E. E. BRODIE - - - - - Editor and Publisher

Entered as second-class matter January 9, 1911, at the postoffice at Oregon City, under the Act of March 2, 1879.

TERMS OF SUBSCRIPTION	
One year, by mail\$	3.00
	1.50
	1.00
Per week, by carrier	.10

The Morning Enterprise carrier boys are instructed to put the papers on the porch or in the mail box. If the carrier does not do this, misses you, or neglects getting the paper to you on time, kindly phone the office. This is the only way we can determine whether or not the carriers are following instructions. Phone Main 2 or B-10.

CITY OFFICIAL NEWSPAPER.

7 F OREGON CITY TOBACCO stores are selling to boys under 13 years of age, some one of the valiant law officers of the town ought to begin to make the discovery and a result or two in the ways of arrests or prosecutions ought to dribble from that discovery.

It doesn't take a Sherlock Holmes to see that there are minors in Oregon City who walk into the pool rooms and cigar stores and buy their tobacco without the slightest question of any kind as to their age. In fact, there has been little investigation by the stores as to the ages of any of the boy who walk in there and demand their poisoned pellets. If a boy wants tobacco. he usually gets it and the dealers seem to make little effort to investigate the matter of age unless the boy is too apparently under the limit.

This question of selling tobacco and liquor to minors is one that the of ficers in the town ought to thoroughly investigate. It is a matter of common knowledge that it is done but the officers have never yet been able to catch them doing it or to see the dealer who did it. Some of the saloon men are careful in dealing with minors and will not allow one around the bar is they have the least suspicion of his age. On the other hand, there is another brand of saloon keeper in the city who will take all sorts of chances for the benefit of the boy's money and is willing to run what risk he may as long as the customer remains with him.

But there are officers that this city and county have whose duty it is to investigate the conditions of this kind and who should have put a stop to the sale of tobacco long ago. The matter has been flaunted in the very eyes of the authorities. They have seen it every day on the streets. There has been no effort made to stop it nor a chance investigation conducted. On every street corner, minors stand to puff the weed.

It isn't the matter of the tobacco selling that so much concerns the Enterprise. It feels deeply over the apparent neglect of public officials to make some of the stores of the city live up to the law. What in the name of justice is the worth of any law if the people and their officers are going to continue to disregard it? Are the police and public officers of any town the judges of the law and are they empowered to decide which one of the laws is to be enforced and which others are not?

When the officers allow the violations of law to be flaunted in their faces and try to ignore that which every person on the street sees, it is time that they received an electric jolt of some kind that would lift them out of their sleep. The people had these laws passed at the last sessions of the state legislature

Money Power Grips Us; We Have Become a Nation of Employees

By LOUIS D. BRANDEIS, Lawyer and Economist

DOLITICALLY EVERY AMERICAN IS FREE AND INDEPENDENT; INDUSTRIALLY A LARGE PROPORTION OF AMERICANS ARE DEPEND-ENT UPON THE ARBITRARY WILL OF OTHERS. NONE OF OUR CONTRASTS IS MORE MARKED THAN THAT BETWEEN OUR POLITICAL LIBERTY AND OUR INDUSTRIAL ABSOLUTISM.

We have become a NATION OF EMPLOYEES, and the legislative power has been invoked to improve working conditions. Such legislation might bring health, comfort and leisure, but cannot bring liberty. Organized labor has taken a long step toward emancipation, but has been UNABLE TO COPE WITH THE TRUSTS.

But perhaps more serious even than insufficiency of wages is the loss of manhood which accompanies overweening power.

BUT BEHIND THE TRUSTS IS A STILL GREATER POWER, THE POWER WHICH CONTROLS TRUSTS AND RAILROADS AND THE OTHER GREAT BUSINESS ENTERPRISES-THE MONEY POWER. MONEY AND CREDIT ARE THE LIFE BLOOD OF BUSINESS, AND THE CONCENTRATION OF MONEY AND CREDIT HAS PROCEEDED TO SUCH AN EXTENT THAT NO LARGE ENTERPRISE CAN BE SUCCESSFULLY UNDERTAKEN OR PURSUED WITHOUT THE CON-SENT OF A FEW MEN TO WHOM TRIBUTE MUST BE PAID.

It is easy to see how a powerful trust, with its perfect organization and huge resources, can control its employees and curb its competitors. It is more difficult to picture to ourselves how the MONEY TRUST

In a democracy it is the part of statesmanship to prevent the development of power which OVERAWES THE ORDINARY FORCES OF MAN. Where such power exists it must be broken. The privilege which begets it must be DESTROYED.

ENTERPRISE and they intended that the executive branch of the government should see that they were enforced. The Enterprise is very much provoked over the way in which some of the executive officers of the state enforce the law and sit back in judgment as to which laws of the state should and which should not be enforced.

> The question of liquor and tobacco selling to minors is on the statute books of the state. Many men who think deeply use tobacco but the legislators of this state have believed that the weed has too disastrous effects upon the immature mind and body of the boy and have seen fit to place the ban upon its sale to those under age. That should be enforced by the law officers of the city and county wherever a violation can be found. It is the duty of officers to investigate conditions, not to pass them by carelessly as they have

> HE CHICKENS OF THE SPOILS system are coming home to roost. The Santo Domingo scandal has an unusually ugly look, because the United States occupies the position of trustee to the little re-

> public. That country in substance confessed inability to collect and dispose of its customs revenue honestly and efficiently and asked the United States to become its trustee. This Nation, on a lofty pedestal of superior virtue and efficiency, assumed the trust for its little brown brother to keep him out of the hands of his importunate creditors. We sent Jacob H. Hollander to put Santo Domingo's finances in order and to advise the republic in financial affairs. He was a financier of proved ability, chosen on that ground alone, and not for political reasons. In fact, Who's Who does not even indicate to which party he belongs. In the same spirit men have been appointed to collect the customs revenue of the republic.

> But the Wilson Administration, besieged by Democrats hungry for office and to whom it owed political debts, in its search for means wherewith to pay turned to Santo Domingo. The Administration sent as Minister to that country James Mark Sullivan, who public services seem to have consisted in defending "Jack" Rose at the Becker trial and in stumping Maine with Secretary Bryan. As receiver of customs was sent Walter W. Vick, of New Jersey, a good Wilson man, despite Dominican protests against change. Mr. Sullivan proceeded to take care of his friends by instructing Mr. Vick to transfer the government funds to the bank owned by S. M. Jarvis, and Mr. Sullivan's cousin, "Tim," soon appeared as a railroad builder for the republic at a fat salary.

nues, while you provide salaries for your own politicians out of our revenues.'

The Administration's handling of Santo Domingo and Governor Harrison's sweeping out of experienced, competent officials in the Philippines to make room for Democrats supply a new and cogent argument against the financial control of Nicaragua and Honduras, which was proposed by the Taft Administration, and against the protectorate of the former country, proposed by Secretary Bryan. Apparently we cannot trust ourselves not to treat the offices of Latin-American countries as our own political spoils. We are justifying the belief in those countries that, though we may not wish to annex them, we wish to annex their lucrative jobs. Unless the Administration returns to the ideal which guided Presidents Roosevelt and Taft in dealing with Santo Domingo, we would better turn that republic loose to settle its own

IS EVERYTHING WELL WITH US?

There are no more weary mothers

to be relieved. In the houses of the poor little children no longer lift their thin hands for

The factories hold no more child toil-

ers, with backs wearied by constant bending and hands cramped with work and eyes blinded with flying dust and minds stunted by lack of opportunity. There are no more poor boys to be taught.

Through the dark night streets of the city and along the miscalled "great white ways" walk no young girls. doomed to lives of indescribable sad-

There is no more misery! Throughout the world all is light-

ness and gayety and happiness. So a woman of Massachusetts has built a house for her twelve Pomeranian dogs!

Listen to the description of the house. Is it not finer than the kennels of many of our poor?

"Twelve Pomeranians, each with a whole room to himself, in a house which they have to themselves, take the prize for dog luxury. The dogs have a valet, electric lights, individual beds, a bath twice a day, a back yard to play in, leather chairs and soft rugs

to try their teeth on." No, you need not rub your eyes and read again. It is not a description of a sanitarium for sick babies, for heat worn children and their wearied mothers. It is not a place of rest for poor girls overcome in the battle with the world.

It is a palace for DOGS. And a WOMAN built it!

In the city in which this woman lives there are great factories of various kinds. There are slums. There are sordid homes of working people. The dog lover need travel only a very short distance from her own luxurious home to find distress and poverty.

There is love in her heart. But it is

The valet who washes these dogs might be employed in taking out sick children-no doubt, he would prefer to do so, for in the wageworker there is sympathy for the poor. Perhaps his mistress would shrink

from the thought. What, her own servant come in close contact with the Surely she may read in her Bible

how the gentle Saviour washed the feet of his apostles.

When the woman of our story enters her dogs' house no doubt she is greeted by a chorus of barks that tell her of their appreciation of her care

of them. But outside the children of the poor

BOOMING BETTER ROADS.

We should have another declaration of independence and declare ourselves independent of American mud.

By Gross

Ignorance never initiated any good movement, and its twin sister, prejudice, has retarded many.

The tax we bear for bad roads is infinitely higher than that we would pay for good roads.

It is astonishing what burdens we will bear when we bear them ignorantly. Let the light in on

Politics is supposed to be the science of government, but in some states it is trying to steal

the road funds. National highways and good roads everywhere-if you don't get them it is your own fault.

We need uniform road legislation, construction and mainte-

TO EXHIBIT ROAD MODELS.

Collection to Be on View at Panama-

Pacific Exposition. Arrangements are to be made by the United States department of agriculture, through Logan Waller Page, director of the office of public roads, to place on exhibition at the Panama-Pacific exposition in 1915 the greatest collection of road models ever displayed in any part of the world. The models will furnish exact duplicates of the old Roman roads, French roads and all of the various types of modern roads, together with miniature models of road machinery operated by electricity.

The office of public roads made an exhibit of road models for the first time at the Alaska-Yukon-Pacific exposition. The aim was to put on view such striking examples in miniature of road models that visitors would not only appreciate the beneficent effects of improved highways, but would, at the same time, be able to understand the methods of their construction,

Since the Alaska-Yukon-Pacific exposition closed, the exhibit has been displayed at numerous other expositions and fairs in many parts of the country and in South America and Europe. In the meantime, the collection has been greatly augmented until every single type of road is now represented and every known device used in the making of roads has been reproduced in miniature.

The models have also been displayed on road trains at all important places along the route of the Pennsylvania railroad in the state of Pennsylvania. the entire system of the Southern railway, the Frisco lines, the Atlantic Coast line and the Nashville, Chattanooga and St. Louis railway.

As a result of the instruction furnished by these road models many farmers have joined forces to improve their own highways, and the road building movement has had a great impetus. When application for expert advice concerning any special road problem is made to the department the office of public roads furnishes it without exacting any fees.

Spurgeon's Long Sleep. Among modern preachers Spurgeon held the record not only for the greatest number of sermons, but also for the largest audiences. On the national fast day, Oct. 7, 1857, he preached in the central transept of the Crystal palace. London, to a congregation of 25.000, and was clearly heard by all. The physical effort involved, however,

had a curious effect on the preacher. "I was not conscious at the close of the service of any extraordinary exhaustion." he wrote in his autobiography, "yet I must have been very weary, for after I went to sleep on that Wednesday night 1 did not waken until Friday morning, sleeping right through Thursday."
