SAGE TEA BEAUTIFULLY DARKENS THE HAIR WHEN FADED AND GRAY

Mixed With Sulphur a large bottle for about 50 cents. Some druggists make their own, Makes Hair Soft, Lus-

which is usually too sticky, so in-

The use of Sage and Sulphur for restoring faded, gray hair to grandmother's time. She kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect. But brewing at home is mussy and out-of-date. Nowadays skilled chemists do this better than ourselves. By asking at any drug store for the ready-to-use product—called "Wyeth's Sage and Sulphur becomes the simple mixture was applied with wonderful effect.

But brewing at home is mussy and out-of-date. Nowadays skilled chemists do this better than ourselves. By asking at any drug stored to its natural color and looks glossy, soft and abundant. HUNTLEY BROS. Co.—Adv.

UNCLE SAM IN

Over Highways.

TURNED DOWN BY SENATE.

Was Believed to Be Impractical-Many Things to Be Considered In National Legislation on Subject of Improvement-Four Principal Problems.

Scarcely any public work is more permanent in its character when once undertaken than that of highway improvement. When a road is once located it is difficult to change its location. When once a foundation has been laid

It is therefore important that before entering upon a plan of national parshould adopt a definite and compre bensive plan based upon anticipation of needs and operations for many years to come, in order that we may be certain the money expended and the work done in one year will co-ordinate with the expenditures and constructive work of the next year and for many years to come. Care in planning a system and methods of procedure may save us millions of dollars of waste or bring vastly greater results than would be attained under an ill considered and haphazard action

In the last postoffice appropriation bill the house inserted a provision, after the bill had been reported from the committee and while it was under discussion on the floor of the house, pro viding the classification of roads used for the carrying of United States mails and for the payment by the government of an annual sum as rental in consideration of the fact that the gov ernment uses these highways.

Such payments were to be either \$15, \$20 or \$25 a mile, according to the character of the road over which the mails were transported

This provision was rejected by the senate for several reasons. First, it did not provide that the federal ap-

GOVERNMENT HIGHWAY IN CONNECTICUT

propriations should be expended in highway improvements; second, it established the policy of obligating the government to pay to local communities compensation for the use of highways in conducting the rural free delivery service-a service that is conducted at a great loss to the government and for the special benefit of the communities served; third, it was the beginning of a system of compensation which had not been carefully considered, but which when once adopted would certainly grow to immense proportions.

Believing that the government should not enter upon any policy of participation in highway construction without first giving careful attention to every phase of the subject, the senate rejected this provision and inserted a substitute, directing the appointment of a joint committee of the two houses for the study of the entire question and the drafting of such legislation as may meet the approval of the com-

mittee. In legislating upon the subject of national participation in road improvement four different problems must be

solved: First.-To devise a plan that shall insure an equitable distribution of the funds of the different sections of the

United States. Second.-To determine whether the money should be expended in the construction of main arteries for interstate commerce or to be expended upon local branch lines that will serve merely as feeders for railroads.

Third.-To devise a plan of co-operation with the different states that will be acceptable to them and insure the co-operation of all with the federal government.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kid-Fourth.-To throw round the nation al funds such safeguards as will insure their proper expenditure and guard against waste.-Senator Bourne in Saturday Evening Post.

No Good There. The road drag will do nothing to improve the highway so long as it lies unused at the side of the road.

The Cookbook.

The best way to make boiled ham juicy and tender is to leave it in the water in which it is boiled until quite

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

For Sale by Huntley Bros. Leftover kidney minced and mixed with a little gravy or some tomatoes will be found a welcome addition to

the breakfast or luncheon omelet. The water in which any vegetables except potatoes or cabbage have been cooked may be used for the basis of a soup or to add to the stock kettle. There is considerable nutriment in it.
