

Morning Enterprise

WEEKLY ENTERPRISE ESTABLISHED 1866.

OREGON CITY, OREGON, WEDNESDAY, NOVEMBER 12, 1913.

WILSON, HAILED BY 700 STUDENTS, CASTS BALLOT

President Wilson arriving at Princeton, N. J., to vote, was uproariously greeted by 700 Princeton students, who cheered and sang college songs. Professor Stockton Axson, the president's brother-in-law, was also at the station to meet him. The president and Professor Axson started to walk to the polling place, a fire engine house, followed by the students, who sang "Going Back to Nassau," and demanded a speech. Smilingly, the president said: "I am here to vote for a very good man for governor, but I am not going to talk politics. It is delightful to get back and renew pleasant associations. I thank you for your reception."

THE WEATHER

OREGON CITY—Cloudy, probably with rain; light variable winds.

TOOZE SPRINGS WATER REPORT

TELLS LIVE WIRES THAT HE WILL HAVE RESUME OF ALL WORK DONE

WILL RECOMMEND NOTHING TO CITY

Plans Simply to State What His Committee Has Done and Leave Rest to Council and the People

The long anticipated report of the council committee on pure water, of which F. J. Tooze is chairman, will be made tonight at a special meeting of the city council. The committee has made an exhaustive investigation into three sources of supply—the Canby wells, the Englebrecht wells and Bull Run; and will have a vast array of figures to present for the consideration of the members of the council and the people of Oregon City. The committee will make no recommendations, it being within the province only to make a report on the source of water and the probable cost of furnishing it to the Oregon City consumers. Councilman Tooze made the announcement of the fourth coming report at the weekly luncheon of the Live Wires of the commercial club Tuesday.

The Live Wires, through several of the members, called attention to the dangerous condition of some of the Southern Pacific crossings and one of the Portland Railway Light & Power Co. crossing on Seventeenth street, where signal lights or bells should be installed. Particular attention was called to the S. P. crossing near Park. City Recorder Stipp said the company would install a signal at its Seventeenth street crossing.

The following menu was served:
Country Beefsteak
Hashed Brown Potatoes
Boston Baked Beans
Hot Rolls
Stalk Celery
Bavarian Cream
Cake
Coffee

PORTLAND CLUB WILL KEEP OLD SITE

PORTLAND, Ore., Nov. 11.—The Portland Rowing club will remain in its present home at the foot of Ivon street for another year, or perhaps two. This was decided last night at the annual meeting, which was the most enthusiastic and most largely attended one in a number of years. The Rowing club now owns the \$8000 mortgage on Rock Island and has an option on a piece of ground above the Sellwood ferry. It is more than likely that the club will decide to build a club house on the Sellwood property as it is held to be a more desirable location.

GOMPERS KICKS OUT "TRAITOR" TO LABOR

SEATTLE, Wash., Nov. 11.—Exposed before the recent lobby investigation committee of congress by Colonel Martin H. Mulhall as a traitor to organized labor, Jacob Tazelaar of Orange, N. J., was denied the right to sit as a delegate and driven from the floor of the convention of the American Federation of Labor today by President Samuel Gompers. Tazelaar made a spectacular effort to secure recognition by the chair and falling, cried in a loud voice: "All right, I'll take my medicine." The committee on credentials reported in favor of seating Max Hahn of Chicago, elected to take Tazelaar's place. Tazelaar was a member of the Painters and Decorators' union, and prior to the Mulhall investigation was elected a delegate to the present convention.

MANY DIE IN LAKE STORMS; SHIP LOST

CHICAGO, Ill., Nov. 11.—That scores perished in the storm which has been sweeping the Great Lakes since early Sunday was feared here today. All on board the unidentified steamship, Capt. Robert Munton, in Lake Superior, were believed to be doomed. Livesavers failed in repeated attempts to reach the stranded craft. The vessel's decks were awash when dawn broke today and the members of the crew could be seen, lashed in the rigging. It was believed there were 25 on board. Several were thought to be dead already from exposure. It is believed the 600 foot freighter sighted yesterday floating bottom up off Port Huron is the Amos Clarke of the Livingston fleet. Livesavers said they thought the vessel carried a crew of about 40, and were convinced that all were drowned.

BERTHA WHITE DIES AT MOTHER'S HOME

Bertha White, a 11-year-old girl of this city who has been ill for some time, died Tuesday afternoon at one o'clock at the home of her mother on Water street.

The parents of the girl separated some time ago and since each has remarried. The girl has been living with her mother, Mrs. Cecil, in this city.

Yet there are few or fatalities in football than in aviation.

MOVE SITE OF NEW CITY POSTOFFICE

Instead of being next to the Weinhard building on Main street, the new postoffice will be on the corner of Main street and the alley between Eighth and Ninth streets. The house now occupied by Sheriff Ernest Mass will be torn down and the publicity building of the commercial club will be moved back to its former location. This change was made so that the new building can face on an alley. It will be necessary to open up this alley through the block. The house occupied by the sheriff will be torn down, the work starting either the latter part of this week or the first of next. By the time that this house is out of the way, the publicity building will probably have been moved.

COURIER EDITOR IS ON TRIAL

PUBLISHER FACES CHARGES MADE BY RECENT GRAND JURY INDICTMENT

CLAIMS TYPOGRAPHICAL ERROR MADE

Comment on Court's Action Comes After First Report is Published—Mistake Not Noticed by Paper

M. J. Brown, editor of the Courier, was placed on trial in the circuit court of the county Tuesday on a charge of libel, growing out of statements that he is said to have made that, in the judgment of the grand jury, reflected upon the integrity of the members of the former county court.

CREAMERIES ARE IN DEATH FIGHT

PACKERS SEEM TO PLAN TO GAIN CONTROL OF ALL OF THE BUSINESS

FORCE SMALL DEALERS TO WALL

Big Interests Use Unfair Means to Gain Holdings in Claim and Raise Price of Butterfat Beyond All Reason

That the trust is trying to corner all of the dairy industries of the northwest and is threatening to drive out the country manufacturers unless they "come through," is the report that has come from Portland where the interests are centered.

All through the Willamette Valley, the dairy industries have been approached by representatives of the trust and have been offered various prices for their holdings. It is said. Some of them have declared that they would refuse to sell unless they received a fair premium for the interest.

The designs of the trust are worked it is said, by boosting the price of butterfat beyond reason at those points where the offending creameries are located and where those operate who refuse to sell the business that they have built up. The small creameries have but limited capital at their disposal and they claim that the big packers and their associates are pushing the smaller dealers to the wall and attempting by all sorts of means to drive the country creameries out of the field.

The packing interests are said to be behind the scheme to corner all of the creamery and dairy business of the northwest and to get the business entirely in their own hands. The report is current that the creameries have been given a chance to sell and that, when they have refused, they are crowded to the wall until all of the business is taken from them and the holdings are worthless.

By such schemes as these, it is claimed, the trust expects to gain a hold upon the business of the northwest and particularly at this time through the Willamette Valley where many of these creameries and dairies are located.

Now that the voting is over for a little while, people can get ready to be duly thankful on the next holiday.

The Tammany tiger is very ill, but he is a virile beast.

ADMINISTRATION IS PLEASED AT TURN

WASHINGTON, Nov. 11.—The administration was more confident today than for some time past that President Huerta of Mexico will retire shortly.

No reason was given for this belief but it was understood that several other foreign diplomats at Mexico City have joined American Charge d'Affaires O'Shaughnessy and Embassay John Lind in exerting such pressure upon him as it was thought impossible he could not long resist.

Co-operation of the Central American governments with the United States' policy was counted on, following a conference last night between Secretary of State Bryan and the Central American ministers here.

TRUCK SERVICE TO BE OPENED

PORTLAND CONCERN PLANS LINE BETWEEN CITY AND METROPOLIS

MAKE RUN THREE TIMES DAILY

Five-ton Autos to be Used in New Freight Road and All Goods to and From City Would be Taken

A plan is being formed by several Portland automobile men to establish a regular three-times-a-day auto truck freight service between the two cities. A number of the merchants of Oregon City have been approached and the general opinion appears to be favorable.

The idea is to have the big five-ton trucks make regular rounds in Portland and pick up the freight from the various companies shipping to this city and then deliver direct to the Oregon City persons or firms receiving the goods.

This would eliminate the added expense of expressage between the shipper and the docks or freight yards in Portland and again from the cars or boats to the receiver. The same plan would work in shipping the goods from Oregon City to Portland.

Three trucks would be used, each with five tons as capacity loads, and each of these trucks would make a round trip each day.

The would not be the first time such a plan was worked out in the neighborhood of Portland. Already there is a regular express service between Portland and Linton, and between Portland and St. Johns. Both of these trips seem to be paying propositions although the rate is the same as railway and quicker service is established.

If supreme courts are right, circuit judges must know very little law. But do supreme judges know more?

opportunity to thoroughly check over every feature of the matters involved and to fairly determine whether or not that men were at fault.

Time Elapses.
Walter Dimick opened the case for the defense. He pointed out that the mistake had been committed and that 34 days had elapsed since the original publication without the attention of the editor being called to the mistake. He believed that the defendant had the right to assume, after such an interval, that his report was correct and that there had been no error committed.

SUGAR MAGNATE IS VISITING IN OREGON

W. A. Bowen, one of the sugar magnates of Honolulu is in Oregon with his wife, visiting their cousins, M. E. Thompson, of Portland, and W. W. Thompson, of Cornell. Mr. Bowen has been before the sugar investigating committee of congress, and feels that the removal of the tariff seriously threatens the prosperity of that line of industry in the islands. He is noted as a public-spirited citizen and philanthropist, giving much of his time to industrial and educational institutions for the benefit of the alien races of the island. Mr. and Mrs. C. H. Dye were invited to dine with them last evening at Covell. Mr. Bowen having been a college acquaintance thirty years ago at Oberlin college.

BROTHERHOOD TO HOLD ITS MONTHLY MEETING

The Men's Brotherhood of the First Congregational church will hold its monthly meeting and supper Tuesday evening in the parlor of the church. Attorney Westbrook and William McKenzie are the speakers. The former will speak on "The Laboring Man and the Church," from the view point of the labor organization.

Perhaps the administration at Washington will somehow unseat Huerta, but it seems to be no easy job.

WAGON FOR PUPILS IS PLAN OF BOARD

Hereafter every student attending the West Linn school and living two miles or over from that institution will be hauled to school every morning and home every evening by a wagon furnished by the school board, according to a plan adopted by that body at a meeting held in West Linn school Tuesday evening.

There has been considerable talk for some time concerning such a plan. Fourteen of the students live so far from the school building that in case of rain or stormy weather it is almost impossible for these pupils to get to school. Various schemes have been suggested that would relieve the situation, but this appeared to be the most feasible.

Another improvement was adopted by the board that will make it easier for the pupils to go to school. This is building steps up the steep hill between Bolton and the school. At present these is nothing but a steep path which, it is said, requires the combined strength of hands and legs to climb.

EASTERN STARS HAVE VISITORS

PORTLAND LODGE HELPS THE LOCAL ORGANIZATION IN INITIATION WORK

LARGE DELEGATION ARRIVES HERE

Special Train Met at Destination by Reception Committee and Escorted to Masonic Temple

One hundred and fifteen members of the Eastern Star, principally from Martha Washington Chapter, No. 14, came to Oregon City by special train last evening as the guests of Pioneer Chapter, No. 28. A number of past grand matrons and patrons attended, also Mrs. Nellie McKinley, grand secretary, and Mrs. Leah Shields, grand Ada. The visitors were welcomed by the worthy matron, Mrs. Maggie Gardner, and associate matron, Mrs. Elizabeth Matheson. Worthy Patron Clarence L. Eaton conferred the impressive ritualistic degree work upon five candidates, Mr. and Mrs. O. D. Eby, Percy Canfield, Harold A. Swafford and Raymond Canfield, in the presence of two hundred members of the order.

The reception committee, of which Mrs. John Clark was chairman, introduced the guests and provided for their entertainment.

The banquet hall was elaborately decorated and the long flower-laden tables formed a fitting background for the beautiful gowns in evidence.

During the banquet several musical selections were given, and speeches of welcome made the new members, to which they responded in a happy manner.

SANDY SOON VOTES ON ITS NEW CHARTER

Sandy will hold a special election next Friday to vote on its new charter. This new charter is merely the old one revised with a few changes added.

One of the principal provisions in the charter will give Sandy authority to issue bonds. It is thought that in case the charter carries, money will be raised at once by this means for various improvements about the city.

PIONEER DEACON WILL LEAD CHURCH SERVICE

James Wilkinson, a deacon of the First Congregational church for more than 40 years, will lead the prayer meeting Thursday night, the subject being "Lessons from the Life of Moses."

ANNOUNCEMENT

"To the Men and Young Men of Oregon City and surrounding country"

We have secured the exclusive agency for the Celebrated "Nettleton Shoes" for men. Admitted by all to be the World's Best Shoes.

"Achievement"

Nettleton Shoes for Gentlemen have a National reputation for Superiority won by 31 years of full satisfaction

"The Reason"

Involved in their construction are the most excellent material, skilled labor and a thorough understanding of the anatomy of the human foot

"What it means to you"

If you are not yet acquainted with them, they will afford you a new degree of shoe-satisfaction. Their style is in advance of other makes, and their wearing qualities will effect a saving in your foot-wear expense

We shall be glad to have you inspect the early autumn shapes, which have just arrived.
