

ENTERPRISE trol of the army and navy. MORNING

OREGON CITY, OREGON

Entered as second-class matter January 9, 1911, at the postoffice at Oregon City, under the Act of March 2, 1879.

TERMS OF SUBSCRIPTION

The Morning Enterprise carrier boys are instructed to put the papers on the porch or in the mail box. If the carrier does not do this, misses you, or neglects getting the paper to you on time, kindly phone the office. This is the only way we can determine whether or not the carriers are following instructions. Phone Main 2 or B-10.

CITY OFFICIAL NEWSPAPER.

LET US NOT SWALLOW According to an Associated Press dispatch MILITARY FAIRY TALES from Washington, "for the first time in hitsory Uncle Sam is in readiness, at a moment's notice, to arm and equip 500,000 men in the event of war."

Reading further we discover that a "plan" for doing all this has been "worked out during the last six years through the systematic and unremitting labor of Lieutenant Colonel J. T. Thompson, under the direction of Brigadier General William Crozier."

We know nothing about Colonel Thompson. On the face of the record. he must be a studious officer.' General Crozier is an ordnance specialist of international reputation. But when we read still further we are compelled to doubt the statement first quoted.

"For we read that under the "plan" the regular army "would be increased" to its maximum strength, the "entire organized militia" would be mustered in "at full war strength," and the remainder would be raised by the "enlistment of volunteers,"

All of which shows that the government is not "in readiness, at a moment's notice," to put 500,000 men into the field, but merely has what is regarded as a good "plan" for doing it. And a "plan" isn't an army.

The plain truth is that we haven't, even potentially, ready for service at short notice 500,000 soldiers or anything like that number. The present two, Oak Grove; \$10. strength of the regular army, in the mainland United States, is 55,000 men. These are "ready for service," so far as they are actually in the army and are

Now that the talk in Washington is again in the direction of intervention in Mexico the Washington correspondents gather hints of an expeditionary force of 30,000 to 40,000 men. But to make up that number they are compelled to suppose that the 16,000 coast artillerymen will be drafted from their posts of duty and sent into Mexico as infantry!

We don't suppose for a moment that the war department or any responsible man in it authorized such a delusive statement as that first quoted above. Probably some second assistant deputy clerk gossiped about the "plan" to a Washington reporter and he put on this gossip an interpretation not justified by the facts and productive of a dangerous self-complacency.

Army officers are practically forbidden, by somewhat silly regulations, to talk about service matters for publication. But if their statements in private conversation may be trusted the United States has neither artillery nor ammunition for it, nor even small arms and cartridges for them, ready to "equip" an army of 500,000 men at "a moment's notice," and couldn't do it under several months.

Furthermore, it takes about a year properly to train an infantry soldier, at least eighteen months to train a cavalryman and his horse and three or four years to make a competent artilleryman.

When we permit ourselves to forget these vital facts and our minds to be filled with such fairy-tale inferences as are quoted in the first paragraph above we encourage congressmen in the attitude of almost criminal neglect of the army out of which we will some day draw such military reverses as will fill the whole nation with rage and shame.

---0-

GOVERNMENT OF Secretary of War Garrison is now on the Isthmus THE CANAL ZONE of Panama studying the question of the permanent organization and government of the Canal Zone-a question that in view of the approximate completion of the Panama canal is coming insistently to the front. Thursday he was taken through the Gatun Locks and went through Gatun Lake and the Culebra Cut as far as the Cucaracha Slide. He has also die young? made an inspection of the fortifications of the Atlantic end of the canal.

The Canal Zone situation is rather complicated and in any scheme of government three vital facts must be considered. These are:

The Canal Zone is a colonial possession for which some form of govern-

ment must be established and maintained by the United States. The Canal Zone is also a great business enterprise that must be managed

in the best possible way.

The Canal Zone is also a military post which must be under absolute con-

Vote Kills Charms of Women

TOO, felt at first that the franchise for woman would be a great thing. I believed politics would be purified, the world would be bet-Today I know the conditions in my own state are NOT BET-TERED AFTER NINETEEN YEARS of equal franchise. The sweet faced old lady is gone.

I HAVE SEEN TIMID WOMEN SHRINKING AT THEIR FIRST VISIT TO THE POLLS GROW AS BRAZEN AS THE VERY WORST WOMEN AFTER A FEW YEARS OF VOTING.

Two plans have been brought forward for the government of the Canal Zone upon the completion of the canal. One would put the government in the hands of a commission of three men, each with an equal voice. The other calls for a centralized government organized o., military lines with a E. E. BRODIE - - - - - Editor and Publisher responsible head. Governor Metcalfe is advocating the former. Colonel Goethals has put forward the latter.

> Generally speaking, a good way to judge the future is by the past. What is the lesson of the past of the Panama canal?

In 1904 President Roosvelt under the Spooner act appointed a canal commission of seven men. The commission was a failure. The commission of One year, by mail ______\$3.00 1905 was also composed of seven members, but the control of affairs was Six months, by mail______ 1.50 vested by executive decree in three men—a civil governor and a chief engineer Four months, by mail _______ 1.00 in the zone and a chairman in the United States. In 1907 Chairman Shonts Per week, by carrier________.10 resigned and the offices of chairman and chief engineer were consolidated and given to Mr. Stevens. He resigned one month later. A third commission was then appointed, so constituted as to put the responsibility upon one man, Colonel Goethals.

There is no question of the honesty and ability of the various members of the several commissions or of Mr. Shonts and Mr. Stephens. There is no need to set forth what Colonel Goethals has accomplished. The story of the Panama canal is simply the story of gradual concentration of responsibil-

Governor Metcalfe is our old friend the editor of Mr. Bryan's Commoner, He has been in the Canal Zone since last August. His views therefore have the freshness and originality of first impressions.
