JOYS AND SORROWS.

Our own happiness ought to fill us with continual kindliness to others and a desire to make them happy too. Our own sorrow ought to stir us to compassion and desire to help the sorrow of other people. If our joys or sorrows fail to produce these effects in us, then they are wasted and ignoble. No personal experience comes just for our-

Enlarging the Supply. He- ' see that there were but 5,080 words in the English language in Shakespeare's time. Now there are 450,000. She-Well, just think how many more people there are who speak English.—Cleveland Plain Dealer.

A sense of humor is about all the ense some men have, and even that's

FORUM OF THE PEOPLE

OREGON CITY, Sept. 29.—(Editor of The Enterprise)—What has been done about getting a new supply of water by our city council? How this died a natural death along with many other vital questions before the people? Perhaps when they get over the 'scrap as to the main being furnished elevator," they can take up some of the more important questions. A new supply of water is far more gon City than any elevator proposi tion. In fact, the elevator is a great bins, Canby, first; G. Harms, Aurora, second; Heu, Mrs. John Robbins, Can-ple, and it is going to be a continual

expense in the future. If the city is bound to do this thing, why not take a step forward and pay for all improvements out of a general fund. I believe this is the only way we can do justice to all.

This leads us up to the question of rock-crushing. If the city thought it would get buncoed by purchasing the Jones crusher, there are others. We have capable men here in town

who can do any kind of work needed

C. C. Babcock has had a lot of prac tical experience and he has done a lot of work that was caused by defective work done by contractors. F. C. Burk, our old-time friends, has had a long experience doing this kind

Harry Jones is an all-around me chanic, than whom there are few beter, as his work is of the best. J. W. Moffatt knows the business and we don't need to import any con-

tractors to do our work So why not have a crusher and give our friend Shaw a chance to work out his plans as to the hobo nuisance and let the city do all street and city work out of a general fund, levied for the

Sooner or later we must come to this, and why not commence doing things right now? There seems to be quite an amount of friction in the council, and as they cannot agree on the points that com-

before them, and hence they cannot

accomplish the work they otherwise could. I hear some talk about buying a small tract from Mr. Englebrecht for athletic grounds and park for the city. Why not, and why not use the water they found so abundantly here? It it because it can be gotten for comparatively nothing? The water stood the test for purity. Some day we'll go to the Clackamas for water, and Milking Contest-D. B. Yoder, Can- then we'll have "bull run water" of

E. C. HACKETT,

DESERTIONS

Four divorces were filed in the circuit court Monday, all of them charginand, September 19, 1910. He is said Louise Fortune brought the action against A. B. Fortune on the groun i that he had not provided for the nec essities of the family and that he had deserted them. They were married

Harry DeVries sued his wife, Eve evelyn, for divorce alleging desertion as the basis for the action. Mamie Magness against Walter P.

Magness is the style of a case bruoght for desertion and failure to provide. The marriage was celebrated at Van-

couver, Wash, on Christmas Day. Sarah Jane Bowen alleges desertion as the reason for ner suit against Fred W. Bowen in the circuit court to have deserted her two later.

The Part He Took.

Mamma-I'm sorry you and your sister quarreled over the orange and that your cousin James had to interfere. Whose part did he take? Small Tommy-Part, nothing! He

took the whole orange.
