Sheriff's Sale.

Notice is hereby given that under and by virtue of an execution, decree and order of sale, issued out of the Circuit Court of Benton County, Oregon, for the County of Benton, bearing date of April 13th, 1903, under the seal of said Court on a decree and order of sale, in favor of A. E. Laws, plaintiff, and against Sarah Stewart defendant, for the sum of one hundred and fifty five dollars, with interest thereon from the 21st day of March, 1903, at the rate of 10 per cent per annum, and for the further sum of thirty dollars attorney fees, and the further sum of \$24.40 costs and disbursements, which said decree was duly entered in said Court on the 24th day of March, 1903, said decree and order of sale to me directed and delivered, commanding me as sheriff of Benton County, Oregon, to sell in the manner provided by law for the sale of real property, on execution, the following described real property to-wit: Lot 1 number four in block number 33 in the original town of Harvill now Corvallis, Benton County, State of Oregon, together with all and singular tenements, hereditaments and appurtenances thereto belonging or in any wise appertaining; and in obedience to the command of said decree, execution and order of sale, I will on Saturday the 16th day of May, 1903, at the hour of one o'clock p. m., sell at public auction, at the front door of the Court House, in the City of Corvallis, Benton County, Oregon, to the highest bidder for cash in hand all the above described premises, and all the right, title and interest of the said defendant in and to said described property to satisfy said decree execution and order of sale as in said decree specified.

M. P. BURNETT,
Sheriff of Benton County, Oregon,
Dated, April 15th, 1903.

Notice to Contractors.

Bids will be received until the 31st day of May 1903 for the construction of a sewer through the alley in block 5 old town of Corvallis according to the plans and specifications now on file.

RUINED BY VOLCANO.

RICH COFFEE PLANTATIONS
BURIED TEN FEET DEEP
UNDER ASHES.

Cars Fell Into Great Salt Lake—
Found Twenty Thousand of
Buried Treasure—Died at
Hundred and ten years
of Age—Other
News.

City of Mexico, May 12.—News brought here from Guatemala by people who have seen the ruin wrought by the recent eruption of Santa Maria volcano confirms all previous reports.

The situation could hardly be worse.

"All the coffee plantations in the vicinity of the volcano," says Manuel Huertador, who has just arrived here from Guatemala, "have been destroyed for all time. Ashes from 10 to 15 feet deep cover the entire country.

"In the neighborhood of the volcano the ashes are so deep that only the tops of a few of the tallest trees can be seen.

"Scoria and ashes cover 100 square miles of land to a depth of from five to 15 feet and 500 square miles was affected.

"One-third of the entire coffee crop has been destroyed. About 300,000 quintals of the very choicest coffee has been lost and all the land upon which it was grown is doomed to eternal sterility."

Salt Lake, May 12.—Another train has run foul of the quagmire near the east shore of the Great Salt Lake on the line of the Ogden-Lucis cut-off now under construction by the Southern Pacific.

This accident which makes the fourth train of cars to take a bath, occurred yesterday when a train of rock passed over an alleged permanent trestle.

Suddenly 500 feet of the trestle began to sink and the train crew got busy getting out of the way. After considerable of anxiety and a great deal of ominous crackings and unqualified commotion by those in the vicinity, four cars tipped slowly over to one side, and with a grand swirl pitched into the lake.

No one was hurt, and the men are getting trained to read the signs of danger, and know enough to vacate at the first warning.

Philadelphia, May 12.—After having been searched for for six days and almost given up as gone forever, an express package containing \$20,000 has been found in an iron pot beneath the floor of a cellar. The money was stolen from the United States Express Company last Wednesday and 50 detectives have been employed in tracing down the crime. William Murphy, an express messenger, has been arrested and charged with the crime. Only \$200 was missing from the original package. It is thought the thief feared to use the money and had buried it, hoping that in time search would be abandoned and he could then unearth the treasure and enjoy it without danger of detection.

Upper Sandusky, O., May 12.—Peter Stanley died in this city this morning, aged 110. He leaves a widow aged 103. The couple have lived together since 1816. They were the longest married couple in the United States. Both claim to have been the offspring of Alaskan parents.

New York, May 12.—General Benjamin Viljoen, former assistant commandant-general of the Burgher forces in the Boer war and member for Johannesburg in the Transvaal Volksraad, and General W. D. Snyman, have completed arrangements with the Mexican government, by which 83,000 acres of the best land of that country has been secured for a home for immigrants from South Africa. General Snyman will await here the arrival of his family and General Viljoen will sail for South Africa May 17 to conduct the first expedition to the new country.

"I expect," said General Viljoen,

"to bring 50 families immediately and that others will follow soon. Fully 1000 will join the movement to seek freedom on the American continent. The land secured by us is a beautiful fertile strip known as Santa Rosalie, in the state of Chihuahua, and near Ortiz Station, on the Mexican Central railway. Already men are at work there sowing corn. The new comers will be landed at Very Cruz. We would like to bring them to the United States, but the immigration laws are too strict to allow of that.

"We Boers are now practically a people without a home, but we hope to find one in the new country. Our success in getting this tract of land was in great part due to the assistance of President Diaz and Mr. Limantour, the minister of Finance."

Victoria, B. C., May 12.—According to mail advices received from South China, hundreds are dying in Kwang Si Province as a result of the famine there. Correspondents writing from several sections say the destitution, suffering and death is appalling. Whole families are subsisting on a few ounces of rice a day, or on roots and leaves. Missionaries are aiding thousands daily. The famine is causing the rebellion in that province to grow, for the poor are being driven to violence to obtain food. Women and children are being sold by the famine stricken people.

Oregon, City, Or., May 6.—The present law of assessment and taxation and for the collection of taxes does not give satisfaction in Clackamas county. Sheriff Shaffer has just about caught up with the work of receipting for taxes paid under the rebate plan on the 1902 taxroll, and turning the money over to the county treasurer. It is urged against the law now in force that sufficient time is not given for the payment of the taxes to the county. Another objection is the plan of rebate. County Treasurer Cahill insists that the rebate plan is not a good one, and a benefit only to the rich man, who, he says, can pay his taxes at any time he desires while it rustles the poor fellow to scrape together enough money to pay even one-half of his assessment at a time and escape paying penalty and interest charges. With the operation of the rebate system Mr. Cahill says it costs Clackamas county considerable for the extra clerical help that is required in the sheriff's office to receipt for the money within the short space of time that the same can be paid and give the taxpayers the advantage of the discount.

Jersey City, May 13.—Henry Nichols, a well known member of the Jersey City Club, was taken to a hospital on Monday, suffering from blood poisoning, the result of an injury to his right leg. Later he was informed that the leg must be amputated. The surgeons found that the action of Mr. Nichols' heart would not warrant the use of anaesthetics, and he was obliged to submit to the operation without them. After the leg had been amputated below the knee, it was found that gangrene extended above the knee, and that a second operation would be necessary. The leg was then amputated at the thigh. Not once did the patient lose consciousness.

Mr. Joseph Pominville of Stillwater, Minn., after having spent over \$2,000 with the best doctors for stomach trouble, without relief, was advised by his druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. If trouble with indigestion, bad taste in the mouth, lack of appetite or constipation, give these tablets a trial, and you are certain to be more than pleased with the result. For sale at 25 cents per box by Allen and Woodward.

Much Gold in Wrecked Islander—
and Colorado—A Five Thous-
and Dollar Fiddle—Brings
Dead Dogs to Life—
Other News.

Seattle, May 13.—Captain Henry Finch, in a wrecking steamer named for himself, started for a Southeastern Alaska, this morning on a treasure-hunting voyage that promises to turn out far more profitable than any recent attempts of the kind.

He has on board the most modern machinery designed for lifting heavy weights from the depths of the sea, and will make an attempt to recover the treasure cargoes of the sunken ship Colorado and the steamer Islander.

Laden with several hundred thousand dollars worth of Klondike gold, the Canadian Pacific Navigation Company's fine steamer Islander, while en route from Skagway to Victoria, about two years ago collided with an iceberg and sank.

After numerous attempts had been made to locate the spot where she foundered, Captain Finch located her last winter in 200 feet of water 12 miles this side of Juneau.

The Colorado was wrecked on an island not many miles south of where the Islander lies, a little more than a year ago. She was laden with \$15,000 worth of gold concentrates from the Treadwell mine on Douglas Island which she was taking to a Tacoma smelter. She now lies on the beach, with the water barely washing over her upper works.

Captain Finch intends not only to secure the Islander's cargo, but to lift the gold ore from the Colorado and carry it to its original destination. About a dozen expert wreckers and divers will be employed on board the Finch. It is said that Captain Finch, who is a diver of 30 years experience, is doing the work for an English Insurance company.

New York, May 13.—What experts say is probably a genuine Guarnerius violin was pawned in this city for \$20. The pawnbroker says that if the instrument is a Guarnerius, it is worth \$5,000. It is pledged by a Hungarian violinist. The following inscription is discernible inside the instrument, "Joseph Guarnerius, Fecit Cremonae, Anno 1742 I. H. S.

The violinist said the instrument had been discovered three years ago by one of his pupils James Beveridge of Idaho, who was studying in Italy, among the effects of an Italian nobleman who had become a bankrupt. It is the opinion of experts that there is but one other Guarnerius in New York H. O. Havenmeyer owns it and it is of much lighter color than the one in the pawnshop.

Chicago, May 13.—A dispatch to the Tribune from New York says: Raising an interesting question as to when life in animals actually becomes extinct, Dr. Robert C. Kemp, who has been conducting experiments here for two years, has found it possible to restore a dog to life after its heart had stopped beating for 16 minutes. After an examination the animal was officially pronounced dead, yet Dr. Kemp, by massaging his heart so far brought it back to life that it lived 24 hours, and meantime it was so far restored to its faculties that it ate and drank.

In 11 out of 23 experiments of this character, Dr. Kemp has succeeded in "restoring dogs to life," and he is convinced that in the case of human beings under similar conditions, the proportion of restoration would be greater. In the case of the dogs he ascribes their death, after an interval of from two to three to 24 hours, not to failure of his treatment but to the fact that the dogs could not be prevented from tearing away the bandages.

Only one such experiment has been tried on a human being, and in that case it was not successful.
