HEROINES OF PEACE.

When we read stories of the terrible Spanish Inquisition of the olden times, and and it seems as if the tortures they depict were almost beyond the invention of the most depraved and fiendish mind; and a yet here in our own enlightened land and in this Nineteenth Century of Civilization, thousands of tender women -our own sisters, mothers and wives -suffering from

some unnatural e weakness of the delicate organism of their sex, are daily undergoing an almost equally terrible, physical anguish and martyrdom.

Possibly you may look upon that word "spendthrift" as one that cannot be applied to you. You may think it applies only to one who foolishly throws away a fortune. If you will turn to your dictionary you will read that he is a spendthrift who is improvident or wasteful. The word applies with equal force to the man earning ten dollars a week and to him who has thousands.

There are no miracles in a business career. The man who wins success has toiled early and late with all his powers of body and mind. He has been subservient to his ambition. He has pushed aside, because it was the first step toward success, every habit and desire that stood between him and his goal. No man was ever numbered among the successful ones unless he was waiting and prepared for Fortune when she knocked at his door. She has never yet been known to wait for any man or boy to prepare himself for her company. I know of no one habit that so thoroughly molds the character of a young man as the habit of economy. It gives him strength of will. It teaches him to look beyond an action to its final result. It continually reminds him that the pure, sweet, innocent pleasures of life are almost to be had for the asking, and that Satan is not only the symposize task most:
