RAILROAD MUST PAY OR LOSE ITS RIGHTS

Livy Stipp, city recorder, has notified the Portland, Railway, Light & Power company that it must pay into the city treasury \$1000 within the next 30 days or the city council can revoke its franchise, under the provisions of the instrument itself.

The company pays the city \$250 quarterly in advance and has not met the installments for one year. Unless it does so, the city may revoke the franchise. It is expected that the money will be forthcoming at once.

MOLALLA COMES OUT FOR ROADS

WANTS BETTER HIGHWAYS IN ITS DISTRICT AND VOTES LEVY

DETERMINES TO RAISE FIVE MILLS

Believes That Hard Surfaced Roads Mean Much to City and All of Surrounding Territory—Big Crowd

By a vote of more than two to one, the people of the Molalla district determined to levy a special tax of five mills for good roads. In the largest meeting that has been held in this district in some time the question of good roads was thoroughly discussed. The people are enthusiastic over the proposition and have determined that the solution to the difficulties that face the new city is to be found in better highways. S. A. Douglas was elected road supervisor to handle the money that will be raised by the special levy. The district plans to get all of the hard surfaced roads that it can and to put the ones that it now has in better condition and to make them passable even during the rainy season of the year. The subject of good roads is an important one in this district and the people came out in force when the question of a special levy was discussed.

Two more chances to become son-in-law to the president.

A Seattle judge—Humphries—says he would not be afraid to put Huerta in jail. If he can do so, and will, all will be forgiven.

BROTHERHOOD TO CARE FOR POOR

EPISCOPALIAN CHURCH PLANS FOR PROVISION FOR NEEDY ON CHRISTMAS

CAREFUL INVESTIGATIONS ARE MADE

Organization Keeps Records of All Cases That Come to Its Attention—Wants Names Sent to Officers

The Brotherhood of St. Andrew, connected with St. Paul's Episcopal church is undertaking again this year the raising of funds and distribution of Christmas gifts for the poor in and about Oregon City.

For the past two years the brotherhood has tried to add some little Christmas joy to those who otherwise would have forgotten. So much good has been accomplished that the work seems now to be a permanent part and privilege of the brotherhood's Christmas work.

Organization's Aim.
The aim is to supply every poor family with gifts, food, clothing and, under certain circumstances, money. The children, however, are not forgotten. It is their innocent pleasure that prompts all the hard work connected with the matter; their joy is made complete with gifts of toys, candy, nuts, etc.

The first year the citizens, regardless of religious affiliation, responded most generously, and when they saw and heard of the good done, they gave the next year more bountiful still. This year Oregon City has many poor and has had much sickness, and the brotherhood feels sure that more good than ever will be done; for the simple reason that it is more needed.

The condition of every family reported is carefully and conscientiously looked into and the proper help given, underclothing for the mother and little ones, boxes of groceries, meats, shoes and other necessities; sometimes book rent is paid and a new start given for the new year.

Careful Records Made.
Apparently the brotherhood from its past experience understands its business pretty well. It follows the simple style of giving where it is most needed and what is most needed.

The brotherhood asks the hearty cooperation of churches, societies, physicians, county officers and others in reporting the names of the poor and needy. Mr. Frank Barlow, the founder of this movement is chairman and other members of the brotherhood to whom contributions may be given or information gained are, John R. Humphreys, E. Chapman, Dr. L. A. Morris, Carl Joehnk, C. W. Evans.

BIG LINES BUTT INTO OTHERS

CHARGES MADE AGAINST THE ELECTRIC AND STEAM LINES INTO CITY

THREATS TO QUIT ARE AGAIN MADE

Attorneys Say Companies Cannot be Expected to Put in Concrete Wall and Make Big Fill on Water Street

Charges that the Portland Railway, Light & Power company and the Southern Pacific company are the real opponents to the franchises of the Carver and Clackamas Southern lines were made at the city council meeting Friday night.

Threats were also made by both lines to quit the fight for the franchises when members of the council proposed that the applications be granted on condition that the railroads improve the street and build a retaining wall. C. D. Latourette presented suggestions to the council in which he urged that the city require the companies be required to fill in to the height of that wall, complete the lines in a short time, provide for hourly passenger cars, a common user cause, and automatic forfeiture features for violation.

The attorneys for the railroads threatened to quit when this proposition was made to the council. They declared that no road could live up to such requirements and construct the line that has been planned.

The decision on the matter was postponed. Present were: Horton, Holman, Metzner, Long, Myers, Hall, Beard, Toose; absent Albright.

Looks like Portland was to gain worldwide celebrity as a city of theatres, as well as a city of roses.

TO FUMIGATE ALL OF RURAL SCHOOLS

J. E. Calavan, county superintendent, may issue orders within the next few days for a complete fumigation of every school in the county districts once every month.

Dr. J. A. Van Brakle, county health officer, believes that he can reduce the number of contagious cases in the schools 50 per cent if the districts will see that proper fumigation methods are carried out every month. He believes that the schools have been the center of a large part of the contagion that has spread through some of the district and has come to the conclusion that most of it could be prevented by proper fumigation work.

It is possible that the county superintendent will take the matter in hand and assist the health officer in carrying out such a program to protect the health of the children of the schools and prevent a further spread of such diseases.

Of course, any desired number of "alienists"—if paid enough—will swear that Hans Schmidt is insane.

FALLS INTO CANAL WITH TRUCK LOAD

While running a truck load of material along the property of the Willamette Pulp & Paper company Friday, E. Milkalin fell with his truck into the canal, suffered a deep gash over the right eye, and was almost exhausted before rescuers could get him from the water. He was at once taken to the Oregon City hospital where he was given medical attention. His condition was not at all serious though he was in the water fully five minutes and was some what stunned by a blow from the truck as he went overboard into the waters of the canal. Drs. Mount attended the case.

DIVORCE CASES FILED

Sidney Nuttall against Jessie Nuttall is the style of a case filed Friday alleging desertion. They were married at Menominee, Mich., April 22, 1908.

Grace Everson asked a decree from Fred L. Everson because of cruelty and inhuman treatment. They were married in Portland, January 18, 1911. She also asks for separate property that she has gained after her separation from her husband.
