animals throughout, and at the close of the county fair will be sent in its entirety to the big state fair at Salem, where special quarters have been provided for it.

Big Prizes Offered. Several thousand dollars have been set apart for prizes in the different sections, and in addition valuable cups and trophies have been offered in separate classes by organizations interested in the development of the county, and by the Southern Pacific and Northern Pacific railroads. The big \$50 trophy cup, offered by the Northern Pacific for the best general display of farm produce, is but one of the many worth while awards. The great preponderance of cash prizes is expected to bring out the very best displays that can be had.

STEAMER SANTA CRUZ HITS BIG ROCK AND GOES DOWN
 SANTA BARBARA, Cal., Sept. 20.—The steam schooner Santa Cruz went on the rocks of Rincon, near here, during a heavy fog early today, and is pounding to pieces. Captain Nidver and his crew are reported to have reached shore in safety. The captain of the Santa Cruz lost his bearings in the fog, and mistaking the light on another vessel for the Ventura lighthouse, drove directly on the rocks. The crew landed after two attempts to launch a small boat from the Santa Cruz. They were cared for by ranchers after they had made their way inland. The vessel was the property of the Santa Cruz Island company. The Santa Cruz cleared San Pedro for San Francisco yesterday. The Santa Cruz carried a crew of seven. For several years she has plied between Santa Barbara and the Santa Cruz Islands, occasionally making special trips between San Francisco and southern California ports.

The American Adding Machine

The Latest Adder
 Costs But \$35

See our exhibit—ask for 10 days trial

Here is a new price on a competent Adder. On a machine that is rapid, full-sized and infallible. The very latest machine, built by men who know, in one of the largest metal-working shops. It is an individual Adder, to be placed on one's desk, close to one's books and papers. To take the place of the central machine requiring skilled operators. It is also intended for office and stores where costly machines are a luxury. The price is due to utter simplicity, and to our enormous output. Seven keys do all the work.

Each copied number is shown up for checking before the addition is made. The machine will add, subtract and multiply. With very slight practice anyone can compute a hundred figures a minute. And the machine never makes mistakes. Countless offices, large and small are getting from these machines the highest class of service.

Now we make this offer so that offices everywhere may learn what this machine means to them.

Ten Day's Test
 We will gladly place in any office one American Adder for a ten days' test. There will be no obligation, and charges will be prepaid. Compare it with any non-lister—even the costliest. Let anyone use it. See if any machine can serve better than this. Just send us this coupon and we'll send the machine.

JANITORS ADMIT THEFTS FROM OFFICES IN BUILDING SALEM, Ore., Sept. 20.—Frank Arthur, janitor of the United States National Bank building, and O. W. Hendrick, a former janitor, were arrested this morning on the charge of stealing several hundred dollars from the offices occupied by the tenants in the building. Arthur confessed, saying they had been taking money from the offices of Dr. Smith and Dr. Fields, dentists, for several months. They were caught last night by means of marked coins placed in the safe.

CATTLE DELUGE IS DRUG ON MARKET

Receipts for the week at Portland stock yards have been: cattle 1646, calves 62, hogs 2337, sheep 642. The late cattle market manifested little if any change as receipts since the first of the week have been very manifold and business very slow. Monday had another beef deluge which surpassed the record total seven days previous. Fortunately the run contained a liberal supply of fat steers and cows and the trade was forced to bid strong prices to secure the good ones. Two loads of steers at \$8.00 and \$8.10 respectively, one of cows at \$7.25 and another at seven were extreme quotations. All other sales were 15 to 20 cents lower and price range is unsteady. The beef deluge has dulled the market temporarily and only in rare cases does a better steer price than \$7.75 appear. The swine market was unsatisfactory from several view points. Total receipts were comparatively small, quantity not of the best and demand slow. Prices generally were 15 to 20 cents lower; best light hogs selling \$8.50 to \$8.75. Trade was spasmodic and a hand to hand proposition. The one real bright spot in the stock trade last week was the sharp advance in the ewe division of the sheep house. Prices are from 25 to 50 cents higher and choice killing stock is selling \$4.25 to \$4.50. Weathers were not offering and a few poor lambs failed to create any sensation but these classes are doubtless stronger. The exact price range will be determined when some choice stuff is liquidated.

FOREIGN LABORS NOT WELCOMED BY AMERICANS
 NORTH YAKIMA, Sept. 20.—Organized labor, will not oppose the right sort of immigrants, but will fight to the limit the artificially stimulated influx of foreigners which is expected as soon as the Panama canal is opened. This is the statement of P. W. Dowler, general organizer for the United Brotherhood of Carpenters, who is here on business. Despite the fact that both Washing-

ton and Oregon have special commissions to look up people to come over to settle on the logged-off lands. Mr. Dowler believes that the activity of the steamship companies, operating in cities and villages is bound to flood the country with people who are not desirous of being farmers, but will compete with the working man. "The recent strikes in the east," he said, "are an instance of what happens when a crowd of foreign workmen are gathered into a labor center."
