# FRANK BUSCH

**WILLAMETTE**  
 The Enterprise, realizing the importance of the town of Willamette to Clackamas county, has secured the services of Merritt Willson to act as special agent. This applies both to the delivery of the papers and to the collection of the news. He will be glad to co-operate with the people of Willamette in any way that will insure better news or carrier service and will willingly accept any items or will write up any church or social affair of which he is informed.  
 Mr. and Mrs. Powney have returned from a brief stay at Seaside, where they had a very pleasant outing.  
 Edwin Berdine is visiting his brother Harry Berdine, of Willamette.  
 Mr. DeBok has forwarded some of his best produce to the county fair at Canby and expects a number of prizes.  
 Willamette is making active preparations for the winter as can be seen by the number of houses with piles of wood standing in the street. Mr. Colson is again operating his

woodsaw in and about the town.  
 The school board, believing that athletics should be encouraged in the school, has purchased a football, baseball and other sporting goods to promote these games. The students are taking advantage of this offer on the part of the board.  
**No Waiting For Him.**  
 "Yes," exclaimed the young man with a deep drawn sigh, "I've finished my legal education at last!"  
 "And now," said the friend, "you'll sit down and wait for clients."  
 "Not on your life I won't!" replied the new attorney, "I've got a job promised me in a dry goods store."—Cleveland Plain Dealer.  
 Betty—"That case hasn't come on yet—isn't the law's delay maddening? Clislie (absentmindedly)—Perfectly frightful! I've been six months getting that young barrister to propose.—London Opinion.

## The American Adding Machine

The Latest Adder  
**Costs But \$35**  
 See our exhibit—ask for 10 days trial

Now we make this offer so that offices everywhere may learn what this machine means to them.

### Ten Day's Test

We will gladly place in any office one American Adder for a ten days' test.

There will be no obligation, and charges will be prepaid.

Compare it with any non-lister—even the costliest. Let anyone use it. See if any machine can serve better than this.

Just send us this coupon and we'll send the machine.

Here is a new price on a competent Adder. On a machine that is rapid, full-sized and infallible.  
 The very latest machine, built by men who know, in one of the largest metal-working shops.  
 It is an individual Adder, to be placed on one's desk, close to one's books and papers. To take the place of the central machine, requiring skilled operators.

It is also intended for offices and stores where costly machines are a luxury.

The price is due to utter simplicity, and to our enormous output. Seven keys do all the work.

Each copied number is shown up for checking before the addition is made.  
 The machine will add, subtract and multiply. With very slight practice anyone can compute a hundred figures a minute. And the machine never makes mistakes.

Countless offices, large and small, are getting from these machines the highest class of service.

**Alfalfa From Everywhere.**  
 Alfalfa is a cosmopolitan plant. In its travels it has picked up traits from every quarter of the globe. The alfalfa we have in the United States, coming from Mesopotamia, Africa, Spain, South America, Turkestan, Siberia, the Ural mountains, France and many other places, has brought us as many characteristics as it has origins.—Breeder's Gazette.

**Strong on Detail.**  
 "You know Wigley—great fellow for detail."  
 "He is that. Wigley's the sort of chap that would go and get married and be able afterward to tell you whether it was Mendelssohn, 'Lohengrin' or 'Tannhauser' they played during the ceremony."—St. Louis Republic.
