UBERCULOSIS IS one of the most determined diseases 'that the medical men of the United States have to combat. It annually takes a tremendous toll of life. The efforts that the American Red Cross society have been making in the past few years have done great things in stamping out the disease and bringing relief to the sufferers in all parts of the country.

The idea of using Christmas stamps has brought in a revenue for the cause in fighting this plague. It has enabled the physicians to save some of the sufferers who have been taken in the earlier stages of the affliction and to make life easier and happier for those who have no hope of more than a certain number of years of existence. Through the entire country, the campaign has been successfully waged for the past few years. The society has done a remarkable amount of good in carrying the campaign to the people and has accomplished wonders in investigating the cures and causes for the plague. The cause deserves the support of the people during the Christmas holidays. Every stamp that is used adds that much to the fight and the society and other organizations have conducted and contributes just that far to man in ward three, has denounced the of my friends have urgently request the wiping out or at least the control of the plague in the United States.

THE DETERMINATION of Great Britain to permit the United for prohibition for Oregon City. States to protect to a great extent foreign interests in Mexico, and to withdraw her own battleships from the waters of the troubled republic, is a great move in world affairs, and shows conclusively that the disinterestedness of the United States in Mexican politics is appreciated abroad. By gracefully leaving in American hands the Mexican situation, Great Britain is complimenting this nation, is acknowledging the effectiveness at this late day of the Monroe doctrine, and is showing a most commendable inclination to mind her own business and to avoid appearance of seeking further conquest.

For Great Britain, as one of the big powers of the Old World, to do this, is to make semi-official announcement of the fact that henceforth there shall be no meddling in New World affairs by European nations. With England stepping down from the armed cordon that has been drawn about Mexico, there will be no excuse for Germany or France to do anything less. The removal of European nations from the Mexican troubles will also discourage any hopes that Huerta or his enemies may have had of embroiling the United States with Old World peoples in regard to the Mexican rebellion, and will tend to bring about a permanent settlement of the unrest there so much the sooner. It is doubtless true that heretofore Huerta has hoped that foreign powers would emparass the United States in its Mexican attitude; and Huerta's receipt of the news of Britain's attitude can now be nothing but blasting to his own hopes.

It is not in regard to Mexico, however, that the action has the greatest weight. Great Britain's surrendering to the United States of the Mexican problem is a great tribute from one powerful nation to another, and is a compliment that later on will be cited in history as one of the greatest events in

To Keep Young One Must Be Full of Life and Should Dress Young

By Mme. NELLIE MELBA, Prima Donna

TO KEEP YOUNG ONE MUST KEEP ALIVE. ONE MUST BE WHAT YOU IN AMERICA CALL A LIVE WIRE. THE WOMAN WHO GROWS OLD IS THE WOMAN WHO GETS INTO A RUT STAYS THERE. SHE SHOULD HAVE A QUANTITY OF INTERESTS AND DEVOTE HER-SELF PASSIONATELY TO EVERY ONE OF THEM IF SHE WOULD REMAIN ALERT AND VIGOR-OUS. BOREDOM AND INERTIA ARE THE FATAL ENEMIES OF YOUTH. ONE MUST DRESS YOUNG TO LOOK YOUNG.

I do not approve of the slit skirt, though. I think that it is vulgar and immodest. I do not approve of many of the extremes of modern fashion. They seem to me hideous, and I cannot understand how they can be adopted by a nice woman with artistic sensibility. NOTHING THAT IS EXAGGERATED IS ARTISTIC.

The outre in dress is like a false note in music. It shocks. Dress is an art as much as music or painting. DRESS DEMANDS

STUDY AND NATURAL TALENT. I like the way American women dress. I think they are most chic. They know how to select their clothes and how to wear them. Then they

have such heautiful figures, and they walk so well and look so young.

ENTERPRISE the "entente cordiale" of the countries of the civilized world. It is an admission on the part of Fordered that the mission on the part of England that she realizes the disinterestedness and firm justice of the United States in her position with regard to Mexico; and is an endorsement of the strongest kind of the American policy. Seldom does one big nation pay such a tribute to another.

> In view of the past it might have been expected that in the Mexican situation the European nations would have maintained the same position that they did in the Boxer rebellion in China, and would have acted at least in concert in putting down the attrocities of the warring factions. Intervention of some sort seems, even at the late day, to be a matter of necessity in the Mexican situation, if peace is to be restored. Realizing this, as the British foreign office must, it s a great thing for Great Britain to step aside and say that she is satisfied to have the United States take such steps as may seem necessary to restore peace and to stop the warfare that has for months been rending the republic of Mexico.

> Great Britain probably has greater interests at stake, even than has the United States, yet she is willing to step aside and leave the United States to not only protect her investors, but to restore peace. It is a world-surprising tribute to this country and to the spirit moving the executive.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat less meat if you feel Backachy or have bladder trouble—Take glass of Salts.

No man or woman who eats meat regularly can make a mistake by flushing the larly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish bridgers.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will set fine. This farmous self-ic mode will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids

in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney
