FORUM OF THE PEOPLE

OREGON CITY, Ore., Oct. 4, 1913.-(To the Editor of The Enterprise)-If the ministers, as Mr. Milliken asserts in this morning's issue, had really had "plenty to do minding their own business," the present confusion in the county's sanitary interests would never had occurred.

It was a minister who took the stump in a political campaign, avowedly to accomplish the removal of our former efficient Health Officer Dr. Norris. The old doctor had put an account against him for medical services in the hands of a justice of the peace for collection, and he took his revenge. It was successful and the present imbroglio is the result. But perhaps this is "venturing into the un-known realm of theology," and I beg Mr. Milliken's pardon! It was a minister, too, who recommended to the county judge "how he should run the health end of his business," by suggesting an irregular appointment for the office, in regard to which the whole controversy has arisen. When "certain members of the medical fraternity" ventured to do the san

Interwoven with the beautiful word pictures in this large volume are hundreds of photographic reproductions, accurately portraying the scenes described in the text. Many of these pictures represent scenes far removed from the path of the ordinary tourist-views of the jungle-of the almost uncivilized natives who reside within the borders of the Zone, but who are quite unknown outside of their own little world because of the

difficulty in reaching them. Such pictures are rare and are to be found only in this volume. Beautiful large colored plates abound throughout the book. These are reproduced in splendid full pages from water color studies made by E. J. Read, the well-known artist, who spent months in the study of Canal scenes. No book of similar character contains such a wealth of magnificent color.

SCHMIDT BREAKS OUT WITH CLASSY BIT OF ACTING

NEW YORK, Oct. 3 .- With an outbreak of violence, which, if he is only shamming insanity, was a truly marvellous piece of acting, Hans Schmidt, confessed murderer of Anna Aumuller nearly caused a panic today among the spectators at the inquest over the fragments of his victim's body.

A pitiable object, with a week's growth of beard, dirty, wrinkled clothing, staring eyes and strained expression, Schmidt was sitting huddled in his chair when Coroner Feinberg announced that Anna Amuller's mangled corpse would be buried in the potters field unless someone furnished funds to lay it in consecrated ground.

At his words Schmidt leaped to his feet with startling suddenness. His eyes protruded and he shook from head to foot, apparently with rage.

Of course, I might claim as a partial justification of my "peculiar mania" that never before had such an unprejudiced authority asserted that ministers were immune to criticism.
