IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if kidneys feel like lead or bladder bothers you.—Meat forms uric acid.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Oliver Todd is substituting on one of the mail cars, and is greatly missed by his many friends.

Elmer Hasselbrink is still receiving congratulations upon having won first prize for his essay on "How I Earned Money during Vacation." Elmer is a capable and deserving young man, and we are all proud of our Wilsonville boys, who succeed by their own efforts.

The county court made divisions for the precincts on Friday, and a big delegation of Wilsonville's most influential citizens went down to try to have a voting place fixed for our village. In all probability only about one-fourth of the voters here have been able to go to

Pleasant Hill on account of the distance and now that the women vote, it is only fair that they should not have to go several miles. The farmers on the boundaries are so situated that they can go either place without inconvenience, but for the residents of Wilsonville to have to continue long as they have been doing, would be a decided imposition, and we are informed that the court decided to make the change.

Supervisor Vedder visited Corral Creek school on Friday afternoon, and gave an informal address to the members of the Mothers' Club, which was much enjoyed.

Miss Murray and Mrs. Hasselbrink are getting up a splendid program for the Christmas tree entertainment to be held in the school house on Wednesday evening. Santa Claus will be the honored guest of the evening. Everyone is cordially invited to attend.

STAFFORD

With old Oregon vining with California as to climate, we are all glad to be here. The past week has been balmy, almost spring like—small creeks that livened up in the November storms have gone dry and roads are drying as in early spring.

Stock are in good condition, dairy cows are doing well and many of the fields are now covered with a fresh coat of green.

The revival services at the Baptist church closed Sunday evening. A good attendance was had throughout and the good fellowship that universally follows all these gatherings is making itself manifest throughout the neighborhood. Fred Waehlte, son of Rev. Waehlte, deceased, a former pastor, rendered material aid by preaching in English, thereby alternating the services with German.

A birthday surprise party gathering was given to Mrs. Wm. Sharp on Tuesday to help celebrate her 79th anniversary. Surrounded by many of her children, grand-children, and several of her old neighbors, a few of the names which we recall: Mesdames Aden, Brooks, Gage, Kruse, and Miss Viola Barnes, she presided at the mid-day meal with the characteristic hospitality that has been hers during more than two score and ten years in our midst.

A few useful presents appropriated to the occasion were given, which will assist her to enjoy herself by the large open fireplace and its cheery sparkling glow.

The telephone line between here and Oswego is being repaired and otherwise improved.

Mrs. Ellen Seedling spent Tuesday at the county seat.

Walter Nusbaum has the fattest stall-fed goose there has been in this neighborhood and has a special order for them from Portland for the holiday trade.

Someone has been opening farm gates and leaving them open, causing a great inconvenience. Please close the gate.

A sneak thief! A widow, a smoke house and two large hams—such we deem a very poor combination, but such has been. Mrs. Powell is the victim. Now sneak thief, we will give your name if you let it be known. The sheriff was interviewed but could render no assistance with the hounds as there was no positive clue dropped; but, never mind, perseverance and patience will untangle all things.

Thanks to providence, there is one of our native birds left, that the sportsmen have not destroyed, an attractive one, too, every feather of which is of the most beautiful hue. We oftimes see it fit from tree to roof and across the open fields. This bird was probably made first while beautiful toad stools were first formed and likewise unmade, therefore abandoned by sportsmen. The bird is known as a musician, although it has hardly a vocal note. Playing its tattoo on roof or tree it pleasantly passes the time away. The bird in mind is the Yellow hammer. Did you ever observe the amount of worms and bugs it daily gathers? Harmless, beautiful and beneficial.

J. Q. Gage, of St. Helens, called on his parents Tuesday night.

T. L. Turner was in Oregon City Tuesday transacting business.

Wm. Schatz has the banner field of kale.

VELVET AND FUR A FAVORITE COMBINATION

Velvet has always been considered to be one of the richest and most becoming of fabrics, but formerly, owing to the fact that it soils easily, was not considered practical for general wear. Evening coats were made of it and once in awhile a suit, but this season it is being used widely. Manufacturers have outdone themselves to produce supple velvets both plain and broadened, and the colors are entrancing. Of greater and greater importance grows the fur trimmings, the natural skins vying with the rather fantastic looking dyed pelts. An old rose velvet suit, for instance, is trimmed with bands of old rose caracul, and to add to the effect a huge muff of the dyed fur accompanies the gown. This, however, seems to be gradually giving out as it offers such an opportunity for substituting poor skins, and the

dyed furs are really not as attractive as the furs with their natural colors. 7166 is smartly fashioned of a broadened velvet; the huge collar, the muff, also the band around the bottom of the skirt are of black fur. This coat may be made in size 36 with 5 yards of 42 inch velvet or material. A gracefully draped overskirt is a feature of the fascinating frock for afternoon shown in 7935. The wide hip sash of Roman stripes would lend the most somber of materials. One of the most attractive novelties being shown in the shops at the moment is the knitted saah of colored silks. They come in various widths and drapes most beautifully. To copy 7935 in size 36 requires 7 1/2 yards of 36 inch material with 3/4 yard of banding. No. 7166—sizes 32 to 44. No. 7935—sizes 34 to 42. Each pattern 15 cents.
