URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water. If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night. To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoon in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink. For Sale by Huntley Bros. (Adv.)

Daily Christmas Hint Just the Thing for the Children's Stocking Isn't this the cutest little candy kid you ever saw? He's the product of the fertile brain of a Vassar girl who first made him for a midnight "spread." The little fellow would be just the thing for the children's Christmas stocking. How is he made? The easiest thing in the world. Get a goodly supply of strong toothpicks, some large raisins, marshmallows, almonds and figs. Then you are ready for the Frankenstein trick—making a man. It is best to begin on the legs and arms first. To make the legs stick

THE CANDY KID. two of the raisins on two toothpicks, and to the ends of each place an almond for a foot. The arms are made in the same way; except for the hands the almonds are blanched. Now run two marshmallows through a toothpick for the man's body. He hasn't any neck. Have ready some melted chocolate and dip an orange stick in this mixture and with it make large dots for the buttons on his coat and for his facial features. Now attach arms and legs, and when a good sized fig has been rakishly placed on his head for a hat the man is ready for the stocking.

We had heard of the pleasure and profit in hop picking, and we went to the hop yards for two weeks, earning a tidy little sum, and having a grand time. We came back to Oregon City on Saturday evening, and on Monday my wife and I went to work in our present positions. We think this is the best place to get a start we ever saw, and we like the country immensely. We have been surprised to hear no complaints about hard times, and this is certainly no place for a man who does not want to work. It is a source of great wonder to us to see flowers still in bloom and the grass green and the fragrant roses still blooming. We are in love with the country and hope to soon by our united efforts, go on a place where we can keep cows and chickens, for we have seen what can be done. We feel very grateful to the Secretary of the Publicity Department of the Commercial Club through whose activity, and good kindly advice by correspondence we were induced to make the change. C. R. GILLSON.

HERE A BOLERO AND AN OVERBLOUSE IN WAIST-COAT EFFECT ARE DISTINCTIVE

The once favored bolero has again taken quite a hold on popular fancy. As of old, it is fashioned of plaids and contrasting materials and is worn with or without sleeves. When the overblouse is of net or lace the effect is very pleasing, and the Medici frill is still a smart and becoming finish to the neck; in fact, a dress does not seem complete without its flimsy frill or two. Crepe de Chine in eco blue was used with 8049. The underblouse is of shaded lace, and the sash is of satin in the same blue. Neck and sleeves are both finished with the tiny frill of net. This dress may be made in size 36 with 6 yards of 36 inch material and 3/4 yard of allover net for the front. Another of our economical fads this season is the waist-coat vest or overblouse. If the skirt and blouse are plain the vest may be of brocade, introducing in this way a smart touch of color. As illustrated in 8040-8036, a smart hard finish serge in dull blue fashions the vest and three tiered skirt, being charmingly relieved by a figured sash and an underblouse of flowered net. The blouse (8040) may be made in any size with 1 1/2 yards of 39 inch material for the vest, 2 1/4 yards of 36 inch contrasting material for the gumpie and 3/4 yard of silk for the girde. No. 8049—sizes 34 to 42. No. 8040—sizes 32 to 42. No. 8036—sizes 14, 16, 17 and 18.
