M. D. Reynolds, says:—

This is to certify that I have been a great sufferer from Rheumatism since 1894. Contracted the disease while working with a snow plow on the railroad. For several years I have been obliged to use crutches a great part of the time. Having used three boxes of the Meritol Rheumatism powders, I have thrown away the crutches and am now almost fully recovered. It certainly has done wonders for me and I heartily recommend it. M. D. QUITE NECESSARY IS THE BRIGHT BIT OF CONTRAST

Of whatever material a gown is made this season there must be a touch of vivid color somewhere between head and foot. Usually it is introduced in the girle or waistcoat, or a smart little collar and cuffs show a colored motif. It may come in wherever opportunity offers or fancy suggests as long as it is effective and becoming. In 8058 the somberness of crows-blue crepe is smartly brightened by the deep vest of Roman stripes. The shops are showing ribbons and silks in Roman stripes in almost numberless colorings as they are very effective for trimmings of this sort. A bodice with wide armholes, set-in sleeves, a smart vest and peplum effect are the details that make this model attrac-

tive. The peplum is plaited in back. On the two-piece skirt the lower tier is joined under a deep tuck. This design may be copied in size 36 with 5 1/2 yards of 42 inch material. A quaint blouse of figured silk and a peg-top skirt of duvetyne, softly plaited into the belt, make up the other costume (8043-8039). The essential bit of color is here brought out in the buttons. The blouse (8043) may be made in size 36 with 2 1/2 yards of figured silk. The skirt (8058) requires for size 16 2 1/2 yards of 42 inch material. No. 8058—sizes 34 to 42. No. 8043—sizes 34 to 44. No. 8038—sizes 14, 16, 17 and 18. Each pattern 15 cents.
