

SPORT DOPE

O. A. C. IS TO HAVE FINEST GYMNASIUM

O. A. C. is to have one of the finest gymnasiums on the coast when the new building is completed some time this winter. The new building will cost close to \$100,000 when completed and will have the largest floor of any "gym" on the coast.

The building will consist of a sub-basement, a basement, a mazzanine floor, and a second floor. In the basement will be located the power and heating plants, part of the lockers, and the swimming pool and showers. This pool will be 50 by 100 feet and will range in depth from three to 12 feet and will have a spoon shaped bottom. Its width will permit two men to race at the same time, allowing each contestant a lane five feet wide. A spectator's gallery will surround the pool and will hold 500 people.

On the main floor will be the lobby or reception hall. The corridor will be lined with trophy cases to display the honors won in the past.

The main floor will be 90 by 150 feet which is large enough to accommodate 200 students. Six basketball teams can play on the floor at the same time by putting the baskets on the side of the "gym" instead of lengthwise. The running track, which will run around the room as a balcony may also be used to seat the spectators and will accommodate at least 1000 people.

Other features of the new building are the bowling alleys, squash courts, padded wrestling and boxing room, and committee rooms. The locker rooms will have 2500 lockers and will accommodate easily 5000 persons. Besides these there will be private lockers for the faculty, the varsity teams, and the visiting teams.

WEST LINN AND BARCLAY TO MEET SOON

A game has been arranged between the West Linn and Barclay schools for November 7. This will be the first game this season for the west side team and about the fourth for the Oregon City eleven. The West Linn boys average about 135 and have been working regularly for some time. They are captained by Delbe Montgomery.

WILLAMETTE NEVER WAS SLOW

Willamette school has never been very far behind the times and often they are far in the lead. For instance a report has reached Oregon City that the boys of that school have already started to play baseball and in order to make some definite record of that fact have broken several windows of the school house.

Some men are born deaf and some acquire deafness shortly after acquiring talkative wives.

Enterprise classified ads pay.

O. C. H. S. SCHEDULE IS BADLY TWISTED

The Oregon City high school football schedule for the next week or so has been so badly twisted and thrown out of joint that the manager that made would hardly recognize it.

Mass and Myers, two of the stars of the local eleven, are out of the game and as a result, the mix-up planned for next Saturday with Vancouver has been cancelled. This game would have been very close. The Oregon City boys have been working hard for some time so as to prepare themselves.

However, the date will not be wasted as Manager Beatie thinks that a game can be arranged with Canby. This would be the first football game for any Canby high school team in the history of the school. The Canby squad have been out regularly for several weeks so that the team probably has considerable team work.

The Oregon City boys will play St. Johns high school a week from this coming Saturday on the home grounds.

McLOUGHLIN AND CANEMAH TO MIX SATURDAY

McLoughlin second team will play Canemah Saturday on the field of the latter team. Neither eleven has played before so it is hard to size up the strength of the two schools. The McLoughlin squad is very light, averaging near 90 pounds.

SPORTING BREVITIES

According to dope received from the East, the chances for Princeton walking away with college football honors this year are mighty good.

Things seemed to be settled for a 20-round bout in San Francisco Thanksgiving day when Willie Ritchie will meet Harlem Tommy Murphy.

Walter Camp has taken active charge of the Yale team and already has made several changes in the line.

Johnny Kilbane, featherweight champion, will meet Eddie O'Keefe at Philadelphia in a six-round bout November 10, if reports are true.

Byron Houck, the former Washington high school pitcher who has been with the Philadelphia Athletics all season, has returned to Portland with a wife and a record of eight victories out of 13 games played.

BEAUTIFUL HAIR, A JOY FOREVER

If you have a beautiful head of hair, try to keep it. If you have not, try to get it. Meritol Hair Tonic keeps the scalp clean, promotes a healthy growth of beautiful hair, and keeps it soft and lustrous. Try it. Jones Drug Co., Exclusive Agency.—Adv.

RUINED THE PAINTING.

Curious Fate of Burne-Jones' Favorite Water Color.

A very curious history is that of Burne-Jones' favorite picture, "Love Among the Ruins." The original picture was in water color and was sent to Paris by a firm of art publishers for reproduction and in that city forwarded to their photographic studios in the suburbs. The picture unobtrusively preceded the letter of instructions regarding it warning the photographer of the medium in which it was painted, so that immediately on its arrival it was brushed over with white of egg to bring out the colors for photographing—an excellent procedure in the case of oil pictures, harmless and very efficacious.

But, as to the Burne-Jones picture, Love was very soon among his own ruins, for every swish of the brush brought off the final touches and left a mere smeared ground. Sir Edward Burne-Jones was heartbroken at the loss of a work on which his reputation, he considered, would in great measure rest and on which he had spent many months of patient toil and the very perfection of his execution in the realization of one of the most poetic conceptions that had sprung from his fanciful imagination.

"Love Among the Ruins" was painted during the years 1870-3. In October, 1893, it was destroyed, and by the following year the oil version was finished, but was scarcely a consolation to the artist for the loss of his first and more spontaneous work.

ANIMALS IN OPERA.

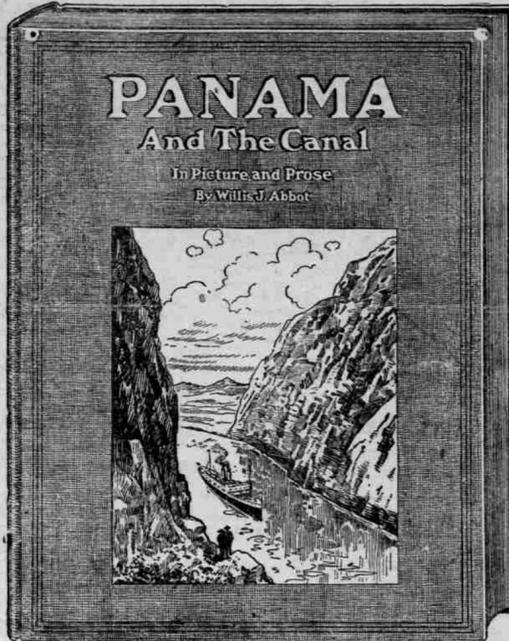

Some of Them Raised Up Their Voices With Weird Effect.

Few persons realize how many animals appear in opera. By this I do not mean such animals as the tenor who played the part of Lohengrin and was told by Von Bulow that he was the knight of the swine rather than of the swan, but real bona fide animals. They extend all the way from Monteverdi to Wagner.

including many full page plates from original water color studies in all their natural colorings.

PANAMA AND THE CANAL IN PICTURE AND PROSE EDUCATES AS WELL AS ENTERTAINS

Willis J. Abbott, the author of this book, takes you in at the front door of Panama, tells you the time when Columbus searched for a natural waterway to the Pacific Ocean, brings you up through the centuries of revolution and warfare, and on through to the realization of the greatest achievement of this day and age. He tells you of the people and the country, of the past as well as the present, and even dips into the promises for the future. The great story is inspiring—filled to the full with local color and human interest—a story that will live as long as the great canal itself.

THE TOUCH OF DRAPERY ON GROWN-UP GOWNS MARKS JUNIOR MODES AS WELL

As long as materials are so supple and clinging, their very touch suggestive of folds and drapings, draped gowns and wraps will continue modish. For the woman whose dress allowance is somewhat limited it is wise to choose a dark, soft silk for the luncheon or afternoon tea frock. It may be worn much oftener than a light shade and will be found generally more satisfactory. Moire, silk poplin, one of the soft tafetas or charmeuse are all suitable, and many of the soft drapery wool stuffs make up most attractively. A crowd-blue tafetas with a self figure was used to develop 7979. The wide girde of a lighter blue affords an effective contrast, and the gathered bands of figured tulle is practical, as it is a simple matter to replace it when soiled.

There is just a touch of drapery on each side of the skirt, and the blouse is a peasant design closing in the back. This model may be copied in size 36 with 5 1/2 yards of 36 inch tafetas and 1/2 yard of tulle.

The "dress-up" frock of the little miss has its bit of drapery, too, as may be seen in 7996. An albatross or bright silk with a touch of colored embroidery at the belt and on the cuffs could be used with this design with excellent results. For size 10 it requires 2 1/2 yards of 36 inch material.

No. 7979—sizes 34 to 42.
No. 7996—sizes 6 to 12.
Each pattern is 15 cents.

FORUM OF THE PEOPLE

CANBY, Ore., Oct. 29.—(Mr. C. H. Dye, Esq., chairman of committee of One Hundred, Oregon City, Ore.)—Dear Sir: In response to your request for statement as to the condition of Canby before and after going dry, I have to say that Canby was wet from its incorporation until the

fall election of 1908, and has been dry ever since. There was not even cement sidewalks in Canby at that time and very little wooden sidewalks and only one concrete building, the bank building. Since that time they have built a \$20,000 concrete school building, a \$10,000 concrete Methodist church, a \$15,000 concrete Odd Fellows hall, a \$12,000 concrete Masonic temple, a \$3,000 addition to the bank building, a \$30,000 concrete general merchandise building, built by Carlton Rosecrans & Company, 100x100 feet, two stories and full cement basement, one of the finest stores in Clackamas county, besides a \$5,000 opera house of wood.

The year following the dry election 26 new residences were built. Now after four years, in spite of the loss of revenue from four saloons, the town does not have \$1 of indebtedness and has more money in the treasury than it ever had in the blindest days when it was wet. In addition to building these buildings, we have several blocks of concrete sidewalk and are building over fifteen blocks more and preparing to hard surface and cluster light the main street.

The New York lockups are overcrowded and various relief measures are considered. The district attorney suggests longer hours and fewer holidays for the judges, as the man mad that he makes so revolutionary a proposal.

This prediction of a restoration of hoopskirts to fashion may not be realized. A great many such threats never come true. For instance, about a year ago they were foretelling side whiskers for men.

A New England suffragette has tamed angleworms so that they come up out of the ground and eat sauerkraut from her hand. Such a woman should have no trouble whatever with mere man.

That proposition to make baggage cars collapsible, so they may act as buffers in train collisions, will meet the hearty approval of everybody, perhaps, except the person who has a trunk in the baggage car.

The New York lockups are overcrowded and various relief measures are considered. The district attorney suggests longer hours and fewer holidays for the judges, as the man mad that he makes so revolutionary a proposal.

BREATHE FREELY! OPEN NOSTRILS AND STUFFED HEAD—END CATARRH

Instant Relief When Nose and Head Are Clogged From a Cold. Stops Nasty Catarrhal Discharges. Dull Headache Vanishes.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heats the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous droppings into the throat, and raw dryness is distressing but truly needless.

Put your faith, just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

the last sworn report showed a total assets of \$314,000.

There is not a half dozen arrests a year for drunkenness or disorderly conduct in Canby. Not a single business man interviewed was in favor of returning to the wet column.

Previous to the town's going dry a number of children were going to school with insufficient clothing and barefooted, whose fathers were spending their time and money in saloons. At the present time not a single family in Canby but is in comfortable circumstances, children well clothed and going to school in the best school building in the county.

Three years after the town went dry a blacksmith sold out his business, owning the only shop in the town, and when he closed up his accounts, he made an affidavit before me that he had never refused a man credit the three years of this dry administration and that he collected in thirty days after he sold his shop, all his account but \$7.50 and that he never had been in a community before where the people seemed to have the prosperity and the ability to pay their accounts promptly. This affidavit is now on file in my office. The blacksmith's name is N. Digerness and he is now in the general merchandise business at Silverton, Oregon.

The vets are making a talk of empty store buildings in Canby; there are two empty buildings occasioned by the Carlton Rosecrans company moving to their new and enlarged quarters, and they have occupied and paid the rent on the vacated building up to the present time, using it for storage purposes. The other store building that is vacant was a building used for selling out bankrupt stock collected here from various wet districts, but on account of the prosperous condition of the farmers and residents of Canby, they refused to buy bankrupt goods and the man had to go out of business. This building is not for a legitimate business.

In place of the two wooden vacant buildings, we have seven concrete store buildings now occupied. Of the four saloon buildings, one of them is vacant at the present time. While the town went dry by the close margin of eight votes, the next time it was voted on there was a majority of forty votes, and each succeeding election the wet force have endeavored to vote the town wet, the dry vote has increased, until the last election it was nearly two to one votes against the wet.

All this time Barlow, one and one-half miles away, has had two saloons and they have not been able to detract to any extent from Canby's prosperity. The only blacksmith shop in Barlow has moved to Canby to get business.

In closing I wish to say that I am no politician and have no axe to grind, but am stating facts just as conditions are here as will be verified by any leading business man of Canby.

Yours very truly,
M. J. LEA
