**SALTS IF KIDNEYS OR BLADDER BOTHER**

Harmless to flush Kidneys and neutralize irritating acids—Splendid for system.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

SIMPLE IN LINE, BUT SMART IN DETAIL AND TRIMMING

The latest verdict at the Beauville court of fashion was in support of diaphanous drapery for dressy gowns, much glittering gold and silver cloth and skirts narrow at the foot, with an artful slash. In view of these facts the sketch on the right (7914) is suggested as one of the distinctive models with the desired smart details. The skirt is cut in three pieces, including the tunic, which is draped to give the fullness below the hip. The waist is cut from a single breadth, with the kimono shoulder, and fastens at one side. While it is so simple to make, its elegance is due to colors and kind of materials. The foundation is of taupe color gatin and the overdress of taupe chiffon, with large motifs of gold and green brocaded in a rose design. The bodice trimming and giraffe with slash are of taupe chiffon velours, and the vest is of very fine creu ulle. A heavy gold tassel-weights the sash end. Three and three-eighths yards of 36 inch material will make the blouse and tunic, and 3 yards of silk (same width) will make the underskirt. The pattern is cut in five sizes. Fifteen cents.

**GRANDMOTHER USED SAGE TEA TO DARKEN HER FADED OR GRAY HAIR**

Mixed With Sulphur It Makes Hair Soft, Beautiful. Cures Dandruff

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect. But the brewing at home is messy and out-of-date. Nowadays skilled chemists do this better than ourselves. By asking at any drug store for the ready-to-use product—called "Wyeth's Sage and Sulphur Hair Remedy"—you will get a large bottle for about 50 cents. Some druggists make their own, which is usually too sticky, so insist upon getting Wyeth's, which can be depended upon to restore natural color and beauty to the hair, and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says his customers insist on Wyeth's Sage and Sulphur, because, they say, it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. Do this at night and by morning your gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.
