BIG ALBANY GAME TODAY BUD ANDERSON IN CITY

TWO OREGON CITY BOYS WILL BE IN BIG CONTEST

(By Thomas Burke) Predictions are that smiling skies will add interest in the big state championship football game at Albany today, when the State University will battle with the Oregon Agricultural college for the supremacy of the state. Many Oregon City people will be on hand, most of them leaving on the 9:22 train this morning. The Southern Pacific has granted a rate of 1-3 fare for the round trip from Oregon City to Albany with stop-over privileges good until Monday. Although the crowd in attendance will number almost 11,000 people, there will be available room for all, whether or not they have secured their seats in advance.

Two Oregon City boys, Wallace Caulfield and Allie Groat will participate in the game, the former playing center and the latter tackle on the university eleven. Good reports will probably be heard of both these men after the battle today. Groat is now a resident of Tillamook but formerly lived here while Caulfield is a son of Mr. and Mrs. Charles Caulfield of this city.

PROSPECTS CLOOMY

HIGH SCHOOL TEAM WILL PLAY UNDER DIFFICULTIES

Outweighed several pounds to the man and with practically nothing but their second team in the field, Oregon City High school will meet St. Johns High school on Canemah field today. On account of strict faculty regulation a majority of the first team men have been ruled out of the game, so that the eleven is almost completely disorganized. Some of the men have never been on the high school line-up before and others are entirely new to the position.

If the local team can hold the invaders down to a tie game, Coach Wagner will consider his men as doing well. The line-up will be: Haseston, C.; Moody, R. G.; Vierus, R. T.; Armstrong, R. T.; Milliken, L. G.; Miller, L. T.; Myers, L. E.; Mass, Q.; C. Beattie, R. H.; Duney, F.; Kellogg, L. T. This will be the first time that these men have played together in these positions.

SPORTING BREVITIES

George James, of San Francisco, was selected as the representative of the Pacific Athletic association at the annual meeting of the Amateur Athletic union to be held in New York on November 17.

The University of Missouri football team played its first scrimmage before the game with the Drake eleven here Saturday. Kicking, forward passing and breaking up shift combinations were emphasized in the drill.

Yale's rejuvenated football team, driven at full speed Thursday, tore through the strongest scrub team available for three touchdowns in 15 minutes of actual play. There will be no more scrimmage before the Brown game Saturday.

The University of Michigan football squad, two dozen strong, left Thursday night for Ithaca, N. Y., where the team will play Cornell Saturday. The men are in good condition with the possible exception of Lechner, who injured his leg slightly in practice yesterday.

Joseph Carney, of San Francisco, outplayed Alfred De Oro, the three-cushion billiard champion, in the second block of their match for the title by a score of 63 to 34 Thursday night.

ESTACADA.

J. V. Barr transacted business in Portland Monday.

Estacada football boys beat the Gresham lads last Saturday on the home grounds, to the tune of 93 to 0. The game next Saturday will be with Ridgeaway.

The football boys are to have a picture show at the Family theatre to raise money for their expenses.

Chas. Farzier has been home with his family this week.

Mrs. Helen Masson, sister of Mrs. George Dale, visited in Estacada two or three days this week.

Estacada's first number in the lecture course comes Saturday evening, Nov. 22.

S. E. Horner and wife, of Lawrence, Ill., arrived in Estacada Sunday and will visit at the home of the latter's father, J. V. Barr, until after Christmas.

Albert Lichthorn was quite badly injured last Thursday while playing football with some other small boys. In a general mixup for the ball, Albert was thrown down under several other boys and had his arm fractured, besides receiving some bad bruises.

Mrs. A. E. Sparks visited friends at Portland yesterday.

T. W. Shankland and wife of Portland, visited with Mrs. N. F. Shankland. Mrs. Shankland accompanied them home for a few days visit.

Milton Evans was in Portland Friday night.

Mrs. W. R. Stokes, of Portland, visited in Estacada.

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

DOUBLE RETURN FROM SIX ACRES

That a man can do almost anything in reason that he wills to do with the soil of this county was demonstrated to a finish by two cases which came before the writer in the same day. The first presented itself when a proud farmer brought into this office wonderfully fine specimens of white miln turnips, smooth and perfect, measuring 22 inches in circumference, long thick cowlhorn turnips, and immense rutabagas which he had sowed August 2 after disking a field from which he had taken a little earlier in the season, a crop of vetch and oats hay which had average 5 tons to the acre. This man has a dairy, and with two crops a year of superb cow feed, he is making his place pay well; and is also building up his soil.

In getting ready for these crops, he had manured the 6 acres from which he had manured the 6 acres from which he took 30 tons of hay, prepared the soil, harvested the crop in season, and got double returns, for this hay is the best cows hay that is raised in this section, having the highest per cent of protein of any of the hays raised, and leaves in the soil large quantities of humus from the nodules on the roots of the vetch which is one of the legumes. The soil was then in perfect condition to produce yet another crop, and that a fine one, and his cows will go through the winter in good

condition, and the returns will justify the labor and bit of head work which has gone into the enterprise.

The other story is short and sad. Situated but a short distance from the farm of the first man, is a place where conditions of soil are identical, the elevation the same, in fact a few small farms separate the two places. The latter man raised a crop of hay, indifferently good, but just didn't get around to put in the succulent root crops or kale which keep up the flow of milk during the winter, and the day the man brought in his fine specimens, the latter left his place discouraged. "Costs too much to keep the cows through the winter with nothing to feed." And there is not one extenuating reason which he can offer.

And there seems to be nothing more to be said.—Oregon City Publicity.

DOES ADVERTISING PAY?

Some people say it does not pay to advertise! And why? "Because you bring more people into the business, hence more competition," so said a good farmer recently who sells a great quantity of high class vegetables, and who finds his market in distant states. This man ships sweet corn to California and to Seattle and other sections, also asparagus and celery, and he sends rhubarb as far as Quebec, Canada, by the carload. He has no trouble in disposing of his crops for Quality is his motto, and Oregon is known as the quality state.

There should be more farmers in this shipping business, for there are communities outside this state in less favored sections of the country which would provide good markets for our products, and Oregon would soon build up a wholesale trade with other states.

Oregon can produce the finest grade of Cauliflower which is popular and always finds ready sale. Cabbage is sweeter here on account of the mild climate, and is harvested throughout the winter as it is used, and not cut and stored as is necessary in colder climates. All kinds of root crops are sure crops and like the cabbage, broccoli, winter cauliflower, etc., is gathered as it is used.

Rhubarb, marvelous to behold for size, crisp and juicy, celery and asparagus tender and delicious do exceedingly well, and are wanted by out-

side markets, and a good trade could be established if they were raised in sufficient quantities to ship in car load lots.

Try the Oregon sweet corn if you want good corn on the coast.

It pays to produce good products, and they will find ready sale, especially if grown in large quantities.—Oregon City Publicity.

SPRAYING

Spray your fruit trees this fall!

On account of the early showers which liberate the spores which cause apple scab, it will be necessary to give the fruit trees an early spraying of bordeaux mixture.

Use 6 pounds of blue stone, 6 pounds of lime and 50 gallons of water. Dissolve the blue stone in hot water, in

February spray with lime sulphur solution, and you will be sure to start in next year with clean trees.—Oregon City Publicity.

Every one agrees that the food supply is actually short, and yet every one seems to want to buy food rather than raise it to sell.

PANAMA AND THE CANAL IN PICTURE AND PROSE EDUCATES AS WELL AS ENTERTAINS

Willis J. Abbott, the author of this book, takes you in at the front door of Panama, tells you the time when Columbus searched for a natural waterway to the Pacific Ocean, brings you up through the centuries of revolution and warfare, and on through to the realization of the greatest achievement of this day and age. He tells you of the people and the country of the past as well as the present, and even dips into the promises for the future. The great story is inspiring—filled to the full with local color and human interest—a story that will live as long as the great canal itself.
