QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if Esck hurts or Bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble. The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system. When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active. Cleanse the Scalp; Nourish the Hair and Never Grow Bald—Use Parisian Sage.

Don't grow bald at 35 as thousands of men do—yes! and women also. Failure to keep the hair properly nourished and the scalp free from dandruff is one of the main causes of baldness. This delightful and refreshing hair tonic, which is now sold at druggists and toilet counters in 50 cent bottles, is rigidly guaranteed. If Parisian Sage does not give complete satisfaction Huntley Bros. Co. will return your money.

Parisian Sage surely supplies hair needs. The first application removes dandruff, invigorates the scalp and puts life and beauty into thin, dull and faded hair.

GRAY HAIR TURNS ITS NATURAL COLOR AFTER APPLYING SAGE TEA

Mixed With Sulphur It Darkens Beautifully and Takes Off Dandruff.

Almost every one knows that Sage Tea and Sulphur properly compounded, brings back the natural color and luster to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Now a small strand at a time. This requires but a few moments, by morning the gray hair disappears and after another application or two is restored to its natural color and looks even more beautiful and glossy than ever. (Adv.) AN ATTRACTIVE OVERBLOUSE DRESS FOR THE LITTLE PERSON

Perhaps one of the most noticeable features of children's gowns and coats this season is the use of black for sashes, collars and cuffs. Sharp contrast seems to be the thing, just as it is in grown up modes. A smart little coat of beige broadcloth was trimmed with beaver fur and black panne velvet. A rose color boucle model had a collar and belt of black satin, and another of tan cashmere was trimmed with black satin. Once upon a time black was considered "too old" for little people, but just now it is quite the smartest thing. 7871 would be extremely pretty made up in cream colored cloth with the belt, cuffs and shaped trimming tabs of black panne velvet. It may be copied in size 10 with 3 1/2 yards of 38 inch material. Whereas most of the gowns are cut with the low collar many of the coats show the opposite, high or standing collars. Straight semi-fitted lines mark many of the new coat models. One of the new pile fabrics would be smart for this costume (7938-7939). Russian green with fur trimmings of skunk or tete de negre brown with bands of sable. Among the fur novelties of this season are cuff and collar sets which range from fur fabric up to ermine or sable. These are very practical, as they may be attached to almost any coat. 7938 and 7939 may be made in size 36 with 2 1/2 yards of 42 inch material for the coat and 2 1/2 yards of 42 inch material for the skirt. No. 7871—sized 6 to 14. No. 7938—sized 24 to 42. No. 7939—sized 22 to 30. Each pattern 15 cents.
