CITY OFFICIAL NEWSPAPER

DO WOMEN SCORN After a forty-year struggle to carry Oregon for THEIR VICTORY? women's suffrage, the hard-won privilege is apparently scorned by nine of every ten of the state's female voters.

November 4 will be the first date on which women may vote in Oregon upon state measures. Scarcely ten per cent of them have registered. Un less the remaining ninety percent do so this week, their newly acquired franchise will be lost so far as this election is concerned.

October 20 has been healded widely as "the last day to register." It isn't, however. October 20 will be too late, October 19, even, will be too late, for that day is Sunday. The registration books will be closed at five o'clock on Saturday of this week, October 18.

If the woman voter lives in a county seat, she should register at the office of the county clerk; if at a distance from the county seat, there probably is a deputized registration clerk in the vicinity.

During the next few days a rush of women to the registration clerks is in prospect. Hundreds of them will be wives of laboring men who want the compensation act to stand because it will provide a certain income for them it husbands are killed or hurt in industry. Hundreds of others are expected to register to stop the cry that Oregon women do not want the franchise. Others want to take a stand upon the sterilization bill. More numerous than any will be those who wish to vote upon the university issue,

Without registration prior to five o'clock next Saturday, however, no vote upon any measure from any motive will be possible for women without the tedious process of being sworn in.

COUNTY LIBRARY When the Associated Societies of Something-or-TAX LEVY Other offered a \$10.00 prize for the best essay on the life of relebrated alderman of Hackensack, to be written by a school child in Clack amas county, little Susie, who lives in Oregon City, read about it and so did little Johnnie out near Molalla. Then Susie telephoned to the Oregon City library and asked the librarian for reference books which would give her all the data, and by the next day her essay well started. Little Johnnie borrowed a neighbor's dictionary and hunted up the almanac, and from one learned how to pronounce the alderman's name and from the other when and where he was born. For the remainder of his essay Johnnie had to depend on some things the teacher told him winter before last. Little Johnnie worked heap harder and showed more talent and thought, but Susie had all the dates and events, and her essay won the prize.

When the bill for a county library comes up at the November election, everybody who believes in giving little Johnnie a square deal is going to vote for that 3-10 of a mill tax which will bring reference books and all other kinds of good books within the reach of every ambitious child in Clackamas county. This will not average more than 45 cents a year to a taxpayer.

The idea is to divide the county into districts which will be most convenient, and place in each locality say, 500 volumes in charge of some organization-the different women's clubs or school societies. This can be successfully worked out, as in every community where are a number of public spirited people who will be glad to give a little of their time to such a worthy

Those desiring books, who are not within convenient reach of a branch in a straight line forward, and that library, can take books from the main library, returning them by parcels post and writing or telephoning for the new book they may wish. With rural delivery the exchange of books is a simple matter in even the most solated parts of the county.

Or, if special information is needed, any patron can telephone to the main library and can hold the line while it is being looked up, or write for the references they require.

All the large corporations of the county consider that whatever helps the individual, helps the county, and they are willing to spend 3-10 of a mill tax to bring expensive reference books, as well as other interesting reading

Make Our Country Life Interesting

By A. P. SANDLES, Secretary of Agriculture of Ohio

THE CULTIVATING OF WOMAN IS A BIGGER JOB TODAY THAN THE MAKING OF POOR GROUND YIELD. WE CAN'T KEEP THE BOYS ON THE FARM UNLESS WE KEEP THE GIRLS THERE.

Modern education must not take away the cornerstone of motherhood. The present price of women's hearts and poor cooking are leading more men astray than all the saloons. GOOD COOKING, GOOD BAKING, SEWING AND THE OTHER ARTS OF OUR MOTHERS ARE NECESSARY TO MAKE THE HOME A DECENT PLACE IN WHICH TO LIVE.

Statistics show that three-fourths of the convicts in the Ohio penitentiary are men who WENT FROM THE COUNTRY TO THE CITY. In the girls' reformatory there are ten girls who came from the country to one who was reared in the city. The proportion in the boys' reformatory is twelve to one.

MORNING ENTERPRISE and the advantages that education bring. If there is any doubt in any doubt in mind about the way he should vote, won't he please go out near Molalla and ask little Johnnie?

> FACTS AND FIGURES Are you interested in pure water for Oregon ON WATER SUPPLIES City? If so, the following facts and figures will give food for thought.

> Bull Run supply-guaranteed 1,500,000 gallons every 24 hours for 10 years-according to crews' reports would cost \$38,000.00 per year rental alone, plus interest and depreciation on pipe line in addition to the cost of delivery, and interest on the present indebtedness, making the cost per month to the consumer somewhere about \$7.60 as against \$1.25 per month at pres-

or example:	* 4
Rental per year	\$38,000.00
5 percent interest on pipe line, \$300,000	
10 per cent depreciation, as contract is only of 10)
years standing	
Interest on present indebtedness, \$84,000, at 5 per	
cent per annum	4,200.00
Operation expense, estimated	4,000.00
Total per year	\$91,200.00
Average per month	
1000 water takers average per month	

Now, to show the difference for the supply from south fork of the Clackamas, compare the above with the following:

Cost, say \$150,000.00-1,500,000 gallons, permanent	supply-
Interest per annum at 5 per cent\$	7,500.00
40-year bonds sinking fund at 2 1-2	3,750.00
Operation, estimated	
Interest on old_debt	
Total\$	19,450.00
1000 water takers average\$	1,945.00

But in this latter case Oregon City can sell the difference between its requirements, 1,500,000 gallons and the capacity of an 18-inch, pipe, 2,500,000 gallons or 1,000,000 gallons per 24 hours, thus reducing the cost to the consumer, present debt included, to about the present average cost to

> "Economy is ne ar to the keystone of character and success. A boy that is taught to save his money will rarely be a bad man or a failure; the man who saves rise in his trade or profession steadily; this is inevitable." - G ladstone.

Heart to Heart Talks

By CHARLES N. LURIE

THEY WANT TO BE BRAKES.

Every one who knows anything about the world knows that it moves in an alliptical orbit around the sun. The eath of the world has been calculated with nice exactitude by the astrono mers. Of course way, way back in the mental woods there are folks who are so far behind that they still think the sun revolves around the earth. But they do not count.

Neither do those who think that the world moves, but that its progress is they can retard it by getting in the

If you are one of these, step aside. lest the world run over you.

Of such is the man in a southern state who would not pay his share of the increased taxes demanded by his county for a new schoolhouse. He went in the night and applied the torch to the building.

Foolish man! The school will be rebuilt, despite his opposition, and the children of his county will have the benefit of newer and better quarters in which to study.

Once there was a governor of Virginia in the old colonial days who said. referring to the colony:

"Thank God, there are no free schools nor printing presses, and I hope there will be none for a hundred years, for learning has brought disobedience and heresy and sects into the world, and printing has divulged these and other libels.'

He was a rare old fossil, wasn't he? The world moved on and past him. even in his own day, for the planters of Virginia resented his bigoted. narrow minded views and had the king recall him. Even in that day, when the light of learning had not shed its rays very far, he was too far but in the darkness for his fellow Virginians.

It is encouraging to observe that his atter day follower, the southern man a very small minority in his own com- freckled. -Boston Transcript.

munity, and prompt jailing followed

The opponents of "book learning." once common, are now scarce. Even those who themselves have derived little or no benefit from the teachings of the ages, crystallized in books, admit that for others the written word has merits.

But there are other directions in which the mind of the nonprogressive man moves. He will not see or admit the merit of new trends of thought. he will not move his lumbering mental wagon from the ruts in the road.

And the automobile of progress pass es him and leaves him hopelessly in the

ROADS IN WISCONSIN.

State Highway Appropriation Is Larger Than Ever.

The growth of the good roads prop aganda is well illustrated by the amount of money provided by the state of Wisconsin.

For 1914 that amount is \$1,200,000. whereas for the present year it is only \$\$16,534, and for 1912 it was \$453,417. These moneys are distributed among the counties in proportion to their needs. Milwankee getting the largest share, \$231 720

The Suffragist's Dilemma, I shall not vote for Mrs. Briggs. I do not like her gown. And I remember well the digs I got from Clara Brown. Jemima Patterson Magee Shall get no vote of mine. A horrid, stuck up thing is she And also I decline To vote for Anastasia Bunce I fairly boil with rage When I recall that more than once

Because she isn't stylish, and

She wears a last year's hat.

Oh, goodness me! That brings me through The list. This ballot's small. There's no one left. What shall I do? I cannot vote at all!

Young Lady (looking at rooms)-The sun doesn't come in here at all. Landlady-No: that is why I charge so much for this room. You can sit by who burned the schoolhouse, is one of the window without danger of getting

INCOME PROPERTY FOR FARM

We have the following property to exchange for farm property of equal value.

4 good houses and more than 8 lots of 50x100 each, 3 acres adjoining this that can be cut into lots. These houses are all occupied, and will bring a rental of \$35.00 per month. They are well situated, having a sightly outlook, located on a car line close to a fine school, and their water supply is from a large spring that is absolutely pure. Come and look at our property, you will find it a snap.

DILLMAN & HOWLAND

WOMEN ON THE POLICE FORCE They Fill a Long Felt Want, Says Los

Angeles "Lady Cop." The arrival of the woman police officer is a striking commentary upon the changed conditions of our day, says Mrs. Alice S. Wells, a member of the Los Angeles police force.

named two generally inclusive reasons for the woman police officer center our

First.-The police department is the great peace army. Its province is to sump, thus accounting for the alarming keep the peace and to prevent crime through maintaining law and order. During the last twenty-five years an active spirit of prevention has manifested itself in every line of human activity, a spirit based, no doubt, upon the deepest promptings-the quickening sense of brotherhood, of mutual responsibility, and the very self preservation of the race under our increasing

Photo by American Press Association. CHICAGO POLICEWOMAN IN UNIFORM. social complications. The woman officer is an emphasis upon the prevention spirit of police work,

Second.-Today men, women and children face together industrial vicissitudes and socially commingle. Therefore it now requires the best that both men and women can give, in the police department as elsewhere, to adequately meet the needs and properly handle men, women and children. So, then, the woman's work concerns itself mostly with women and children.

Coming naturally under the domain of the woman officer are the places of amusement where the young gatherdance halls, skating rinks, picture shows, penny arcades, amusement, parks, etc. Whenever it is necessary to make an arrest the woman officer can make it and carry the case through the court just as her brother officer would. The proprietors are property owners, have interests at stake, and there would be no gain by resisting or refusing to appear upon summons.

> CHANGE. Today is not yesterday. We

ourselves change. How can our works and thoughts, if they are to be always the fittest, continue always the same? Change indeed is painful, yet ever needful, and, if memory has its force and worth, so also has hope.

WHEN THE EARTH QUAKES.

Stresses and Strains to Which Our

Globe Is Subjected. When the stairs creak and the furniture gives sout mysterious crackling sounds at night we sometimes sit up in bed and wonder if there is a burglar Out of the many which might be about, but it doesn't occur to us that what we hear is really an earthquake on a small scale. The night air has caused the wood to contract with a sounds. This is just exactly what the earth is deing periodically. To a microbe, reposing on the polished surface of the table, this disturbance is probably as violent as an earthquake

is to a human being. An earthquake is a terrible thing. It | HELP WANTED—FEMALE comes without warning. It is over be fore one knows which way to fly, and its fury can be abated by no man.

WANTED-German girl for general housework. Apply 610 Seventh St. Yet to the geologist earthquakes are only symptoms. They are not causes so much as results-results of great stresses and strains within the earth that cause slippings and slidings from time to time. If the rocks on the shell of the earth slip and grate against each other so much as an inch along a fissure ten miles in length a shiver is felt. A slip of fifteen feet along a course of 200 miles sufficed to bring about the terrible San Francisco earthquake and fire.

These strains and stresses accumulate steadily within the earth. The point at which they have once found relief is weaker to resist the next strain. It slips again presently. By successive movements its sides become more and more displaced. Rock layers, mineral veins, coal seams that cross the line of displacement, are jogged out of their course. So are roads, fence lines and brooks that run across it on the surface. In the San Francisco quake one man's front yard was moved twenty feet to one side of his house, and in another place the slip line came so close to a man's barn that some piles of straw, thrown out from the windows, were carried away. In Japan a cliff twelve feet high interrupted a roadway, and thousands of similar cases might be cited These were primary movements along the line of the disturbance that caused the earthquakes. -Brooklyn Eagle.
