STATE GOES AFTER GERMAN SETTLERS A request has been sent to all the commercial bodies and booster clubs in the state for the names of German speaking persons in the old country who have personal friends or relatives in America. Literature will be sent to these addresses, describing Oregon and inviting them to come to the new world. The state immigration commission has issued three books which are printed in German for distribution among the German speaking people of Europe. Two books take up the description of the state by means of well written articles while the other is composed of pictures. It is thought that by such a plan a large number of prospective settlers can be reached and Oregon can reap the full benefit of desirable immigrants when the Panama canal is opened.

PARISIAN SAGE SALTS IF KIDNEYS OR BLADDER BOTHER Harmless to flush Kidneys and neutralize irritating acids—Splendid for system. Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it. Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble. For Sale by Huntley Bros. AN EFFECTIVELY KNOTTED VELVET GIRDLE All the quaintness of the Moyen Age as displayed in the bodice of 7976, while the skirt shows the softer lines of a later day. We are not hampered by periods in dress designs, but may pick out and combine the good points of several without committing a breach of taste. Crepe meter in a dull shade of green effectively relieved by braided bands of dull gold is used for 7976. The girdle is of velvet in the same soft green with the ends fringed in gold. This gown may be copied in size 36 with 4 1/2 yards of 42 inch material. Few of the children's garments today show a waist-line. Lines are easy and graceful, and plenty of room is allowed. Soft, light wools are used almost exclusively, with now and then a soft little frock of crepe de Chine or China silk for "dressing" occasions. 7899 is a new little dress closing diagonally in front, fashioned of dark blue serge with collar, cuffs and stitched belt of Roman striped silk. It may be copied in size 8 with 2 1/2 yards of 36 inch material. No. 7976—sizes 34 to 42. No. 7899—sizes 4 to 10. Each pattern 15 cent.
