CITY OFFICIAL NEWSPAPER.

ENTHUSIASTIC APOSTLES of eugenics are called to task by Prof. H. W. Conn of the Wesleyan University at Middletown, Conn., in an article in a current magazine, for their failure to distinguish between the evolution of animals and the evolution of man.

He illustrates concretely by stating that among animals the individual counts in the progress of evolution only through its offspring. The animal that dies without offspring has contributed nothing to the race, has left no trace, no inheritance.

Dr. Conn's article revives the ancient controversy as to heredity and environment. While not underestimating the value of eugenics, it is well to bear in mind that our civilization is the result of social inheritance.

GRAND ARMIES of the unemployed are filling the cities and towns all over the country. The demonstration on the streets of Portland the other day was an example of the number of men who are out of work everywhere.

None of these men wanted charity. None of them asked for pity. They simply wanted a job. They asked the city commission to assist them in securing employment—for a mere chance to earn their bread and butter and an opportunity to support themselves and their families during months of winter when outside work is light.

The thousands of hobos who are traveling through the country and riding freight cars are not all of them confirmed tramps. Not the entire membership of that constantly moving army is addicted to the wandering life.

American Nations, Stand Together!

By THEODORE ROOSEVELT

THE American nations, such as Brazil and the United States, stand on an absolute footing of equality. One cardinal doctrine on which we all agree is that America shall not be treated as offering ground for FRESH COLONIZATION OR TERRITORIAL AGGRANDIZEMENT by any old world power.

James Gillespie, the locomotive engineer who was killed by a freight train in the Oregon City yards last Tuesday, is an example of this kind. He was an experienced railroad man, one who was trusted with the responsibility that devolves upon the shoulders of the man at the throttle and in whom his company and his friends had confidence.

But without work, without any apparent means of supporting his family he tried to make for southern points around the greater centers of railroad activities where the chances for work would have been better.

There are many cases just like this in that great army known as tramps now wandering through the country in search of work. The confirmed hobo, the man who never worked and never will should be placed upon a municipal rock pile and given the essential principles of the game.

The city of Portland has taken the initiative in the matter since the marching of that regiment through the streets impressed the city commission with the number of men who are without employment.

Every man has the right to live. He has the right to sell his energies and time for that which will put bread into his mouth and clothes upon his back. When there is no demand for his labor, when conditions have reached such a stage that he cannot find work, something should be done by government officials to relieve the situation.

Such a condition is of interest to society. To reduce crime, the state should see that the greatest number of its people are given work, that will provide the livelihood. Just how the state can accomplish this result is uncertain.

Kids Smile As Teachers Face Examination

Forty teachers and candidates for teacher's diplomas are taking the semi-annual examinations now being conducted in the Masonic building in this city under the direction of County Superintendent Calavan and Supervisor Brenton Vedder.

The number taking the examination includes teachers from all parts of the county and a large number of seniors in the high schools who plan to secure positions in the schools as soon as their term is out. Diplomas are issued for various terms of years depending upon the number of subjects in which the candidate is being examined.

In The Social Whirl

Current Happenings of Interest in and About Oregon City

Cadet Band. An unusual degree of interest is being shown by the people of Oregon City in the coming of the O. A. C. Cadet band. The program promises more in the way of musical interest and novelty than any they have presented heretofore.

Birthday Party. The seventeenth birthday of George Doty was celebrated Wednesday evening when a number of his schoolmates called at his home in West Linn and pleasantly surprised him.

RECTOR'S BROTHER DIES IN NEW YORK

The Right Reverend Henry Douglas Robinson, bishop of Nevada, died Thursday afternoon at 1:45 o'clock in New York City.

Bishop Robinson was a brother to Rev. Charles Wellington Robinson, rector of St. Paul's parish of this city. He was still a man in the prime of life, born in 1860. He held many positions of honor in the Episcopal church and, for a number of years, he was president of Racine College.

Seven years ago he was elected by the house of bishops to the diocese of Nevada.

He went to New York City to attend the general convention, but he was too ill to take his place in the house of bishops. He was taken by his brother to St. Luke's hospital, where, in spite of every effort of science, he died.

He is to be buried on Monday next in Racine, Wisconsin, probably in the graveyard surrounding the Collegiate Chapel.

He is survived by a wife, two sisters, Miss Clara L. Robinson, of Portland, and Miss Marion A. Robinson, of Los Angeles and a brother, Rev. C. W. Robinson of this city.

The Mexican "congress" has voted to leave Huerta in power till next September. But this does not give him any assurance of his seat until then.
