FIRED FIVE SHOTS

W. H. HILL TRIES TO MAKE A SIEVE OF SILAS HEDGES BUT FAILS.

Plaintiff in Recent Divorce Suit Empties His Revolver Upon the Man Whom He Says Destroyed His Home and None of the Shots Took Effect—Hill Under Bonds.

W. H. Hill was brought to this city Saturday in charge of a constable from Sandy and together they went to Portland where Hill expects to secure surities for \$1500, the amount he will have to put up to secure his release from custody. He is charged with assault with intent to kill. His crime has grown out of an interesting case in the Circuit Court. Several months ago Hill brought suit against his wife, Laura C. Hill, for divorce, charging her in the complaint with adultery and naming Silas B. Hedges, of Salmon, as corespondent. The trial of the case occupied the session of the Circuit Court last week and a lot of spicy testimony was introduced. Last Thursday, Judge McBride threw the case out of court and on the same day Hill and Hedges started for home. They stopped at Sandy and Hedges went into the postoffice. Hill entered the place and when he saw Hedges, drew his revolver and fired five shots at Hedges, none of them taking effect. Hedges escaped through a back door and Hill went out the front door, looking for his

BRIGHT PROSPECTS FOR THIS YEAR'S CHAUTAUQUA.

Secretary H. E. Cross, of the Willamette Valley Chautauqua Association, returned this morning from San Francisco, where he attended a meeting of the board of managers of the four Chautauqua associations on the Pacific Coast. The meeting was very harmonious and the four associations will work in unity in the matter of securing talent. Mr. Cross was elected president of the board of managers and will have complete charge of the selection of talent for the four assemblies. This is the first time that distinction has been conferred upon Oregon's representative.

The Willamette Valley assembly will be held this year from July 14 to 26, both dates inclusive, the assembly closing on Sunday. This is an innovation but the board of directors think it a wise plan as probably three-fourths of the campers are religious people

POSTOFFICE RECEIPTS FOR 1902.

Increase Over Previous Year and Nearly Enough to Secure Free Delivery.

Oregon City may, within a very few years, have a free delivery system established within its limits. The postoffice receipts for the year just closed were \$7807 38, a slight increase over 1901. Under the postal regulations any city doing more than a \$10,000 business in a year is entitled to free delivery, and with the present and past growth of this city it will not be long before we can attain the desired end. The volume of business passing through the local office is amazing, and dozens of small country offices are supplied through this office.

A lively football game is promised for Friday, at Willamette, the contesting teams being the ninth and eleventh grades of the Barclay school versus the tenth grade of the same school. Admission to the field will be free, and the boys extend a pressing invitation to everybody to attend and enjoy the afternoon's sport.

man. The constable from Sandy precinct started out on a search for Hill and arrested him. He was brought before the justice of the peace at Sandy and placed under \$1500 bonds to appear before the Circuit Court. Hill expects to obtain bondsmen in Portland, so the constable accompanied him there to seek bail.

PEITV THIEVES AT BARLOW.

Steal Woodchoppers' Tools—Guilty Parties Suspected.

Barlow, Or., Jan. 19.—(Special)—Mr. and Mrs. W. C. Kendal, of Canby, spent Sunday with Mr. and Mrs. D. O. Freeman.

The dance Saturday evening was a pretty slim affair, only a few being present.

Barlow has electric lights now, and we find they are a great improvement. Mr. Hedges has his new house about completed.

Do your trading at Freeman's and get a set of those pretty dishes FREE. Charles Schmidt, whose health has been very poor for some time is doctoring with Dr. C. P. Marrs, of Oregon City. He is improving very rapidly.

W. W. Jesse finished digging his spuds last week.

Quite an excitement was caused in this burg a few days ago by some unknown party relieving some wood choppers of three sledges and one wedge, all first-class goods. Any tidings of the whereabouts of these articles will be rewarded by the losers of same. This is about the first time in the history of this town that anyone has stooped so low as to steal tools from hard working people and they are warned not to try it again as the party who took them can be identified.
