TRADE NOT BR.SK IN PORTLAND HOUSE

Receipts for the week at Portland stock yards have been: Cattle 238, calves 1, hogs 2727, sheep 2429.

Cattle liquidation has been somewhat less this week than it was a week ago, but the arrivals did not furnish every large number of prime head. Killers are not very keen for the half-fat grade, and prices are generally lower on this class: \$7.25 to \$7.50 was bid for the few choice cars of steers offering the early part of the week with the bulk top at \$7.40. Sixteen head of steers sold Friday morning for \$7.60, the extreme top for the week. Much of the stuff arriving shows shrinkage in transit from being fed short grass.

Butcher stock was in fair demand during the entire session. Cow stuff was the only kind to suffer price declines, and this occurred only when quality averaged poor; \$6.50 was bid freely for smooth fat she stuff, but there was a short supply. Bulls and stags held steady at firm prices.

Swine values lowered 20 cents from the old price Monday. The first half of the week furnished big receipts, Monday having one of the largest totals on record. Quality of stock has been generally good and pork is being finished more carefully; \$8.00 as a light hog quotation has stood the test right through the week. Good demand prevailed at the lowered prices, market closing steady to firm.

Sheep house business was one of the most active of the year. A plentiful supply of choice lambs and mutton was offered the buyers, who have been short handed for some time. They advanced prices Monday, but later receded, and the close was about where it was seven days ago, but is steady. Prices on best grades are as follows: Yearlings, \$4.75 to \$4.90; old sheep, \$4.25 to \$4.50; ewes, \$3.90 to \$4.00; lambs, \$5.50 to \$5.75.

SIRENS AND SONS.

Professor W. H. Taft of Yale has extended his law discourse circuit to embrace the Boston university law school.

President Samuel Ren of the Pennsylvania is fifty-eight years of age. He was born at Hollidaysburg Sept. 21, 1855, and entered the employment of the Pennsylvania as a chairman and rodman at the age of sixteen.

Dr. Yamato Ichihashi, who will teach courses in Japanese history and government at Stanford university, is the first of his race to be so honored in the west. He has been in this country for twenty years and graduated from Stanford in 1907.

Senator Alexander Caldwell, one of the few surviving soldiers of the Mexican war, although eighty-three years of age, is active and still engaged in business in Kansas City, Kan. He is president of the First National bank of that place and can be found at his desk regularly.

Washington Gardner, the newly elected commander in chief of the national G. A. R., enlisted when he was sixteen years old and after three years' service returned to his home in Michigan on crutches. He went back to school and became a professor in Albion college. He served five years as secretary of state of Michigan and for twelve years was a representative in congress.

Laundry Helps.

Pencil marks should be rubbed off of new garments before washing, as water sets them.

Egg stains should be soaked in cold water before going to the laundry. If this is done the stains will come out easily. Hot water sets them.

A little butter stirred in with the starch will keep the iron from sticking; also a little butter on a piece of paper will be found more efficacious than beeswax in keeping the iron smooth.

If a lump of soda dissolved in a little hot water is added to the blue water on wash day it prevents the blue from settling in the clothes and makes them perfectly white. This is also very useful when the water is hard.

Town Topics.

No wonder Chicago has lots of crime. Think of the ignorance of a police department which seriously advises girls not to flirt!—Cleveland Plain Dealer.

"Green" policemen now patrol the red light district of Gotham, which also abounds in Black Handers. New York is the only city in the country that could think up a color scheme of that sort.—Philadelphia Inquirer.

MUSICAL RECITAL AT METHODIST CHURCH

An event of importance in musical and social circles will take place Wednesday evening, 19th November, in the First Methodist Episcopal church, when an organ and song recital of unusual character and interest will be given. A new pipe organ has recently been installed, and this will be heard for the first time, with Prof. Lucien E. Becker as organist.

Professor Becker, who is organist of Trinity church, Portland, has given recitals in many of the larger cities of the northwest and everywhere has drawn large audiences.

Mrs. Imogen Harding Brodie, who will appear as special soloist, is the possessor of a contralto voice of remarkable beauty and compass. Oregon City claims Mrs. Brodie as a native daughter and is justly proud of her fine natural and cultivated gifts.

This will be the first opportunity in four years that the people of this community have had to hear Mrs. Brodie in concert work.

One of the attractions will be a duet by Mrs. Brodie and Mrs. Neita Barlow Lawrence, with Miss Sayde Evelyn Ford as accompanist.

FORUM OF THE PEOPLE

WATER REPORT AND REPORTS ON WATER

OREGON CITY Ore., Nov. 16.—(Editor of The Enterprise)—Once more the people of Oregon City have received conflicting reports from expert chemists regarding the purity or impurity as the case may be, of our city's water supply. These reports seem to be decidedly at variance and "who shall decide when the chemists disagree?" One thing is certain that the people of Oregon City have definitely decided that they desire water from a different source than that of the present supply. This is made apparent by the fact that a large percentage of our citizens continue to boil the water before using after it has been declared free from color bacilli by the expert chemist.

Now we have before us the report of the city council's committee on sources of water supply. And by the way, we wish to commend said committee for the careful painstaking, patient methods they have used in laying before the public the various sources from which we may obtain a supply of pure water. Now that this report is before us we shall be expected to make a definite choice of the source from which we shall supply the city and as a citizen, I hope that this may be done without one faction attacking another faction, without vilification or interchange of personalities. Let each one seek the best interests of every one that a wise decision may be reached and the best interests of the city secured for the future prosperity of our historic city depends very largely upon the present disposition we make of our city's water supply.

NO MASS MEETING IN WEST LINN THIS TIME

The charter committee of West Linn decided Saturday night not to call a mass meeting of the citizens on Wednesday, November 19, but would, instead, follow out other methods provided by the law for the placing of officers of the new town in nomination.

Blanks will be printed and left in the office of the recorder for the petitions to be used in nominating the new officers. There the candidates or their friends may find them, secure the number of signatures required and file them before noon on November 26.

The petitions must be acknowledged by two persons before a notary public. Before the committee called a mass meeting to name the officers but it has decided that such a procedure is not necessary at this time.
