FARMERS LEARN THE

VALUE OF ADVERTISING

In the current issue of Farm and Miss Bertha Zwahlen is reported re-covering at the Oregon City hospital employee who has large orchards and superintends them himself, writes Miss Helen Pollock, of Portland, about the value of advertising to farm

"Advertise, advertising, advertise and Mrs. Hugh Kennedy Sunday. "Advertise, advertising, advertise ments, advertising campaigns and ad ette Pulp & Paper company is rapidly vertising bills—magic words. And recovering from a severe case of ty even we farmers are catching on. Didn't John Pickering Ross hit the Pierce Wright, a prominent farmer nail on the head recently when he from the Liberal district, wrote his told the sheepmen not to sell their name on the register of the Electric flocks, but to advertise their mutton? People do not eat mutton because they do not know how good it is when and cooked right. Some keen organization of sheepmen is going to show a number of these people who are at Emerson, will leave Tues present non-consumers of either lamb, ram, sheep or mutton how short sighted they are, and by so doing will create a more active demand for their special product.

So, too, we may expect to see the day when even the young clerk who is but beginning his life at the lunchsap. That is, if the buckwheat grow-ers and millers and the maple-grove ret Mabel, have been visiting Mr. and owners catch on to the value of advertising as early as we think they

will. Frank and Carl and her daughter, formulate and put into execution some comprehensive advertising scheme to reach the present non-consumers of apples we may not be able to se'll our crops profitably."

This beautiful big volume is written by Willis J. Abbot, a writer of international renown, and is the acknowledged standard reference work of the great Canal Zone. It is a splendid large book of almost 500 pages, 9x12 inches in size; printed from new type, large and clear, on special pages; bound in trooical red wellum clear.

DTIFICATE OF PRESENTATION

THEY PUZZLE GREAT MINDS.

Simple Words Too Profound For man Understanding. Q .- Can there be two kinds of infini-

des or two infinite spaces? A .- The writer of this question must decide The nearest star is distant twenty-tive trillion miles. Write a row of units 111111... to the star and let

each unit represent one mile; then the distance represented by a line of 1's. twenty-five trillion miles long, submerges all human powers of imaginaof the First Congregational church, of- tion. But write a row of 222222. twenty-five trillion miles long; then the number of miles represented would be twice as great. Then write a row of 999999... equally long, and the distance expressed would be nine times as great

as that represented by the 1's. But no human can think of the distance expressed by the 1's. Let the first row of figures extend twenty-five trillion or fifty or a thousand trillion miles to the east; then a row could be extended toward the west. Many millions of years would be required to write the long rows. Suppose that you write 9's both ways during a thousand million years each. Then the distance in miles would be thinner than a spider's thread when compared to

an infinite distance. There are possibly fifty persons now living able to think one new thought. They are the mighty of the earth, and are all transcendent mathematicians Not one of these even tries to begin to think of infinity or eternity. They all know better. Only the superficial strive to think of the two words, so my questioner must answer his own question, for I cannot even hope to secure a glimpse, lasting a thousandth part of one second, of the meaning of one of the following list of words: Mind, space, time, duration, infinity, eternity, beginning, end, space and electrons.-Edgar Lucien Larkin in New York American.

FOUR SOULS EACH.

Curious Beliefs of the Savages of West Africa.

West African religion is particularly generous to the human beings, to each of whom it allots several souls, four being the usual number. Only one is immortal, however. The others, though troublesome enough during the own er's life, cease to be at the same time as the body. They are the shadow soul, the dream soul and the bush soul.

One soul seems more than many of us can manage, but the poor African has a bad time between the four of them. He never knows when some enemy may plunge a knife into his shadow, thus causing him to sicken and die, or when his bush soul, which takes the form of an animal, may rush into danger and get hurt, and, as for his dream soul, that is particularly troublesome, as it wanders from his body during sleep and runs the risk of being caught by witch traps. When this happens its place is often taken by a nasty stranger spirit called a "sisa," which seems to have no other object but to cause misfortune and sickness to the being who forms its temporary habitation.

Most of the tribes have the idea of an underworld after death, neither beaven nor hell, but much like the ex-Among those registered at the Electric are: L. This place has its markets, its town and its interests, but everything is felt in a more indistinct

Meat For Jurymen.

At one time it was the common duty of both the plaintiff and defendant in an action to provide refreshments for the jury empaneled to try it, and from this arose the practice (which survived until 1870) of denying them "meat, drink or fire" while deliberating upon their verdict. Later on it became usual for the person in whose favor the verdict was given to offer the jury a dinner and sometimes a guinea or so for their trouble. This practice led to so much abuse that it was found necessary to pass a law prohibiting it.-London Graphic.

NOVEL SUGGESTION TO AVOID MANY ACCIDENTS.

Plan Would Necessitate Slow Speed of Autos When Crossing Tracks.

In order to avoid accidents at railroad crossings, which have claimed such a large death toll in recent months, a novel suggestion has been put forth which it appears will at least lessen the danger of a collision between a train and passing carriages or automobiles.

If the highway crossings were divided and offset with sharp turns at the track, as per the sketch accompanying, oat hay best \$10 and \$11; mixed \$9 to exceeding four feet. Before many of line of preparations, made by the Asthe crossing could not be made at high \$13; Idahq and eastern Oregon tim-

SUGGESTED PLAN FOR CROSSINGS

speed. Thus the driver would be going slow enough to see a train and stop, if he used his senses at all. In many instances it is impossible to build overhead or tunnel crossings, and

aside from that the expenses are very great. Such a scheme as this would not, of course, eliminate all accidents, but the number would be greatly di Colonel Cornell of the National Highways Protective society reports that

the number of automobilists killed in New York state alone in 1913 up to Aug. 1 has been seventy as compared with fifty-two last year and seventytwo seriously injured as against fiftyeight in 1912. F. A. Brown of Detroit says in the current number of the Spectator that "more than 95 per cent of automobile accidents are due to care-

TAR TO SAVE FRENCH ROADS.

Public Works Minister Plans to Spend

\$50,000,000 on Them. Not less than \$50,000,000 will be spent in the next ten or twelve years putting a tar coat on 6,000 miles of highway or one-quarter of the roads of France, according to the minister of public works, M. Thierry.

The new tourist department at his ministry is grappling with the problem of overhauling the roads for the benefit of the motor traffic, which has already reached huge proportions and is threatening to ruin the splendid highways for which France is famous.

M. Thierry is convinced that the only way to combat the wear and tear is to undertake systematic tarring of the roads. He purposes to meet the heavy cost by a graduated tax on automobiles ranging from \$10 for twelve horse power cars to \$50 for all over sixty horsepower.

M. Thierry also says that the tourist

department is going to see France provided with clean, comfortable and hygienic hotels, which are found in Germany, Austria and Switzerland, but are lacking in the republic, although everywhere the food obtainable in French country inns is excellent.

Towne-So you were in London, eh? How did you find the weather there? Browns-I didn't have to find it. It came and hunted me up and surrounded me in large sized chunks .-Philadelphia Press.

Fred G. Taylor, the gas-blower on The Enterprise, is about to blow up according to one of his brainy eds.

A RELIABLE TONIC

Many of the people around here know a good deal about this splendid remedy; to those who do not, we wish to say that Meritol Tonic Digestive is the greatest strength renewer, flesh builder and nerve tonic we have ever seen. For people in poor health, weak run down and played out, those not as strong and vigorous as they should be, we recommend this tonic. Jones Drug Co., sole agents.

BOUNTIFUL CROPS OF HOPS AND PRUNES

With the hop picking finished and the harvesting of the prune crop well under way, prospects are bright for one of the most prosperous years the
