

# Morning Enterprise

WEEKLY ENTERPRISE ESTABLISHED 1866.

THE WEATHER  
OREGON CITY—Fair; north westerly winds.  
Washington—Fair; westerly winds.  
Idaho—Fair.

The road to market is the road to fortune—if the traveling isn't good, it's high time you are becoming a good roads booster.

VOL. VI.—No. 95.

OREGON CITY, OREGON, WEDNESDAY, OCTOBER 22, 1913.

PER WEEK, TEN CENTS.

## CROSS AND CITY HAVE A SET-TO

ATTORNEY FILES COMPLAINT AGAINST MAYOR OF CITY OF GLADSTONE

## COUNCIL BELIEVES HE HAS HAD TIME ENOUGH TO REMOVE DIRT

Former Action Was Dropped On The Promise That Work Would Be Done, But It Has Not Yet Been Started

Criminal complaint has been filed in the municipal court against Harvey E. Cross, mayor of Gladstone, and a property-holder in the city, charging him with the violation of a city ordinance in allowing dirt to fall all over a city sidewalk running past his holdings.

Sometime ago, the city brought the same complaint in the same court but the matter was postponed upon the promise that the defendant would clean up the walk when better weather came, it is said. The weather has come and gone and the dirt still remains on the walk, according to the charges. City Attorney William Stone brought the action Tuesday in the municipal court and made the charges against the Gladstone mayor.

The property involved lies on Monroe street between Twelfth and Thirteenth streets. It is said that a retaining wall that was built for the property has fallen and that several tons of earth has calmly settled on the walk, blocking traffic and bothering the community in general. The penalty under the ordinance upon conviction is \$50 and 25 days in jail, it is said.

## BITHIANS GIVE LINEN SHOWER

MISS NETTIE KRUSE HAS CLASS AT HER HOME TO SURPRISE BRIDE-ELECT

## KNIGHTS AND LADIES HAVE FUN

Good Time is Feature After Regular Work of Session is Over For the Week—Special Program Arranged

(By Meta Finley Thayer)  
Miss Nettie Kruse was hostess of the Bithians at her home Monday evening, when a linen shower was given, complimenting Miss Mabel Morse, a popular bride-elect. The home was prettily decorated with roses and autumn leaves. The gifts for Miss Morse were beautiful, and principally the needlework of the club members.

Those present were: Miss Mabel Morse, Miss Elva Blanchard, Miss Anna Meyers, Miss Mabel Meyers, Miss Mollie Rose, Miss Alice Bailey, Miss Belle Gray, Miss Sayde Ford, Miss Geneva Young, Miss Maudie Booker, Miss Malva Bolle, Miss Cleo Hughes, Miss Alvah White, Miss Mina McDonald, Miss Adah Hulbert, Miss Ivy Ford, Miss Myrtle Cross, Miss Nellie Swafford, Mr. Frace Cox, Mrs. Johnson.

Following their regular meeting Monday night the Knights and Ladies of Security spent a delightful social evening. A program was given. Instrumental selection—Mrs. Thomas Duet—Mrs. Greenand, Mrs. Cooper instrumental solo—Miss Woodfin Recitation—Little Helen Woodward Quartette, Mr. O. Woodward, Mr. Alldredge, Mr. Kennedy, Mr. Woodward. Following the program those present enjoyed a game of Proverbs, Mr. M. P. Chapman and Mr. Crowley refreshing the prizes. Dancing and refreshments concluded the evening.

It is the intention of this lodge to hold these social meetings after the first and third regular meetings each month.

## First Water Let In Culebra Cut Marks Last Important Step In Construction of Panama Canal.

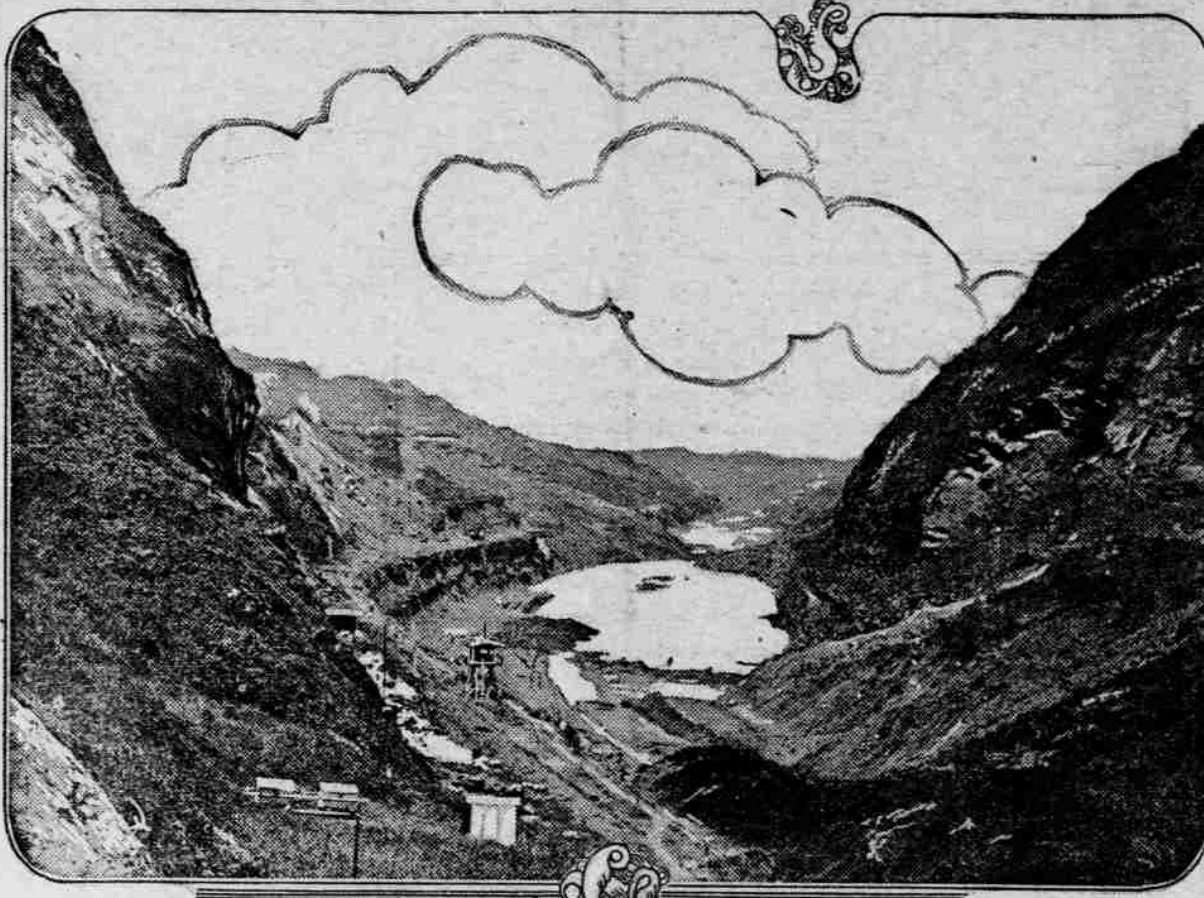

Photo by American Press Association.  
Culebra cut is the center of interest just now in the Panama canal. The flooding of this great and important link in the big ditch beginning Oct. 10, with the water from Gatun lake marks the last step in the construction of the canal. After the cut is fully flooded giant dredges will start to work clearing out the channel. Colonel Goethals estimates that the rock and earth from the slides will be more quickly removed when the water is in than by steam shovels. This is the first picture of a part of the cut showing how the water was gradually let in by pipes from Gatun lake under the dike before the dike was dynamited. This first water was thus let in to act as a cushion against the force of the water after the dike was blown up.

## CHAUTAQUA IS FULL OF PLANS

IS NOW READY FOR SEASON'S WORK ON MUCH BIGGER SCALE THAN BEFORE

## ATTRACTIONS ARE MORE NUMEROUS

Managers Get Together at Albany and Talk Over New Ways of Interesting Public—Free From Debt

The Gladstone Chautauqua will extend from July 8 to 19, according to the plans adopted at a conference of three Oregon Chautauqua association managers held at Albany the fore part of the week. The local chautauqua was represented by H. E. Cross.

The following attractions were engaged for the Gladstone Chautauqua:

Ferguson's Dixie Jubilee Concert company, seven persons, four performances; Castle Square Entertainers, four persons, four performances; Lee Emerson Bassett dramatic recitals; Chicago steel club, four persons, four performances; Ash Davis, cartoonist, lecturer and story teller; Alexander M. Lochwitzky, L. L. D. Russian reformer and political exile.

The purpose of the meeting was to arrange for better attractions and to exchange ideas for more successful work in the future. An attempt will be made to hold bigger and better chautauquas in the western part of the state in the coming year and this conference was devoted to this end.

The local chautauqua is now out of debt and is free to expand and grow more powerful and influential. It is thought that by careful but progressive work on the part of those in charge that this coming year can be made into the greatest in the life of the organization.

## COUNCIL WILL START CLEAN-UP

GARBAGE ORDINANCE SOON TO BE PRESENTED FOR THE FIRST READING

## HOURS AT HAWLEY MILL BOBBS UP

Live Wires Talk Many Subjects of Civic Betterment, But Will Postpone Action On the Labor Question

The garbage ordinance will be introduced at the next session of the city council. The question of the proper disposition of the city's garbage was brought out at the meetings of the Live Wires in the commercial club rooms Tuesday when Joseph E. Hedges asked as to the status quo of the ordinance that had been under consideration by the council members.

L. Adams reported that the Hawley mills were running on a 16-hour basis as they are allowed to do under the new law passed by the last session of the legislature, while those of the Willamette Pulp & Paper company and the Crown-Columbia company have been placed on an eight-hour shift. He believed that the organization should take some steps to persuade the Hawley company to place their mills on the same basis. The question was laid over until another meeting of the organization.

The menu for the delicious spread was as follows:

- Branch Celery
- Olives
- Breaded Veal Cutlets
- Hashed Brown Potatoes
- Braised Sweet Potatoes
- Mayonnaise
- Lettuce
- Bread and Butter
- Pumpkin Pie
- Under Whipped Cream
- Coffee

## WHO BUTTED INTO WATER PROBLEM?

The water committees of the city are at a loss to know who is responsible for the appeal that has been made to the department of the interior against the Portland Railway, Light & Power company over the reserve at the south fork of the Clackamas.

The company has all of the time expressed the best feeling toward the ambition of the city to gain its own water source and has even taken the question under advisement as to whether or not it would turn over its right to 2,000,000 gallons of water daily from the reserve for power purposes to the city. The committees have wired to the interior department asking for the name of the person who has protested against the alleged refusal of the company to donate this water and "shutting off the intake" that the city has not yet gained but which it has simply proposed.

The report states that the Oregon senators are interested in the matter and the committees will get what information it can from both of the men now representing this state in the upper halls of congress.

## THEY SAW THEIR WAY OUT; SO THEY SAWED

ALBANY, Ore., Oct. 21.—Sawing through five bars in a window on the west side of the county jail some time last night, two prisoners are at large today. They were left in the corridor of the jail through an oversight. They are Charles B. Smith and William Adams.

Smith was being held in default of bonds of \$2000 each in two cases, charging him with securing credit on the strength of a bank book, showing an alleged deposit but failing to have the money to meet the obligations.

No, the Filipinos are not fit for self-government, probably, but are we?

One of the prize babies lives in a city apartment house. There now!

The Portland team either played fine ball, or else the other fellows didn't.

provides the best ration for the worker; clean, fine flavored bread that keeps fresh and sweet long after slicing.  
Always Fresh At  
**HARRIS' Grocery**

## CARRIERS LEARN NEW THINGS EVERY DAY

Few of the boys in the Enterprise Carriers' Live Wire Contest are fully aware that most of the good they derive is from the experience they receive in their house to house canvass. In going from home to home they meet all sorts of people and it is the personal contact with men and women of every class that does the boy the most good.

The shotgun will last for years and the same will apply to the fishing outfit and the knife, but the good they derive from the intimate contact with the public will never wear out.

The standing of the contestants is:  
Number 4, Edward Dungey ..... 4650  
Number 3, Clarence Cannon ..... 1050  
Number 1, Arthur McDonald ..... 650  
Number 2, Gayle McDowell ..... 500

## Justice Holds Court on Fence Rail at Accident Scene

Court adjourned to a fence rail in the vicinity of the accident the cars of Dr. Hugh Mount and F. L. Delschneider of Portland, Tuesday, when Justice John N. Selvers began the trial of the case. Delschneider was charged with refusing to give one-half of the county highway and was found guilty before the court and a fine of \$25 and costs assessed.

After the court had examined the ground where the accident happened on Sunday and had taken the evidence of both sides on the spot where the trouble occurred, he decided that the defendant was guilty and returned to the court room to fine the Portland man for a violation of the state laws.

At the same time, Dr. Mount filed a suit for \$100 damages in the circuit court against Delschneider for the injury that the doctor's car is said to have suffered as the result of the accident.

## ADAMS REFUSES TO ENTER MAYOR RACE

L. Adams who has been urged to run for mayor by a great many of his friends, has declined, as on account of his large business he could not give the office the necessary time.

Mr. Adams feels that Mayor Jones is entitled to a second term, especially as he has given representatives of "The committee of 100" the assurance that he will see that the law is enforced if the city goes dry.

**PORTLAND DROPS**

Oakland	87 117 426

## GIRLS IN WHITE TO USHER AT BENEFIT

The details of the benefit to be given Friday for Mrs. Anna Svard and her two children are being arranged so that when the night of the show comes every preparation will have been made and a smooth and finished performance can be given.

An orchestra will furnish music for the occasion while a special quartet will be organized and will sing between the acts. The management is attempting to arrange for a speaker who will introduce the show and tell the good cause for which it is to be given.

The benefit is under the control of the Royal Order of Moose and it is making the arrangements. Girls dressed in white, the Moos's color, will act as ushers while others will sell home-made candy.

Tickets are on sale in all the candy and cigar stores in the city.

## GLAD TO SEE COLONEL IN SOUTH AMERICA

RIO JANEIRO, Oct. 21.—Colonel Roosevelt and his party were warmly greeted on their arrival here today.

A representative of President Fonseca, all the members of his cabinet, the leaders in the senate and chamber of deputies, many city, police and judicial officials and the Argentine minister with his entire staff were at the waterfront to welcome the visitors. After the landing a reception was held in their honor at the arsenal.

Economy and material progress seem to be ever at war.

The world tolerates an exceptional fool only a little while; then he would better hide.

## RESOURCES OF STATE STUDIED

GOVERNMENT PLANS TO TELL PEOPLE JUST WHAT'S HERE; HOW TO GET IT

## SURVEY GETS MANY INQUIRIES

Locations of Oil Wells, Gold and Silver Deposits, Timber and Stone Lands Are All to be Told By Maps

Questions of material development—of the value and best use of land or of the utilization of the country's latent resources—occupy a prominent place in the public thought these days. Among such questions are those relating to the location or development of gold and silver deposits, or oil wells, or artesian water supplies; to the value of coal lands; to the possibilities of developing the water power on rivers; to the use of land for dry farming; and to the proper location of transmission lines or interurban railways.

On all these questions and others relating to the earth's surface, its rocks and minerals and ores, to water and its best use, the United States Geological survey is the court of last resort. In answering these inquiries the survey distributes over a million reports and maps each year and announces:

(Continued on Page 3.)

## FIGURES ARE GIVEN ON REGISTRATION

Although it is probable that there are not more than 1,800 voters in this city, there are 2,475 names upon the registration books in the office of county clerk Muivey. This is due to the fact that many who signed the rolls last year registered again this year so as to be sure that they would be entitled to the ballot at the referendum election.

The 1913 registration list is composed of about two and a half times as many women as men, due to the fact that most of the men registered last year while the franchise has been extended to the women this year. If the forthcoming election brings out as large a proportion of the total registration as in former years, there will be about 1,300 citizens who will cast a ballot and of these about 400 will be women.

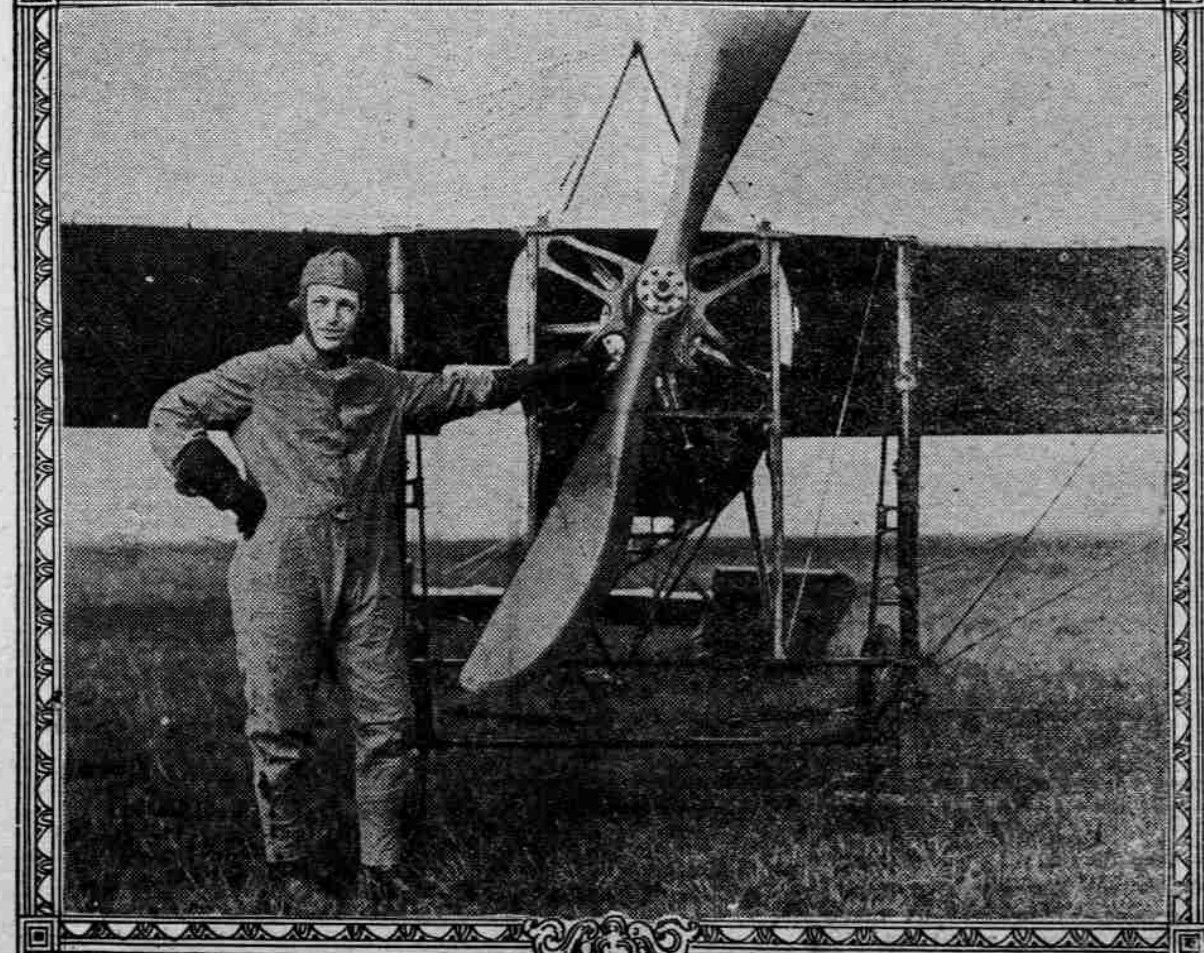

The county registration lists show new names as follows:

Republican	3555
Democrat	1488
Prohibition	244
Independent	209
Socialist	193
Progressive	116
Refused	53
Total	5864

CHICAGO, Oct. 21.—A blizzard was raging throughout most of Illinois and five neighboring states at daybreak today. Reports from points in Michigan, Indiana, Wisconsin, Minnesota and Iowa showed that all were storm swept.

In fact, the cold wave covered the entire central west, from the lakes to the gulf, though to the southward it was less severe.

## YOUNG AMERICAN AVIATOR LOST IN CLOUDS

The above is a photograph of Albert J. Jewell, the young American aviator who disappeared in the clouds during the flight of a number of aviators about Manhattan Island, commemorating the date of Wilber Wright's first flight ten years ago. At one time Jewell had attained such a great altitude that a man who was looking at him through powerful field glasses could scarcely see his aeroplane. This was the last seen of his powerful machine, and it is commonly believed that he was blown out to sea.

The remainder of the aviators who participated in the 60-mile trip, flew high above New York City and the winner who attained a speed of more than a mile a minute, could not leave his aeroplane after it had landed. It was necessary for the bystanders to help him from his seat as he was almost frozen stiff.

## SCOTTISH CLANS TO GATHER FOR SOCIAL

The Bobby Burns society will meet in William McLarty's office in the Andressen building Monday evening for the purpose of making plans for their coming Halloween social. A program will be given at this meeting.

The program will be short and interesting according to the plans of those in charge. Mr. Forbes the manual training instructor of the Oregon City high school, will take an important place on the program.

The ladies of the society will hold a meeting next Wednesday to make further plans concerning the social. This gathering will be held at the home of Mrs. William McLarty on the corner of Fourteenth and Washington streets.

It becomes increasingly certain that the appointment of Lane as secretary of the interior was a good one.

Yet Colonel Roosevelt has not ventured to declare what he would do with regard to Mexico if he were president.

Is John Mitchell the only worthy "labor leader," that he only should always be honored and honorably mentioned?

## PURE WATER HUNT IS BEING RUSHED

By-laws and constitutional provisions were adopted by the members of the Pure Mountain Water League in the rooms of the commercial club Tuesday night. Engineer H. A. Rands reported progress on the survey that had been made and said that the party had projected the survey from the point of intake to the top of the hill this side of Viola.

The following officers were elected and committees appointed: Dr. L. A. Morris, president; B. T. McEaln, vice-president; Ernest P. Rands, secretary; M. D. Latourette, treasurer; W. A. Dinick, press agent; legal committee, L. Stipp, W. S. U'Ren, E. P. Rands, Don E. Meldrum, B. T. McEaln; executive committee, E. P. Rands, O. D. Eby, M. D. Latourette, Dr. L. A. Morris, B. T. McEaln, Dr. H. S. Mount and William Sheahan.

**Pennant Dope.**  
Portland lead is now 8½ games over Venice.  
But five more games are on the Portland schedule.  
Sacramento is 1½ games behind second place.  
San Francisco is now 4½ games from the first division.
