OREGON CITY DAY SEES RECORD CROWD AT FAIR

BARBECUES ARE POPULAR PLACES

GREAT CROWDS ATTEND ALL OF THE DISPLAYS AND SPEND TIME IN FUN

EXHIBITS ATTRACT GIANT THROES

City Has Large Delegations on Hand and Trains Are Filled—Shows Illustrate Growth of the County During Year

CANBY, Ore., Sept. 25.—Two barbecues, an elephant and a baseball game, along with other features, marked "Oregon City Day" at the seventh annual Clackamas county fair Thursday, and over 2,000 persons turned out to see the offerings of the occasion.

The barbecues were a success from every viewpoint—in fact the morning one was so good that popular demand made the afternoon one necessary. The elephant was a late arrival, and belonged to a carnival company that got lost on the way here. When the company, and the elephant arrived there was panic among the race-horses until the big pachyderm had passed. As for the baseball game, it was between Hubard and Mr. Anzei, and was won by the former to the tune of 4 to 0.

Big Success. All these things, and others, helped make Oregon City Day a genuine success, and practically everyone on hand got his or her money's worth. Some later exhibits arrived during the previous night and were put in place to add to the attractions. Among these was the display of fruits, vegetables and grains put up by Secretary Frey, of the Oregon City Commercial club. This exhibit bore no name to identify it, and was only discovered by Oregon City folk after a good deal of sleuthing. But it made them feel proud when they finally discovered what it was. The social hygiene exhibit of the Oregon Social Hygiene society was also put in place and attracted many visitors.

Livestock Show. Judging of livestock and of part of the juvenile and general display began Thursday, but owing to the close rivalries that developed in the different classes, was not completed, and will be continued Friday. Some idea of the trouble experienced by the judges may be gained from the statement that it took Judge Cleveland 15 minutes in one case to pick winners in a display of but six Polan China pigs, so near to standard were all the

entries. Incidentally Judge Grant B. Dimick's pigs carried off a majority of the awards for Poland Chinas.

Horse Display. Judging of draft and driving horses was completed Thursday, and as the prize winning animals were led about in impromptu parades by their owners they arched their necks and pranced in apparent pride. Detailed lists of the prize winners in all classes will be ready for publication the latter part of the fair, after the results have been tabulated and the sweepstakes settled.

Among the special exhibits viewed by the judges Thursday was the miniature shoe factory maintained as a part of the exhibit of L. Adams & Co., of Oregon City, where several pairs of shoes are manufactured daily in plain view of all who care to stop and look. This exhibit won the first prize an award of \$25 for the best working exhibit and display at the fair. Crowds stood about the booth all day watching the transformation of raw leather into serviceable boots and shoes.

School Children Rivalry. Considerable rivalry has developed among the school children who have spent pumping and squashing on display. There are over an acre of these big gourdlike vegetables, all of which have been "fattened" on milk and other special "waterings," and the judges were in despair as to which should have the prize. It was finally determined to have some special expert pass upon the big exhibits, to determine the relative merits.

Much rivalry has also developed among the individual exhibitors as to who shall win the magnificent \$50 silver cup offered by the Northern Pacific railway. This cup is at present resting in the place of honor of the Molalla booth, and is finely set off by its surroundings. Always before it is to be found a gathering of farmers and ranchers, each of whom hopes to gain the trophy, and all of whom are figuring whether or not it will look best in the parlor or in the dining room. The cup is to be awarded the exhibitor who, in the eyes of the judges, has the best general display of farm produce of all kinds. It is to be competed for each year, but if won three years by an one man, will become his property.

Cup For Fruit. The Southern Pacific has also offered a silver cup for the best display of fruits, and this is also eagerly sought by the exhibitors. Both cups will be awarded on Saturday, the last day of the fair, Saturday, in fact, will be a sort of gala day all around, and exhibitors expect to have their winning displays decorated with ribbons and trophies at that time.

Friday will be "Molalla Day" at the fair, and in anticipation of a record breaking crowd from the upper part of the county, special preparations are being made to entertain all comers. A program of attractive events has been prepared, and several of the displays will be rearranged, so that the exhibits may be shown to the best of their advantage. This was done in many instances between the first and second days of the fair, and the change in position and grouping of the displays not only added to the interest of the showing made, but also served to keep people who visited the fair the second time from finding things monotonous.

Use New Road. Molallians will turn out strong at the fair and will make the journey down to Canby over their new rail road, the Portland, Eugene & Eastern, which inaugurated its service just in time to catch the holiday crowds. Holiday crowds is quite the correct term, for people who visited the fair on the opening day have found its attractions alluring and will make the journey not only returned, but have gone camping in the grove to the northeast of the grounds, there to spend the remainder of the week.

BOYS' FEET HAVE WINGS—ESCAPES

Albert Kidder, who was sent to the reform school for running away from home with a stolen horse and buggy and who escaped from that institution last Monday, was found Thursday evening by Constable Jack Frost at his home in West Oregon City. The 10-year-old boy slipped away from the Salem school last Monday and walked all the way to his home here.

The constable was informed of the runaway the same day of the escape and since has been waiting for his return. The boy will be taken back Friday morning.

PLEADS FOR CHAIR OF LOGGING ENGINEERING SPOKANE, Wash., Sept. 25.—Recommendation that \$600,000 be raised by the logging interests of the Pacific northwest for the employment of chairs of logging engineering in universities of Oregon, Washington, California, Idaho, Montana and British Columbia was made in the report of Secretary George M. Cornwell, Portland, read here last night before the fifth annual Pacific Coast Logging congress.

Cornwall declared that there is need for better logging engineering, and urged that aside from the endowment logging interests offer prizes to employes and others for inventions that will improve logging machinery and help improve knowledge of logging.

He lauded the workmen's compensation law and declared for the betterment of conditions effecting employes in logging camps.

Won't some story writer write one in which all the male characters, and most of the female, do not smoke cigarettes nearly all the time

Characteristic Pictures of Late Mayor W. J. Gaynor, Who Died at Sea and Body Shipped to America.

Photo copyright, 1913, by American Press Association.

While the body of Mayor William J. Gaynor of New York City was being brought to America on the Lusitania expressions of sympathy were received by the family from all parts of the country. Mayor Gaynor was beyond doubt a national figure. Not only was he widely known because of the attempt to assassinate him three years ago, but because his name was mentioned as a possible candidate for the Democratic nomination for president before the Baltimore convention nominated Woodrow Wilson. These characteristic pictures of the dead mayor are interesting, particularly the one with the spade, which was taken at the time he accepted the independent nomination for re-election as mayor just before he sailed on what proved to be his death voyage.

PARENTS-TEACHERS' CLUB GETS TO WORK

The Parent-Teacher's club of Canemah will entertain the teachers at the school house Friday afternoon at 2:30 o'clock. Mrs. Fred J. Tooze and others will give a talk and refreshments will be served.

The club was organized about a year for the purpose of bringing the parents and teachers together for the benefit of the pupils. Last year was considered a very successful one but plans are being made for a still better season this winter.

Enterprise advertising pays.

Justice Won't Let Him Have One Little Glass of Beer

"Not even one little glass of beer, Judge?"

"Not a drop!" sternly replied Justice Seivers. "If I let you go and you get out of that sentence, you've got to put in three months of hard work and support your family during that time. If you don't promise me that you will do that, into the county jail you go."

And the promise wasn't long in coming when the stern justice of the peace handed down his ultimatum nor did the doors of the Clackamas county jail

clang shut behind Clarence Hauldchafer and his brother-in-law, Lester Smith, Thursday.

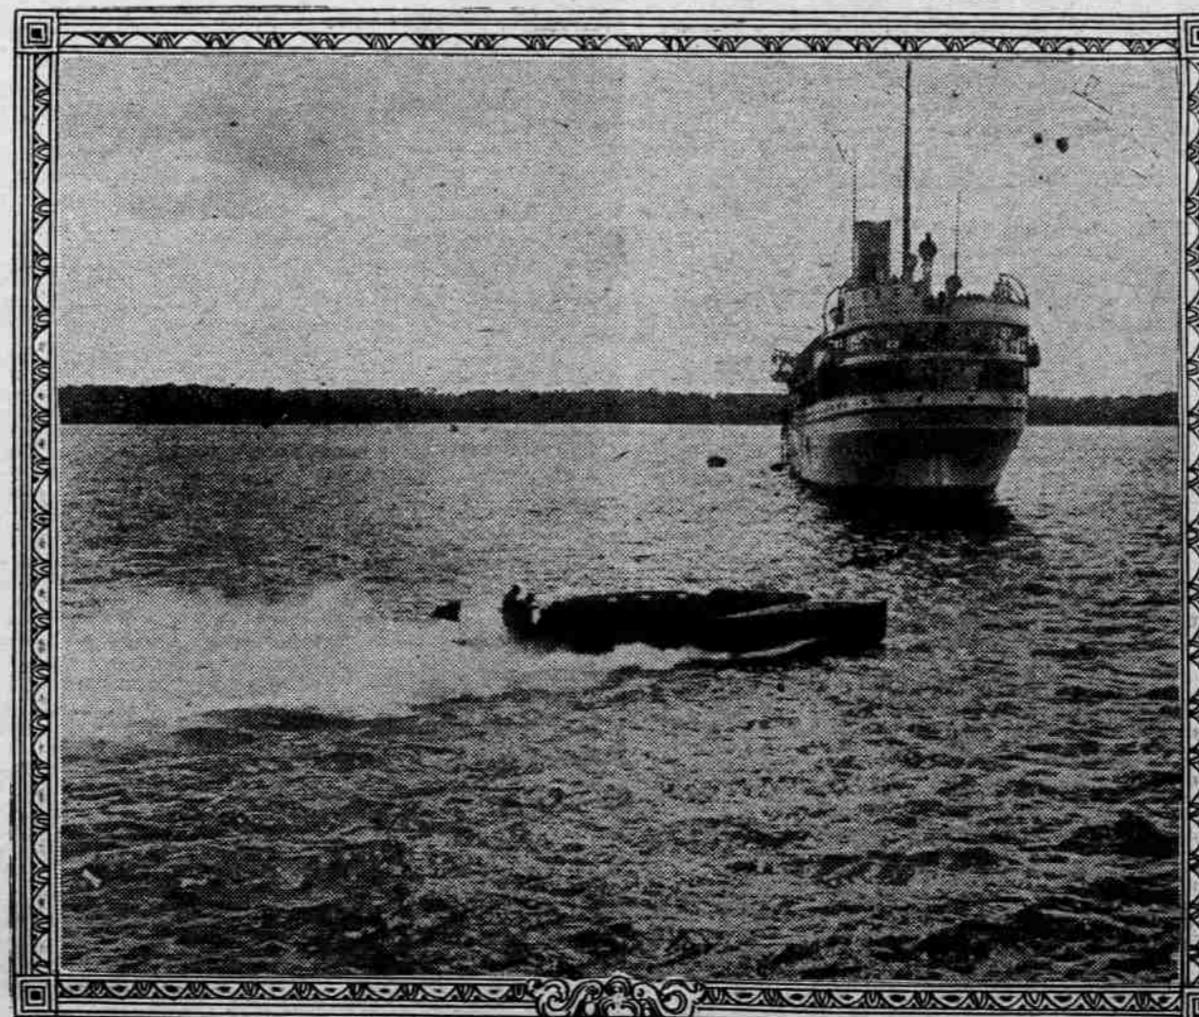

All the trouble arose over the fact that Hauldchafer wanted a sack of flour and rifled the store of H. W. Streibig to get it. Unfortunately, there was a hole in the sack and the little flakes of flour dripped gently out one by one to the ground and left an unmistakable trail from the store to the home.

The officers found one sack, investigated, and located the other at the home of the brother-in-law.

BRITISH MOTOR BOAT WINNER OF INTERNATIONAL RACES.

Cop yright by International News Service).

The speedy British motor boat Maple Leaf IV, which won the recent international motor boat races in England, defeating American and French contenders for the Harmsworth Cup.

This type of boat has completely revolutionized the building of high speed boats. The bottom has the appearance of an inverted staircase which standing settles into the water. As the boat strikes the water, it rises out of the water her planes gliding along the surface of the water, until when at top speed she literally skips in leaps and bounds; in this way overcoming the resistance formerly caused by plowing through the water.

Not many years ago a motor of fifteen miles an hour was considered fast for a motor boat, but now this type of boat has attained speed equal to that of a railway train.

SIXTY APPLICANTS FLOOD CLERK

FIRST PAPER HOLDERS POUR INTO OFFICE TO CLEAR UP RECORDS

GOVERNMENT AGENTS STIR THEM

Work of Sleuths Result in Filing of Large Number of the Petitions for Final Hearing in Court

Naturalizations are coming in from all parts of the county to the office of the county clerk, 16 having arrived Thursday. The flood of applications is due to the activity of the movement agents and their threat to make it as uncomfortable and troublesome as possible to get the papers through unless all of the work is cleared up before Saturday night.

So many of the residents of the county have taken out only their first papers and have gone no farther with the process that numbers of applications have lain dormant for years and no further steps been taken in the courts. The government has determined to clear up all of these and to see that the first applicants finish the process and receive their final papers as soon as their applications are approved by the courts.

BAPTISTS TO BEGIN MISSIONARY WORK

In the lecture rooms of the Baptist church, Sunday evening at 6:30 o'clock, there will be held the first of a series of meetings of special interest to young people.

This meeting is under the direction of the missionary committee of the B. Y. P. U. and marks the opening of the fall work. A quartet consisting of Miss Ona Kenner, Miss Humstock, Mr. Lyle Kellog, and Mr. John Etchison, will render a selection and assist the chorister, Mr. Conklin, in the singing. Miss Humstock and Miss Renner will sing a duet.

A letter from Miss Purcell is expected, telling of the work among the Japanese in Seattle, where she is located. Dr. Latourette will explain just how missionary work is carried on in China.

The meeting October 5 will be under the management of the new officers and committees and arrangements are already under way for one of the best programs of the year.

COUNTERFEITER'S WIFE WANTS A DIVORCE

The wife of a convicted counterfeiter applied in the circuit court for a divorce Thursday, alleging as the grounds for the action that the husband had deserted her after he had completed his six months' sentence in the county jail in Canada.

Annie Miller brought the suit against William Miller. They were married at Drayton, province of Ontario, dominion of Canada and the desertion is alleged to have occurred at Montreal. She asks in the complaint that her maiden name of Annie Atkinson be restored.

Another desertion case was filed when Ira A. Mallory brought the action against his wife, Hilda Mallory. They were married in Douglas county, Oregon, July 8, 1906.

CLATSOP COUNTY MAY VOTE ON BOND ISSUE

ASTORIA, Ore., Sept. 25.—The progressive citizens of Clatsop county, not to be outdone by others in the lower Columbia river section, are now agitating the question of voting on a \$400,000 bond issue for good roads at the November election. The principal object in the move is to assist the Columbia Highway association in establishing the proposed highway from Portland to the sea via Astoria.

To construct the highway through Clatsop county it is necessary to issue bonds to raise the required funds, and petitions are now being circulated throughout the county to put the question on the ballot. The petitions must be filed by October 1, otherwise the election will be illegal.

The plan of those behind the movement is to issue a series of 20 year bonds, which will draw 6 per cent interest. The first series is to be for \$100,000, and will be placed under the direction of the Clatsop county court, while the actual construction work will be under the supervision of the state highway commission.

COP PINCHED WHEN SHOT KILLS A BYSTANDER

CHICAGO, Sept. 25.—A bullet fired by Policeman William Allen at three highwaymen early today struck an iron trolley pole, deflected and killed William Lorimer, a tobacco agent. Three friends who were talking with Lorimer when he was shot seized the policeman and took him to the station, where he was placed under arrest. Another policeman heard the shots and arrested one of the robbers.

Fred Schafer, a farmer and saw mill man of the Molalla district, came into Oregon City Thursday.

FACTORY WON'T GO TO ALBANY

DELAY IN PRELIMINARY WORK PREVENTS LOCATION OF WOOLEN PLANT

CANNOT SECURE ENOUGH WOMEN

Business Men Plan Spring Campaign to Get Branch House Erected There Next Year When Outlook is Better

The garment factory which the Oregon City Manufacturing company recently proposed to establish in Albany will not be located there, at least this year according to a circular letter which has been sent to residents of that town, informing them that the money which they subscribed to the proposition has been cancelled by order of the Albany Commercial club.

The large local plant found it impossible to secure enough women to handle the product of a garment department, and looked over the valley towns for a suitable location, with the result that Albany was chosen.

It made arrangements with the business men under which Albany would secure land and erect the building costing \$10,000. The arrangements have been completed but because of the time required in finishing the plans, and some disagreement as to the cost of the building, it has grown so late in the season that it will be impossible to build the factory this year. The Albany business men are making plans to renew the campaign in the spring.

NEW ILLUSTRATED BOOK ON PANAMA

No similar book ever published will be so widely read as "Panama and the Canal in Picture and Prose," which the Enterprise presents to its readers on the plan explained elsewhere in this issue. It is a great big, beautiful volume, twice as large as an ordinary novel, and contains the complete story of the Panama canal, in picture and prose.

Willis J. Abbot, the author of this book, has for many years been a writer on international topics. This has not only fitted him for handling the subject in question, but has given him a large acquaintance among officials who have been instrumental in building this mighty interoceanic waterway. So the story is complete, from the time when Columbus sought for a natural water course to the Pacific ocean, up through the centuries of revolution and warfare, and on through to the realization of the greatest achievement of this day and age. It tells of the people and the country; the various strange modes of life; the occupations, sports and pastimes of the natives; how they live and dress; in fact, it is filled with local and heart interest set forth in a chatty style that at once grasps and holds the reader to the very end.

Such a work cannot help to be of vast importance in the education of all who would desire to keep abreast of the times. The old as well as the young will find information of rare educational value throughout this volume. The illustrations cover every subject treated. They consist of more than 600 photographic reproductions, and include numerous full page in colors that portrays the richness of the scenery in this great tropical garden. No similar work was ever so profusely and expensively illustrated.

The Enterprise wants every one of its readers to have a copy of this beautiful new illustrated book, and to that end a certificate is printed daily in these columns, six of which enable the bearer to get it when accompanied by a small expense fee to cover the actual cost of the various items of distribution. This is all explained in the Panama certificate.

MIGRATING INDIANS BUY SUPPLIES HERE

The Indians from the Warm Springs reservation are in Oregon City on their return from their annual trip to western Oregon.

Every fall they come to this city with great quantities of huckleberries which they sell to local merchants and then they scatted to neighboring hop fields. On their way back they stop here and buy supplies for the winter.

FLAGS DIP ON ALL OCEAN VESSELS ON PACIFIC OCEAN

SAN FRANCISCO, Sept. 25.—Over the Pacific ocean today there went radiating from San Francisco a wireless message which reached every ship with wireless apparatus, and asked it to dip its flag in honor of the four hundredth anniversary of the discovery of that great expanse of water by Balboa.

The message was sent by the Marconi Wireless Telegraph company and was picked up and relayed from ship to ship until within a short time every vessel on the Pacific had received it. The message read:

"Dip flags. Pacific ocean discovered 400 years ago today by Balboa. Pacific coast celebrates anniversary in the Portola Festival at San Francisco October 22-25. Portola Festival committee sends greetings."

The poet who in autumn wrote: "The melancholy days have come, the saddest of the year," must have had dyspepsia or hookworm or something.
