CITY OFFICIAL NEWSPAPER

BAR MONEY WOULD Conservative estimates that have been made by BE SPENT IN STORES reliable investigators give the annual cost of the saloons to Oregon City at \$100,000. Estimates that have been made after careful study of the local situation place even a higher cost on the saloons at \$150,000.

This vast amount of money that annually comes out of the pockets of th men who drink is spent over the bars of the 10 saloons that are now licensed by the city council. A great deal of this goes to the Portland liquor houses and does no good to the people of the city. Part of it, \$10,000 a year, is turned into the funds of the city in the form of a license tax. Part of it, too, is paid for the employes around the saloons and for the light, heat, room rent and other local attendant expenses of a bar.

But by far the greatest portion of the amount pours into the coffers of the liquor houses of the metropolis and never finds its way again into the markets and trade of the community. It is money that is spent and gone. It cannot even be said that it circulates again the community. It cannot be dustries to the competition of the world. claimed that this vast amount of annual tax is spent over the bar only to find its way again into the legitimate channels of trade and to be again picked up by the purchaser of the drink in the ordinary course of business.

Most of the money now spent in the Oregon City saloons is lost. It is a tax that this city pays yearly to Portland. It is a fund that is shipped out of here by the thousands of dollars to the Portland liquor dealers and that is gone forever as far as the business and trade of this city are concerned. Better were it that the men who spend that money should throw it in the street for it might yet be of service to the community and might finally find its way through the channels of business back into the marts of trade.

Were the saloons of this city closed by a prohibition election of the city and were the official ban placed upon the selling of liquors of all sorts, this vast tax would be spent in legitimate channels and would find its way into the stores and shops where the merchants are doing a proper and necessary business. These merchants gain nothing from the saloons. The paltry amounts that the few employes of the bars spend with them is nothing in comparison to the vast amount that is soaked away in the Portland bank vaults to

the credits of the liquor houses of the metropolis. The abolition of the saloon would bring this money into its proper chan-

Deadly Firebug Menace Must

By JOSEPH JOHNSON, Fire Commissioner of New York

Be Held In Check by

Stern Measures

TIGHT after night have I been called out to fires where the clear white flames bursting from many or all windows indicated the use of alcohol. Even the newly recruited fireman would exclaim, "A touch off!"

THE PROFESSIONAL FIREBUG IS A DEADLY MENACE TO THE COMMUNITY, A CUNNING AND CONSCIENCELESS CRIMINAL WHO WORKS

IN SECRET AND IS WHOLLY RECKLESS OF THE LIVES HE MAY ENDANGER, WHOSE ONE THOUGHT IS FINANCIAL GAIN FOR HIM-SELF. REGARDLESS OF WHAT THE CONSEQUENCES MAY BE FOR OTHERS AND WHO ONLY TOO OFTEN FINDS SAFETY WITHIN THE

To those of us to whom the suffering and horror which too often follow in the wake of fire are thoroughly familiar the FIREBUG IS BE-YOND THE PALE OF CONSIDERATION. The burglar or highwayman at least runs chances of himself receiving deadly injury, but the firebug may be quietly and in PERSONAL COMFORT building up an alibi while his victims are being roasted to death.

We firemen do not presume to point out to those in authority what the remedy for this state of affairs should be, but we most urgently recommend that others whose business it is should not only continue their present activities, but extend them and keep on extending them until the accursed CRIME OF ARSON IS SUPPRESSED.

I am of the opinion that careful studies along the lines of revision of the law, SEVERER PENALTIES, continued activity and vigilance on the part of public officials and a full and complete co-operation with them by the insurance companies, as well as self protection by the owners of buildings by discrimination in the selection of tenants, would tend largely toward the stamping out of the crime of arson or toward its control.

THERE IS NO MEANER OR MORE DESPICABLE CRIMINAL ON EARTH THAN HE WHO DELIBERATELY PLANS WHAT MAY BE-COME A HORRIBLE HOLOCAUST FOR THE SAKE OF PERSONAL GAIN.

nels. It would stem the current of illegitimate tax that is now pouring con tinually toward Portland. It would turn that current into the business houses of the city, would increase the volumn of business annually transacted by the local concerns, and would widen and deepen the channels of trade that are here established.

Better yet, it, would increase and fatten the bank deposits of the city. Families now in straightened circumstances because of the tendency of the husband or brother to spend the money over the bar for drink would awake to find that they had a bank account. The annual deposits of the local banking institutions would increase. The business of the city would grow. The marts of trade would become brisk. The city would in general prosper as has every other city where the plan has been generally tried.

Most men who drink do so from habit unless they have followed the path for such a time that the habit has gained its upper hand and the liquor has become necessary to them. Even these would halt to make such an admission. Few of them point to any good thing that the saloon has done or even can do for the city. It means nothing to the community, brings nothing into the community. Worse than that, it annually takes from that community thousands of dollars that pour into the coffers of liquor men in Portland.

If this current of silver dollars were stemmed, if it were diverted into the rightful marts of trade, if it were used to build up and to improve the community, the money would become of some use to the city and the people who PIGS FOR SALE-3 months old, \$5.00 live here and transact their business here.

Now it weakens the bank acount. It lightens the pocketbooks. It FOR SALE-Good team of horses and empties the larder of the family and prevents the household from meeting the ever increasing grocery bill.

It is interesting to contemplate what this city could do with the extra money that would thus be saved to it yearly. The tax now paid to Portland FOR SALE—Gasoline wood saw; is greater than the city would ever have paid for its rental of the water of Bull Run. It would furnish the city with the new water supply for years to come. It would build a pipe line clear to the mountain sources of the south fork of the Clackamas. It would construct nearly 20 miles of the best hard surface road every year. It would mean that in 45 years all of the main trunk roads of the county would be hard surfaced and highways constructed that would be of lasting benefit to the county for generations.
